Wegren, 2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together some of the finest scholars on rural Russia this groundbreaking

volume examines this perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia. Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation, the social origins of private farmers in southern Russia, and Ukraine response patterns by large farms formerly collective and state farms. household adaptation using a standardized set of criteria. This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental conditions and stimuli created by reform. The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era. This book was previously as a special issue of *The Journal of Peasant Studies*.      *Serials Currently Received by the National Agricultural Library, 1975*  
 National Agricultural Library (U.S.),1976      *Serials Currently Received by the National Agricultural Library, 1974* National Agricultural Library (U.S.),1974      *China's Peasant Agriculture and Rural Society* Jan Douwe van der Ploeg, Jingzhong Ye, 2016-05-20 China's agriculture and rural society has undergone rapid changes in recent years. Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population. This book provides a bottom up view of China's agriculture showing how the many millions of Chinese peasants make a living. It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods, increase their agricultural production and improve the quality of their lives. The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to meet the enormous social, economic and environmental challenges that China faces. The book also explores the paradigm that has underpinned the organisation and development of China's agriculture from ancient times to the present day. This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model. It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty, wellbeing for peasant households and an attractive countryside.      **Subject Catalog, 1976** Library of Congress,1976
