

4 reasons data should be portable

Resiliency

If data can move among cloud providers, it remains accessible even if one cloud has an issue.

Avoiding vendor lock-in

Mobile data means customers don't have to commit to a single provider because it offers better data services.

Cost

Mobility lets customers take advantage of cheaper tiers of storage from among various cloud service providers.

Exploiting cheap compute

Portable data lets customers take advantage of discounts compute providers offer at certain times of day.
