Sociology Stop Press And Video Release:

Introducing Sociology Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2025-10-03 The challenges of teaching a successful introductory sociology course today demand materials very different from the norm. It is a question of making the practice of sociological thinking meaningful, rigorous, and relevant to today's world of undergraduates. This comparatively concise, highly visual, and engaging book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist's teaching arsenal: the familiar stuff in students' everyday lives throughout the world. The jeans they wear to class, the coffee they drink each morning, or the phones their professors tell them to put away during lectures. A focus on consumer culture, seeing the strange in the familiar, is not only interesting for students; it is also what the authors suggest pedagogically superior to more traditional approaches. By engaging students through their stuff, this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking. It moves beyond describing what sociology is so that students can practice what sociological thinking can do. This pedagogy also posits a relationship between teacher and learner that is bi-directional. Many students feel a sense of authority in various areas of consumer culture, and they often enjoy sharing their knowledge with fellow students and with their instructor. Opening up the sociology classroom to discussion of these topics validates students' expertise on their own life worlds. Teachers in turn gain insight from the goods, services, and cultural expectations that shape students' lives. While innovative, the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester. A map on pages xix-xx identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained. Theory, method, and active learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology. This new edition is thoroughly revised and updated, incorporating the latest research around material sociology, culture, and object-oriented studies. New teaching materials and illustrations are included. Online resources to support teaching and learning include videos, flashcards, quizzes, and further reading. Instructor's manual, PowerPoints, and test bank.

Visual Sociology and Using Film/video in Sociology Courses Diana Papademas, 1993 *Audio Video Review Digest*, 1990 *Media Sociology* David Barrat, 1986-05-15 David Barrat gives a clear account of how and why sociologists have studied the media. He looks at the arguments about the effects of different media on their audiences and the impact of new technologies such as satellite and cable TV.

Video-Analysis and Knowledge on Rewind Ajit Singh, Christian Meier zu Verl, René Tuma, 2025-08-01 This volume applies interpretive video analysis to explore the intersections between the sociology of knowledge and interaction studies. Presenting a series of studies that draw on video-analytic and videographic approaches to research, it examines the way video data can shed light on connections between social phenomena at the micro, meso, and macro levels and the access that it grants to the temporality of social reality. With empirical research in fields such as care, consumption, gaming, military, music, science, and

violence the studies in this volume show how the video analytic approach provides an empirical basis for progress in social theory and aids the development of the concept of knowledge As such it will appeal to scholars of sociology with interests in social theory the sociology of knowledge and visual methods in social research Sociology of Sexualities Kathleen J.
