Sketch Blue:

The Navy List Great Britain. Admiralty,1922 Virginia Woolf Lorraine Sim,2016-02-11 In her timely contribution to revisionist approaches in modernist studies Lorraine Sim offers a reading of Virginia Woolf's conception of ordinary experience as revealed in her fiction and nonfiction Contending that Woolf's representations of everyday life both acknowledge and provide a challenge to characterizations of daily life as mundane Sim shows how Woolf explores the potential of everyday experience as a site of personal meaning social understanding and ethical value Sim's argument develops through readings of Woolf's literary representations of a subject's engagement with ordinary things like a mark on the wall a table or colour Woolf's accounts of experiences that are both common and extraordinary such as physical pain or epiphanic moments of being and Woolf's analysis of the effect of new technologies for example motor cars and the cinema on contemporary understandings of the external world Throughout Sim places Woolf's views in the context of the philosophical and lay accounts of ordinary experience that dominated the cultural thought of her time These include British Empiricism Romanticism Platonic thought and Post Impressionism In addition to drawing on the major novels particularly *The Voyage Out* *Mrs Dalloway* and *To the Lighthouse* Sim focuses close attention on short stories such as *The Mark on the Wall* *Solid Objects* and *Blue* nonfiction works including *On Being Ill* *Evening over Sussex* *Reflections in a Motor car* and *A Sketch of the Past* and Woolf's diaries Sim concludes with an account of Woolf's ontology of the ordinary which illuminates the role of the everyday in Woolf's ethics

In the Land of the Blue Poppies Frank Kingdon Ward,2012-10-17 A Modern Library Paperback Original During the first years of the twentieth century the British plant collector and explorer Frank Kingdon Ward went on twenty four impossibly daring expeditions throughout Tibet China and Southeast Asia in search of rare and elusive species of plants He was responsible for the discovery of numerous varieties previously unknown in Europe and America including the legendary Tibetan blue poppy and the introduction of their seeds into the world's gardens Kingdon Ward's accounts capture all the romance of his wildly adventurous expeditions whether he was swinging across a bottomless gorge on a cable of twisted bamboo strands or clambering across a rocky scree in fear of an impending avalanche Drawn from writings out of print for almost seventy five years this new collection edited and introduced by professional horticulturalist and House Garden columnist Tom Christopher returns Kingdon Ward to his deserved place in the literature of discovery and the literature of the garden
