The New Encyclopedia Of The World:

The Public Image of Henry Ford David Lanier Lewis,1976 Skillful journalism and meticulous scholarship are combined in the full bodied portrait of that enigmatic folk hero Henry Ford and of the company he built from scratch Writing with verve and objectivity David Lewis focuses on the fame popularity and influence of America s most unconventional businessman and traces the history of public relations and advertising within Ford Motor Company and the automobile industry **World Trade Since 1431** Peter J. Hugill,1993 In 1431 the Portuguese navigator Velho set sail into the Atlantic establishing a trade route to the Azores and marking the beginning of commerce with the West as we know it today Equipped with reliable maps and instruments for open ocean navigation and highly sea worthy three masted cannon armed ships Portugal soon dominated the Atlantic trade routes until the diffusion of Portuguese technologies to wealthier polities made Holland the eventual successor owing to its geographic position and its immense commercial fleet The Missionary Review of the World ,1913
