This book teaches us how to be a bodhisattva Its content is drawn from Master Cheng Yen s morning lecture from September to November 2005 in which she taught about a passage from the Compassionate Samadhi Water Repentance The passage reads We have engaged in all wrongdoing because of the six heretical practices For the sake of clarity Master gave a detailed explanation of the Buddha s Six Sets of Practices to stand in contrast with the six heretical practices and show us the correct direction for our spiritual practice The Buddha s Six Sets of Practices are the fifty two stages of bodhisattvas They form the most important guide for spiritual practitioners learning to become bodhisattvas Therefore we singled out this passage from the Water Repentance text so that everyone could have it in hand and learn from it with ease After reading this book you will be aware of the hardships you might encounter as a bodhisattva and you will learn how to stand firm in your resolve Once you are replete in faith and the power of vows you can also become a bodhisattva

Visions of Awakening Space and Time Taigen Dan Leighton, 2008-12-31 As a religion concerned with universal liberation Zen grew out of a Buddhist worldview very different from the currently prevalent scientific materialism Indeed says Taigen Dan Leighton Zen cannot be fully understood outside of a worldview that sees reality itself as a vital dynamic agent of awareness and healing In this book Leighton explicates that worldview through the writings of the Zen master Eihei D gen 1200 1253 considered the founder of the Japanese S t Zen tradition which currently enjoys increasing popularity in the West The Lotus Sutra arguably the most important Buddhist scripture in East Asia contains a famous story about bodhisattvas enlightening beings who emerge from under the earth to preserve and expound the Lotus teaching in the distant future The story reveals that the Buddha only appears to pass away but actually has been practicing and will continue to do so over an inconceivably long life span Leighton traces commentaries on the Lotus Sutra from a range of key East Asian Buddhist thinkers including Daosheng Zhiyi Zhanran Saigyo My e Nichiren Hakuin and Ry kan But his main focus is Eihei D gen the 13th century Japanese S t Zen founder who imported Zen from China and whose profuse provocative and poetic writings are important to the modern expansion of Buddhism to the West D gen s use of this sutra expresses the critical role of Mahayana vision and imagination as the context of Zen teaching and his interpretations of this story furthermore reveal his dynamic worldview of the earth space and time themselves as vital agents of spiritual awakening Leighton argues that D gen uses the images and metaphors in this story to express his own religious worldview in which earth space and time are lively agents in the bodhisattva project Broader awareness of D gen s worldview and its implications says Leighton can illuminate the possibilities for contemporary approaches to primary Mahayana concepts and practices

Nguyen,2011-11-30 Leading East Asian Buddhist thinkers of the seventh century compared analyzed and finalized seminal epistemological and soteriological issues that had been under discussion in India and East Asia for centuries Among the many doctrinal issues that came to the fore was the relationship between the Tathagatagarbha or Buddha nature understanding of the human psyche and the view of basic karmic indeterminacy articulated by the new stream of Indian Yogacara introduced through the translations and writings of Xuanzang and his disciples The great Silla scholiast Wonhyo 617 686 although geographically located on the periphery in the Korean peninsula was very much at the center of the intense discussion and debate that occurred on these topics Through the force of his writings he became one of the most influential figures in resolving doctrinal discrepancies for East Asian Buddhism Although many of Wonhyo s writings are lost through his extant work we are able to get a solid glimpse of his profound and learned insights on the nature and function of the human mind We can also clearly see his hermeneutical approaches and methods of argumentation which are derived from apophatic Madhyamika analysis the newly introduced Buddhist logic as well as various indigenous East Asian approaches This volume includes four of Wonhyo s works that are especially revelatory of his treatment of the complex flow of ideas in his generation System of the Two Hindrances Yijang ui Treatise on the Ten Ways of Resolving Controversies Simmun hwajaeng non Commentary on the Discrimination between the Middle and the Extremes Chungbyon punbyollon so and the Critical Discussion on Inference P an piryang non **The Courage to Teach Guide for Reflection and Renewal** Parker J. experiences Western scholars and interpreters of the dakini influenced by Jungian psychology and feminist goddess theology have shaped a contemporary critique of Tibetan Buddhism in which the dakini is seen as a psychological shadow a feminine savior or an objectified product of patriarchal fantasy According to Judith Simmer Brown who writes from the point of view of an experienced practitioner of Tibetan Buddhism such interpretations are inadequate In the spiritual journey of the meditator Simmer Brown demonstrates the dakini symbolizes levels of personal realization the sacredness of the body both female and male the profound meeting point of body and mind in meditation the visionary realm of ritual practice and the empty spacious qualities of mind itself When the meditator encounters the dakini living spiritual experience is activated in a nonconceptual manner by her direct gaze her radiant body and her compassionate revelation of reality Grounded in the author s personal encounter with the dakini this unique study will appeal to both male and female spiritual seekers interested in goddess worship women s spirituality and the tantric tradition
