The Lausanne Conference 1949 A Case Study In Middle East Peacemaking Occasional Papers:

The Lausanne Conference, 1949 Neil Caplan, 1993 From the John Holmes Library collection Negotiating Arab-Israeli Peace Laura Zittrain Eisenberg, Neil Caplan, 1998 In an innovative study two historians of the Arab Israeli conflict reflect on what their craft can contribute to peacemaking Middle East Quarterly A fine overview of the troubled Arab Israeli negotiations since Camp David filled with sound analysis and a wealth of documentary material Students and diplomats alike will benefit from this thoughtful study William B Quandt Byrd Professor of Government and Foreign Affairs University of Virginia This timely book will be invaluable for students of Middle East international relations and for policy makers who seek a mutually acceptable resolution of this protracted conflict Michael Brecher McGill University No matter where one stands on the issues this valuable work commends itself to students peace makers and anyone concerned about the Arab Israeli conflict and its peaceful resolution Philip Mattar Institute for Palestine Studies Eisenberg and Caplan offer the reader lessons of the past and sound guidance for the present and the future a well researched and well written book Itamar Rabinovich Tel Aviv University What must change before the Arab Israeli conflict is resolved diplomatically By illuminating recurring factors that seem to doom peacemaking *Negotiating Arab Israeli Peace* offers a fresh interpretation of how when and why the process does and does not work and points to diplomatic strategies that may produce an enduring peace Futile Diplomacy - A History of Arab-Israeli Negotiations, 1913-56 Neil Caplan, 2021-03-04 These four volumes provide a careful and balanced behind the scenes account of the intricate diplomatic activity of the period between 1913 and 1956 Exploiting a range of available archive sources as well as extensive secondary sources they provide an authoritative analysis of the positions and strategies which the principal parties and the would be mediators adopted in the elusive search for a stable peace The text of each volume comprises both analytical historical chapters and a selection of primary documents from archival sources providing an essential reference source for the student of the Arab Israeli conflict and its long history

Futile Diplomacy, Volume 4 Neil Caplan, 2015-05-15 This book first published in 1997 focuses on the Anglo American cooperation which began during the relatively uneventful years 1953 and 1954 and which led to a covert operation code named Alpha which aimed unsuccessfully at convincing Egyptian and Israeli leaders to consider a settlement through secret negotiations As with the other three volumes that make up *Futile Diplomacy* this volume comprises Dr Caplan's expert in depth analysis with a wealth of primary source documents making this a key reference source in the study of the Arab Israeli conflict **Futile Diplomacy** Neil Caplan, 2013-10-23 These two volumes provide a careful and balanced behind the scenes account of the intricate diplomatic activity of the period between the first and second Arab Israeli wars Exploiting a range of available archive sources as well as extensive secondary sources they provide an authoritative analysis of the positions and strategies which the principal parties and the would be mediators adopted in the elusive search for a stable peace The author examines the recurring deadlocks in terms of the motives and calculations of the various parties and reveals how new

incentives of pressures offered by outsiders proved incapable of reversing the serious deterioration of Arab Israeli relations as the region headed for war at Suez The text of each volume comprises both analytical historical chapters and a selection of primary documents from archival sources **Futile Diplomacy, Volume 3** Neil Caplan,2015-05-15 This book first published in 1997 provides a careful and balanced behind the scenes account of the intricate diplomatic activity of the period between the first and second Arab Israeli wars The author examines the recurring deadlocks in terms of the motives and calculations of the various parties and reveals how new incentives of pressures offered by outsiders proved incapable of reversing the serious deterioration of Arab Israeli relations as the region headed for war at Suez The text of this volume comprises both an in depth analysis of the period and events and a selection of primary documents from archival sources

Futile Diplomacy: Operation Alpha and the failure of Anglo-American coercive diplomacy in the Arab-Israeli conflict, 1954-1956 Neil Caplan,1983 These four volumes provide a careful and balanced behind the scenes account of the intricate diplomatic activity of the period between 1913 and 1956 Exploiting a range of available archive sources as well as extensive secondary sources they provide an authoritative analysis of the positions and strategies which the principal parties and the would be mediators adopted in the elusive search for a stable peace The text of each volume comprises both analytical historical chapters and a selection of primary documents from archival sources Israel, Jordan, and Palestine Asher Susser,2012 A Crown Center for Middle East Studies Book **Water in the Middle East** Hussein A. Amery,Aaron T. Wolf,2010-06-04 Finding streams in the desert has never been more urgent for the peoples of the Middle East Rapid population growth and a rising standard of living are driving water demand inexorably upward while the natural supply has not increased since Biblical times Ensuring a fair and adequate distribution of water in the region is vitally important for building a lasting peace among the nations of the Middle East Addressing water needs from a geographical perspective the contributors to this book analyze and assess the impact of scarce water resources in the Jordan River basin countries and territories Israel Jordan Lebanon Palestine and Syria as these long time antagonists work toward peace After geographical and historical overviews the authors envision the future what the water issues may be when Israel and Syria begin negotiating the hydro security needs of each nation and the difficulties of planning for uncertainty Without proposing any one ideal scheme they discuss the possibilities for cooperative sharing of water resources while honestly acknowledging the political constraints that may limit such projects The final essay speaks to the needs of the one party so rarely represented at the negotiating table the Jordan River itself Three Capitals for Two States Carl David Dick,2011-10-06 This study argues that there are historical reasons to focus on Jerusalem first and to use an international Holy Basin methodology to bring Israel and the Palestinian National Authority together toward a workable compromise This analysis identifies the strategic compromises required to create two distinct capital zones that grants sovereignty and legitimacy over respective capitals for the state of Israel and a future state of Palestine In terms of religion and national identity Jerusalem is a central factor for

both Israelis and Palestinians to the people of three world religions and to the international community The critical factors to achieve compromise are sovereignty over their respective capitals combined with international recognition and possible international control over remaining contested holy places Resolving the city's role as a national capital for two states can lead to resolving other critical Arab Israeli issues The international community has perpetuated the conflict by withholding Jerusalem sovereignty from Israel and the Arab population When Britain ended their Palestine mandate in 1948 the UN failed to deliberately enforce their vision of a separate Jerusalem entity or corpus separatum The UN continued to withhold sovereignty while the city was divided for nineteen years between Jordan and Israel and when the city was reunited in 1967 The lack of an international mandate for sixty four years while fighting for utopian concepts has perpetuated the conflict by delaying the self determination of the Palestinian population and withholding sovereignty over Israel's declared capital Peace negotiations must recognize and incorporate the interests of both sides but until each side is ready to strictly divide the Old City an international Holy Basin zone has the potential to create a new reality while moving incrementally from confrontation to cooperation

In Pursuit of Peace Mordechai Bar-On,1996 When the Israeli prime minister and the PLO chairman shook hands on the White House lawn in 1993 Israeli peace activists had good reason to celebrate this major step on the long road to peace This book tells the story of the Israeli peace movement and the role it played in that pursuit of peace It is an eloquent fascinating account of a remarkably diverse and determined cast of activists from war weary soldiers to hard headed politicians careful scholars to impassioned artists Drawing on his experience in the peace movement Bar On provides intimate portraits of groups like Peace Now Yesh Gvul and the Women in Black he also provides a sweeping historical synthesis of the course of the Israeli Arab conflict especially between 1967 and 1993

Transformations of Middle Eastern Natural Environments ,1998 **Negotiating Arab-Israeli Peace, Second Edition** Laura Zittrain Eisenberg,Neil Caplan,2010-07-14 Thoroughly updated and expanded this new edition of Negotiating Arab Israeli Peace examines the history of recurrent efforts to resolve the Arab Israeli conflict and identifies a pattern of negative negotiating behaviors that seem to repeatedly derail efforts to achieve peace In a lively and accessible style Laura Zittrain Eisenberg and Neil Caplan examine eight case studies of recent Arab Israeli diplomatic encounters from the Egyptian Israeli peace of 1979 to the beginning of the Obama administration in light of the historical record By measuring contemporary diplomatic episodes against the pattern of counterproductive negotiating habits this book makes possible a coherent comparison of over sixty years of Arab Israeli negotiations and gives readers a framework with which to assess the relative strengths and weaknesses of peace making attempts past present and future
