Sociopolitics Of English Language Teaching:

The Sociopolitics of English Language Teaching Joan Kelly Hall, William Eggington, 2000-01-01 The sociopolitical dimensions of English language teaching are central to the English language professional. These dimensions include language policies, cultural expectations, and the societal roles of languages. This book aims to present these issues to practicing and aspiring teachers in order to raise awareness of the sociopolitical nature of English language teaching. **The Sociopolitics**

Testing Seyyed-Abdolhamid Mirhosseini, Peter De Costa, 2020-02-20 Highlighting marginalized but significant perspectives about the sociopolitical essence of English language tests and testing processes worldwide, this book explores the social considerations of testing theories and practices from a critical perspective. Investigating concerns surrounding power inequalities, *The Sociopolitics of English Language Testing* takes a socially situated view of language assessment, bringing sociopolitical understandings of language teaching, learning, and assessment to the forefront in the field. Within the broader discussion of the politics of test use, an international team of language and education experts address the issues of ideology, diversity, power, and dominance in English language testing. Through socially sensitive theoretical as well as empirical discussion and investigation of English language testing, this book offers valuable insights not only to applied linguists and the language education community who have focused on positivistic and cognitively oriented conceptions of language testing, but to anyone who wishes to venture beyond the traditional bounds of the field. Englishes in English Language Teaching

Marzieh Sadeghpour, 2019-07-23 The unprecedented growth and recognition of new world Englishes call for English language teaching programs to consider the place and relevance of the paradigm of World Englishes to the content and delivery of their curricula. This concern is particularly compelling in the multi-varietal contexts such as Australia, where speakers from different Kachruvian Circles interact frequently with one another. Investigating the place and pertinence of World Englishes in English language teaching in Australia, this book explores the perceptions of English language teachers from culturally and linguistically diverse backgrounds working in Australia. Looking at the effect on teachers' confidence when dealing with different varieties of English, the pedagogical implications, and the causes of varying degrees of perception among teachers, the author highlights the possible changes that could take place that would pave the ground for the development of World Englishes-informed curriculum and pedagogy for English as an International Language, which would in turn provide opportunities for learners to develop requisite competencies for intercultural communication. These are the skills which enable learners to successfully interact with speakers of various Englishes and negotiate and navigate with their interlocutors the differing cultural conceptualisations associated with the varieties of English during international and

intercultural communication Vital reading for anyone researching English language teaching or varieties of English and those teaching English as an international language anywhere in the world *International Handbook of English Language Teaching* Jim Cummins, Chris Davison, 2007-12-31 This two volume handbook provides a comprehensive examination of policy practice research and theory related to English language teaching ELT in international contexts Nearly 70 chapters highlight the research foundation for the best practices frameworks for policy decisions and areas of consensus and controversy in the teaching and development of English as a second and or additional language for kindergarten through to adult speakers of languages other than English In doing so it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole At various times and in different contexts the following labels have been used in countries where English is the dominant language to describe programs learners or teachers of English English as a second language ESL English as an additional language EAL limited English proficient LEP and English language learners ELL In contexts where English is not the dominant language the following terms have been used English as a foreign language EFL English as an international language EIL and English as a lingua franca ELF

A Sociopolitical Agenda for TESOL Teacher Education Peter De Costa, Özgehan Ustuk, 2023-10-05 Teaching English to Speakers of Other Languages TESOL sits at the nexus of constant change which makes it vitally important for language teachers to engage in continuous development and keep abreast of the sociopolitical milieu in which they are embedded However most teacher education activities are often associated with what is perceived as best practices that are expected to be adopted often uncritically for classroom application and practice with the intention of training teachers to

become technicians in their respective classrooms In reality TESOL practitioners often find themselves in situations that require them to be reflexive practitioners and to negotiate sites of political struggles and social injustice Given that a socially situated understanding of TESOL teacher education is often overlooked this volume highlights the sociopolitical dimensions of TESOL teacher education In Part 1 the authors introduce the theoretical underpinnings of the sociopolitical agenda proposed by this volume Building on these theories Part 2 realizes the proposed agenda by situating it within actual TESOL teacher education contexts that are characterized by power imbalances and neoliberally inflected educational injustices
