Emmerson,2013-10-18 From emperors and queens to artists and world travelers from popes and scholars to saints and heretics *Key Figures in Medieval Europe* brings together in one volume the most important people who lived in medieval Europe between 500 and 1500 Gathered from the biographical entries from the on going series the *Routledge Encyclopedias of the Middle Ages* these A Z biographical entries discuss the lives of over 575 individuals who have had a historical impact in such areas as politics religion or the arts Individuals from places such as medieval England France Germany Iberia Italy and Scandinavia are included as well as those from the Jewish and Islamic worlds A thematic outline is included that lists people not only by categories but also by regions For a full list of entries contributors and more visit the *Routledge Encyclopedias of the Middle Ages* website *Myths of the*

Pagan North Christopher Abram, 2011-03-03 As the Vikings began to migrate overseas as raiders or settlers in the late eighth century there is evidence that this new way of life centred on warfare commerce and exploration brought with it a warrior ethos that gradually became codified in the Viking myths notably in the cult of Odin the god of war magic and poetry and chief god in the Norse pantheon The twelfth and thirteenth centuries when most of Scandinavia had long since been converted to Christianity form perhaps the most important era in the history of Norse mythology only at this point were the myths of Thor Freyr and Odin first recorded in written form Using archaeological sources to take us further back in time than any written document the accounts of foreign writers like the Roman historian Tacitus and the most important repository of stories of the gods old Norse poetry and the Edda Christopher Abram leads the reader into the lost world of the Norse gods

The Poetics of Commemoration Erin Michelle Goeres, 2015 The Poetics of Commemoration is a study of commemorative skaldic verse from the Viking Age It investigates how skaldic poets responded to the deaths of kings and the ways in which poetic commemoration functioned within the social and political communities of the early medieval court Beginning with the early genealogical poem Ynglingatal the book explores how the commemoration of a king's ancestors could be used to consolidate his political position and to provide a shared history for the community It then examines the presentation of dead kings in the poems Eiríksmál and Hákonarmál showing how poets could re-cast their kings as characters of myth and legend in the afterlife This is followed by an analysis of verse in which poets use their commemoration of one king to reinforce their relationship with his successor it is shown that poetry could both help and hinder the integration of the poet into the retinue of a new king Focusing then on the memorial poems composed for Kings Ólafr Tryggvason and Ólafr Haraldsson as well as for the Jarls of the Orkney Islands the book considers the tension between public and private expressions of grief It explores the strategies used by poets to negotiate the tumultuous period that followed the death of a king and to work through their own emotional responses to that loss The book demonstrates that skaldic poets engaged with the deaths of rulers in a wide variety of ways and that poetic commemoration was a particularly effective means not only of constructing a collective memory of the dead man but also of consolidating the new social identity of the community he left behind
