Soho Guide 1999 Soho Guide Nyc:

The Rough Guide to New York City Martin Dunford, Jack Holland, 2002 Written by New York natives this guide zeros in on Manhattan the city's crown jewel and its world class museums restaurants clubs and hotels and then goes on to the rich and diverse outer boroughs digging up the less obvious charms 34 maps of color maps **The Manhattan Guide**, 1901 **The Official Railway Guide**, 1883 **Artists' SoHo** Richard Kostelanetz, 2015-01-02 During the 1960s and 1970s in New York City young artists exploited an industrial wasteland to create spacious studios where they lived and worked redefining the Manhattan area just south of Houston Street Its use fueled not by city planning schemes but by word of mouth recommendations the area soon grew to become a world class center for artistic creation indeed the largest urban artists colony ever in America let alone the world Richard Kostelanetz's *Artists SoHo* not only examines why the artists came and how they accomplished what they did but also delves into the lives and works of some of the most creative personalities who lived there during that period including Nam June Paik Robert Wilson Meredith Monk Richard Foreman Hannah Wilke George MacQuinn and Alan Suicini Gallerists followed the artists in fashioning themselves their homes their buildings and even their streets into transiently prominent exhibition and performance spaces SoHo pioneer Richard Kostelanetz's extensively researched intimate history is framed within a personal memoir that unearths myriad perspectives social and cultural history the changing rules for residency and ownership the ethos of the community the physical layouts of the lofts the types of art produced venues that opened and closed the daily rhythm and the gradual invasion of new people Artists SoHo also explores how and why this fertile bohemia couldn't last forever As wealthier people paid higher prices galleries left younger artists settled elsewhere and the neighborhood became a SoHo Mall of trendy stores and restaurants Compelling and often humorous *Artists SoHo* provides an analysis of a remarkable neighborhood that transformed the art and culture of New York City over the past five decades *The Official Guide of the Railways and Steam Navigation Lines of the United States, Puerto Rico, Canada, Mexico and Cuba* William Frederick Allen, Edwin Stevens Allen, Andrew J. Burns, 1919 Naked City Sharon Zukin, 2009-12-18 Sharon Zukin argues that the rapid and pervasive demand for authenticity and the consequent escalating real estate prices has helped drive out the very people who first lent a neighborhood its authentic aura immigrants the working class and artists Zukin traces this economic and social evolution in six archetypal New York areas Williamsburg Harlem the East Village Union Square Red Hook and the city's community gardens and shows that for followers of Jane Jacobs this transformation is a perversion of what was supposed to happen **The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba**, 1881 *Manhattan Modern* Carsten Schmidt, 2014 **The Spatial Politics of the Sculptural** Euyoung Hong, 2016-10-04 Space is a formative factor in the production of sculpture Phenomenological thought interprets sculptural work in relation to the immersive experience of the viewer situating it within its environment But what possibilities lie beyond this unitary position What is the political

potential of a sculptural object How can its spatial relations and movements be reconfigured beyond its immediate environment *Spatial Politics of the Sculptural* investigates the concept of space and its role in the production of the sculptural form from a multidimensional perspective Engaging with the work of Krauss Fried Merleau Ponty Deleuze and Guattari and using case studies of urban development in Paris New York and Seoul it reinterprets and dislocates the sculptural form in terms of the political dynamism of space proposing a new methodology for reading producing and expanding sculptural practice Drawing on David Harvey's theory of capital it scrutinizes the idea of the spatial in the process of urbanization It examines the interrelationship between capital flow and accumulation and explores the production and destruction of space in relation to the creation of three dimensional works of art In doing so it expands the idea of the sculptural object in relation to the urban environment
