Sociology Relationships That Make A World:

Sociology Marjorie E. Donovan,1998 *A Critical Theory for the Anthropocene* Nathanaël Wallenhorst,2023-09-15 This volume which is rooted in biogeophysical studies addresses conceptions of political action in the Anthropocene and the tension between a desire to accomplish the Promethean project of modernity and a post Promethean approach This work explores the idea of an anthropological mutation of political consolidation from a post Promethean togetherness to creating the capacity to act together The political thinking of the human condition developed by Hannah Arendt is important here as a resource for thinking about humanity in terms of human adventure This has three dimensions hubris the world and coexistence referring respectively to the logic of profit of the homo oeconomicus the logic of responsibility of the homo collectivus and the logic of the hospitality of the homo religatus The intellectual and political attitude outlined in this book is an extension of critical theory the work also puts forward a critique of what poses a problem in our relationship to the world and suggests how to overcome it the ultimate goal being social transformation The author propose an uprising and an anthropological consolidation of politics based on the revitalization that is brought about by the sharing of a conviviality both between humans and with what is non human The identification of conviviality as an educational paradigm to survive the Anthropocene gives us the much needed reason for hope despite this heritage of the Anthropocene In addition to Arendtian thinking this critical theory for the Anthropocene draws on the political thinking of several contemporary authors including Maurice Bellet Hartmut Rosa Andreas Weber Dominique Bourg and Christian Arnsperger This volume is of interest to researchers in the Anthropocene *Sociological Perspectives of Education* Prof. (Dr.) Shauli Mukherjee, Emmanuel Ande Ivorgba, PhD & Pranay Pandey,2023-06-30 The term Society is the most fundamental one in sociology It is used in very wide sense In common parlance the society is to refer to members of specific groups For example we speak of Harijan Society Teacher s Society and Students society and the like Similarly the word is used to refer to some specific institution like Brahma Samaj Arya Samaj etc But in sociology the term Society refers not to group of people but to the complex pattern of the norms of interaction that arise among them People are only the agents of social relationship they are regarded as things A society is intangible it is a process rather than a thing motion rather than structure Society is a web of social relationships the pattern of norms of interaction by which the members of the society maintain themselves *Schools and Society* Jeanne H.
