Solution Chemistry Of Surfactants:

Solution Chemistry of Surfactants K.L. Mittal, 2012-12-06 The 52nd Colloid and Surface Science Symposium of the Division of Colloid and Surface Chemistry of the American Chemical Society was held in Knoxville TN June 12-14 1978 and one of its Sections was devoted to the topic of Solution Chemistry of Surfactants Although it was billed as the Section on Solution Chemistry of Surfactants but it was indeed a veritable international symposium on this topic as 51 papers by about 100 contributors from 12 countries were listed in the program The present volume and its companion volume 2 document the proceedings of the above mentioned Section on Solution Chemistry of Surfactants In 1976 there was held an international symposium on Micellization Solubilization and Microemulsions in Albany the proceedings of which have been chronicled in two volumes A great deal of material dealing with micelles contributed by a legion of prominent researchers constitutes these volumes but a few subtopics were not adequately covered so it was deemed appropriate to cover these topics as well as the recent progress in the general area of aggregation of surfactants in this Section Also as it is the amphiphilicity or amphipathicity of a surfactant molecule which is responsible for both adsorption at interfaces and aggregation in solution so it was considered quite apropos to include the topic of adsorption at interfaces in this Section Concomitantly the present volumes not only cover the aggregation phenomena but also the adsorption at interfaces

Surfactants in Solution K.L. Mittal, 2013-03-09 This and its companion volumes 7 8 and 9 document the proceedings of the 6th International Symposium on Surfactants in Solution SIS held in New Delhi India August 18-22 1986 under the joint

auspices of the Indian Society for Surface Science and Technology and Indian Institute of Technology Delhi As this symposium was a landmark it represented the tenth anniversary of this series of symposia so it is very apropos to reflect on how these symposia have evolved to their present size and status The pedigree of this series of symposia goes back to 1976 when the premier symposium in this series was held Actually in 1976 it was a modest start and it was not possible at that time to gaze at the crystal ball and predict what would be the state of affairs in 1986 For historical purposes it should be recorded here that the first symposium was held in Albany NY under the title Micellization Solubilization and Microemulsions the second symposium was christened Solution Chemistry of Surfactants and was held in Knoxville TN in 1978 the venue for the third symposium in 1980 was Potsdam NY and it was dubbed International Symposium on Solution Behavior of Surfactants Theoretical and Applied Aspects **Surfactants in Solution** K.L. Mittal,B. Lindman,2013-11-11 This and its companion Volumes 2 and 3 document the proceedings of the 4th International Symposium on Surfactants in Solution held in Lund Sweden June 27 July 2 1982 This biennial event was christened as the 4th Symposium as this was a continuation of earlier conferences dealing with surfactants held in 1976 Albany under the title Micellization Solubilization and Microemulsions in 1978 Knoxville under the title Solution Chemistry of Surfactants and in 1980 Potsdam where it was dubbed as Solution Behavior of Surfactants Theoretical and Applied Aspects The Proceedings of all these symposia have been properly chronicled The Lund Symposium was billed as Surfactants in Solution as both the aggregation and adsorption aspects of surfactants were covered and furthermore we were interested in a general title which could be used for future conferences in this series As these biennial events have become a well recognized forum for bringing together researchers with varied interests in the arena of surfactants so it is amply vindicated to continue these and the next meeting is planned for July 9-13 1984 in Bordeaux France under the cochairmanship of K L Mittal and P Bothorel The venue for 1986 is still open although India inter alia is a good possibility Apropos we would be delighted to entertain suggestions regarding where and when these biennial symposia should be held in the future and you may direct your response to Kk **Surfactants in Solution** K.L. Mittal,P. Bothorel,2012-12-06 This and its companion Volumes 5 and 6 document the proceedings of the 5th International Symposium on Surfactants in Solution held in Bordeaux France July 9-13 1984 This symposium was the continuation of the series of symposia initiated in 1976 in Albany New York under the title Micellization Solubilization and Microemulsions The next two symposia were labelled Solution Chemistry of Surfactants and Solution Behavior of Surfactants Theoretical and Applied Aspects held in Knoxville TN in 1978 and Potsdam N Y in 1980 respectively In 1982 at the time of the 4th Symposium in this series it became amply evident that there was a definite need to have more a generic title to describe these biennial events and after much deliberation it was decided that an appropriate title would be Surfactants in Solution as both the aggregation and adsorption aspects of surfactants were addressed So the 4th Symposium was held in 1982 in Lund Sweden under this new rubric and it was decided to continue these symposia in the future under this

appellation Naturally the Bordeaux Symposium was dubbed as the 5th International Symposium on Surfactants in Solution and our logo became SIS which is very apropos and appealing It was in Bordeaux that the decision was made to hold the 6th SIS Symposium in New Delhi and it is scheduled for August 18 22 1986 in the capital of India **Surfactants in Solution**
