Soldiers And Politicians

Donald Le Crone McMurry

Soldiers And Politicians:

Soldiers, Politicians, and Civilians David Pion-Berlin, Rafael Martínez, 2017-07-29 Are interactions between soldiers politicians and civilians improving Every nation has to come to grips with achieving a more enduring harmony between government the armed forces and society if it aspires to strengthen its democracy While there is an abundance of studies on civil military affairs few examine all three of these actors let alone establish any standards with which to assess whether progress is being made This ambitious book devises a novel framework equipped with six dimensions each of which opens a unique window into civil military affairs and which form a more integrated view of the subject Those dimensions are accompanied by a set of benchmarks and metrics that assess progress and compare one country against another The framework is applied to case studies of Argentina Brazil Chile and Uruguay with the conviction that insights could be gleaned that may be relevant elsewhere Ultimately by unpacking the civil military relation into its various dimensions this study has shed light on what it takes to transform what was once a politically minded military into an organization dedicated to serving a democratic state and society

Soldiers and Politicians P. N. Khanduri, Chandra B.. Khanduri, 2001 The Book Is About The Relationship Between The Soldiers Of Eminence And Their Political Bosses During War And Peace The Book Is Both For Novice Readers And Expert Strategists

Our Army Jason K. Dempsey, 2009-12-07 Conventional wisdom holds that the American military is overwhelmingly conservative and Republican and extremely political Our Army paints a more complex picture demonstrating that while army officers are likely to be more conservative rank and file soldiers hold political views that mirror those of the American public as a whole and army personnel are less partisan and politically engaged than most civilians Assumptions about political attitudes in the U S Army are based largely on studies focusing on the senior ranks yet these senior officers comprise only about 6 percent of America s fighting force Jason Dempsey provides the first random sample survey that also covers the social and political attitudes held by enlisted men and women in the army Uniting these findings with those from another unique survey he conducted among cadets at the United States Military Academy on the eve of the 2004 presidential election Dempsey offers the most detailed look yet at how service members of all ranks approach politics He shows that many West Point cadets view political conservatism as part of being an officer raising important questions about how the army indoctrinates officers politically But Dempsey reveals that the rank and file army is not nearly as homogeneous as we think or as politically active and that political attitudes across the ranks are undergoing a substantial shift Our Army adds needed nuance to our understanding of a profession that seems increasingly distant from the average American
