Solidarity And Contention:

Solidarity and Contention Maryjane Osa, 2003 Solidarity and Contention deftly reconstructs the networks of protest in Communist Poland to show how waves of dissent during the 1950s 1960s and 1970s left an organizational residue that both instructed and enabled Solidarity and ultimately the Polish revolution Using newly available documentary sources Maryjane Osa shows how political challengers developed an ideological formula to facilitate coalition building

Pluralizing Humanism Slavica Jakelić, 2025-02-28 Humanism is appealed to today whenever we want to tackle the conditions of dehumanization in the contemporary world But for humanism to be viable in the twenty first century this book argues it needs to be pluralized Employing theoretical historical and sociological arguments this book moves beyond the discourse of critique It engages theories of religion and secularism as well as postmodern postcolonial and decolonial critiques of Western humanist projects to uncover the ideas and practices of religious and secular humanisms when they challenge dehumanization in the pursuit of conditions of flourishing for all Through studies of the Solidarity movement in Poland and the anti apartheid movement in South Africa the book demonstrates the centrality of humanist traditions to the emergence of religious secular solidarities that transformed the political landscapes of the world By highlighting the instances in which humanisms functioned as checks on each other s absolutist claims the book contends that humanisms supply a constructive path for addressing the challenges of our time a time of radically divided societies and intolerant even violent forms of nationalism A challenge to the critiques of humanism that seek to identify it solely as the legacy of the West as anti religious discourse or relegate it to the domain of power constellations Pluralizing Humanism highlights the rich plurality of humanist discourses and the need for their mutual engagements It points to humanist ideals as constitutive of politics that can guide our human power because they are irreducible to it As such this book will appeal to social scientists social theorists religious studies scholars and ethicists with interests in religion secularism social movements and humanist thought and practice

Popular Politics and the Path to Durable Democracy Mohammad Ali Kadivar, 2022-11-22 A groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization When protests swept through the Middle East at the height of the Arab Spring the world appeared to be on the verge of a wave of democratization Yet with the failure of many of these uprisings it has become clearer than ever that the path to democracy is strewn with obstacles Mohammad Ali Kadivar examines the conditions leading to the success or failure of democratization shedding vital new light on how prodemocracy mobilization affects the fate of new democracies Drawing on a wealth of new evidence Kadivar shows how the longest episodes of prodemocracy protest give rise to the most durable new democracies He analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010 showing how more robust democracies emerge from lengthier periods of unarmed mobilization Kadivar then analyzes five case studies South Africa Poland Pakistan Egypt and Tunisia to investigate the underlying mechanisms He finds that organization building during the years of struggle

develops the leadership needed for lasting democratization and strengthens civil society after dictatorship Popular Politics and the Path to Durable Democracy challenges the prevailing wisdom in American foreign policy that democratization can be achieved through military or coercive interventions revealing how lasting change arises from sustained nonviolent grassroots mobilization *Intermarium* Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture *Republicanism in Theory and Practice* Iseult Honohan, Jeremy Jennings, 2006-01-16 While republicanism has long been a subject of sustained interest the topic is at the moment experiencing an international revival This is reflected in the fact that it is becoming more widely taught particularly at an advanced level Republicanism frequently features as a compulsory topic in political theory courses as well as in comparative politics and US and European political history This book combines theory and practice It features some unique case studies on topics such as family and housing policy as has a broad geographical scope Churches and Political Power under Communism in Central and Eastern Europe Dragoş Ursu, This volume is the result of the work of 15 researchers from four former communist countries Poland Hungary Romania Moldova who approach the relationship between political power and the churches in Central and Eastern Europe during communism from an interdisciplinary perspective exploring several directions biographies reconstructing the fate of the heroes of anti communist resistance institutions analysing the mechanisms of repression memorialisation museum representations of communist repression and cultural cinematographic representations of the communist past Drago Ursu PhD in History with a thesis on political detention in Romania post doctoral researcher at the University of Alba Iulia interested by the history of communist regimes political repression memory of anti communist resistance state church relations in the 20th century The Routledge History of East Central Europe Since 1700 Irina Livezeanu, Arpad von
