Friesen, 2016-02-25 The Palgrave Companion to North American Utopias is a fascinating virtual catalogue of utopian societies and communes from past to present The authors assert that the formation of a utopian society is both possible and feasible and give examples of how to create one of our own *Meanjin Papers* Clement Byrne Christesen, 1958 Ecological Reasonings Kilian Jörg, 2024-10-17 What role does reason have in tackling the catastrophic ecological situation of the early 21st century Can the concept shrug off its problematic role in Western epistemology and find a new place and function in dealing with the Anthropocene In *Ecological Reasonings* Kilian Jörg argues that we ignore reason at our peril This book revolves around the idea that in order to salvage reason we must include it in the current move to pluralize the key concepts of Western philosophy where we once talked of nature science and technology we now talk about nature's sciences and technologies In the same way it is time to reconceptualize reason as reasonings a diverse and multi-perspectival wealth of interactions that can create a vital alternative to the mainstream academic thought Drawing on a broad span of theoretical traditions including new materialism eco feminism embodied performance and speculative philosophy Jörg weaves countless voices and aspects together to demonstrate the rich texture of his pluralized vision The impact of these new reasonings on the pressing challenges of our time can be seen in the sheer scope of these elements from the role of artificial intelligence to

the post truth society and how science can shape our own self understanding The Cultural Turn David Chaney,2002-11 This book explains the turn to culture and the lessons to be drawn from this movement The author also provides an elegant and informative guide to the importance of culture in the postmodern world A key work in understanding culture Art in Consumer Culture Grace McQuilten,2017-07-05 Written with beautiful clarity Art in Consumer Culture Mis Design asks the contemporary art world to be honest about the pervasive effects of commodification and the difficulty of staging critique The book examines the collusion of art and design in contemporary artistic practices in order to find avenues of critique in a commercially driven cultural landscape Grace McQuilten focuses on the work of Takashi Murakami Andrea Zittel Adam Kalkin and Vito Acconci four contemporary artists who claim to be working in the field of design rather than the traditional art world McQuilten argues that Zittel Acconci and Kalkin engage with design only to reactivate the critical practice of art in a more direct engagement with capital and conceives of and affirms a future for art outside of the art world as a parasite in the complex beast of late capitalism This book is an important and timely provocation to a cynical and apathetic consumer culture and a call to arms for creative freedom and critical thought *Urban Utopias* Malcolm Miles,2007-11-21 Utopia tends to generate a bad press regarded as impracticable perhaps nostalgic or contradictory when visions of a perfect world cannot accommodate the change that is necessary to a free and self organizing society But people from diverse backgrounds are currently building a new society within the old balancing literal and metaphorical utopianism and demonstrating plural possibilities for alternative futures and types of settlement Thousands of such places exist around the world including intentional communities eco villages permaculture plots religious and secular retreats co housing projects self build schemes projects for low impact housing and activist squats in urban and rural sites This experience suggests however that when planning and design are not integral to alternative social formations the modern dream to engineer a new society cannot be realized The book is structured in four parts In part one literary and theoretical utopias from the early modern period to the nineteenth century are reconsidered Part two investigates twentieth century urban utopianism and contemporary alternative settlements focusing on social and environmental issues activism and eco village living Part three looks to wider horizons in recent practices in the non affluent world and Part four reviews a range of cases from the author s visits to specific sites This is followed by a short conclusion in which a discussion of key issues is resumed This book brings together insights from literary theoretical and practical utopias drawing out the characteristics of groups and places that are part of a new society It links today s utopian experiments to historical and literary utopias and to theoretical problems in utopian thought
