The Law And Older Persons Is Geriatric Jurisprudence Therapeutic Paperback:

The Law and Older Persons Marshall B. Kapp, 2003 Therapeutic Jurisprudence TJ is a way of exploring the ways in which the law in practice as opposed to theory can exert positive or negative effects on real people in actual situations This book applies the inquiries of TJ to the areas of geriatrics and gerontology focusing on facets of laws pertaining specifically to older persons in the United States Through a series of thoroughly referenced chapters mixing analytic discussion and case examples Kapp asks such questions as Is legal involvement and intervention in the lives of older persons a good thing for both the intended beneficiaries and society as a whole What is therapeutic jurisprudence and why is it relevant to older Americans What is the intent of the laws pertaining to older persons in such contexts as nursing home and home health care regulation end of life medical decision making regulation of research involving older persons as human subjects the role of consumer choice and control for older persons in selecting among health plans and directing their own long term care guardianship and other interventions for the incapacitated aged employment retirement age discrimination and the professional liability tort system Most importantly when regulation fails what are our best alternatives as advocates for the elderly and for our future selves This book should be a must read for legislators and policy makers dealing with the elderly Advocacy groups for the elderly would also be well served to read this book Margaret Davino Care Management Journals

Handbook of Theories of Aging Merril Silverstein, Vern L. Bengtson, Vern L. Bengtson, PhD, Norella Putney, Daphna Gans, 2008-10-27 The field of gerontology has often been criticized for being data rich but theory poor The editors of this book address this issue by stressing the importance of theory in gerontology While the previous edition focused on multidisciplinary approaches to aging theory this new edition provides cross disciplinary integrative explanations of aging theory The contributors of this text have reached beyond traditional disciplinary boundaries to partner with researchers in adjacent fields in studying aging and age related phenomena This edition of the Handbook consists of 39 chapters written by 67 internationally recognized experts in the field of aging It is organized in seven sections reflecting the major theoretical developments in gerontology over the past 10 years Special Features Comprehensive coverage of aging theory focusing on the biological psychological and social aspects of aging A section dedicated to discussing how aging theory informs public policy A concluding chapter summarizing the major themes of aging and offering predictions about the future of theory development Required reading for graduate students and post doctoral fellows this textbook represents the current status of theoretical development in the study of aging

Capacity Assessment and the Law Kelly Purser, 2017-05-22 This book discusses theoretical issues standards and professional considerations arising when legal and health practitioners undertake legal capacity assessments in the context of wills enduring powers of attorney and advance health directives The potential loss of cognition can erode autonomy as individuals lose the ability to make their own legally recognised decisions This is an inescapable problem with significant legal social health and policy repercussions This work synthesises and critically

analyses the existing literature including some of the best assessment models and guiding principles internationally to generate a new methodology and understanding of what capacity assessment best practice means This includes the impact of assessments on individual autonomy the ideal method building upon respect for both autonomy as well as fundamental human rights The triggers to assess capacity who to involve in the assessment process as well as how to conduct that assessment process are discussed The crucial relationship between the legal and health professionals involved in assessments including growing concerns around practitioner liability is also explored This analysis is undertaken through the innovative use of a therapeutic jurisprudence lens the effect of which is to contribute new knowledge to this complex field

Elder Law Ann Numhauser-Henning,2017-02-24 The ageing population poses a huge challenge to law and society carrying important structural and institutional implications This book portrays elder law as an emerging research discipline in the European setting in terms of both conceptual and theoretical perspectives as well as elements of the law *Partners in Palliative Care* Mary Beth Morrissey,Bruce Jennings,2013-10-31 The Collaborative for Palliative Care Collaborative is a grassroots consortium of public and private organizations that came together in 2005 for the purposes of studying the increasing need for palliative care and the methods for such care It has grown from a small fledgling group to a membership of over 50 community based organizations and volunteers dedicated to improving care of the seriously ill through education research and advocacy The Collaborative bridges policy research and practice in its initiatives and vision for the future *Partners in Palliative Care* examines specific areas of concern that the Collaborative has addressed in its education programs and advocacy as well as the collaborative processes that have been so successful in building community assets Areas of concentration have been diverse and include advance care planning relational communication paradigms community capacity building the role of culture and spirituality in palliative care the meaning of pain and suffering for seriously ill individuals and the ethics of health care costs in palliative and end of life systems of care This book was originally published as a special issue of the *Journal of Social Work in End of Life and Palliative Care* **Geriatric Psychiatry** Ana Hategan,James A. Bourgeois,Calvin H. Hirsch,Caroline Giroux,2018-04-03 This textbook presents real world cases and discussions that introduce the various mental health syndromes found in the aging population before delving into the core concepts covered by geriatric psychiatry curricula The text follows each case study with the vital information necessary for physicians in training including key features of each disorder and its presentation practical guidelines for diagnosis and treatment clinical pearls and other devices that are essential to students of geriatric psychiatry With the latest DSM 5 guidelines and with rich learning tools that include key points review questions tables and illustrations this text is the only resource that is specifically designed to train both American and Canadian candidates for specialty and subspecialty certification or recertification in geriatric psychiatry It will also appeal to audiences worldwide as a state of the art resource for credentialing and or practice guidance The text meets the needs of the future head on with its straightforward coverage of the most frequently

encountered challenges including neuropsychiatric syndromes psychopharmacology eldercare and the law substance misuse mental health following a physical condition medical psychiatry and palliative care Written by experts in the field Geriatric Psychiatry A Case Based Textbook is the ultimate resource for graduate and undergraduate medical students and certificate candidates providing mental health care for aging adults including psychiatrists psychologists geriatricians primary care and family practice doctors neurologists social workers nurses and others *Current Law Index*, 2007 Perspectives on Elderly Crime and Victimization Peter C. Kratcoski, Maximilian Edelbacher, 2025-09-26 The updated second edition of this textbook focuses on understanding and addressing the criminality and victimization experienced by the elderly population globally It offers insights into the prevalence of elderly crime and victimization through international comparisons and explores effective strategies to tackle this issue The book covers a wide range of topics including the types of crimes committed by the elderly the characteristics of older offenders and the responses of the criminal justice system such as diversion programs and community based treatments It also delves into specialized programs providing health and mental health services for older prisoners Furthermore the new edition expands on processing and rehabilitation approaches for elderly offenders along with services aimed at preventing protecting and caring for elderly victims It also includes comparative international research on crime prevention methods and legislative measures making it a valuable resource for students in criminology criminal justice sociology and gerontology Theories on Law and Ageing Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions **Book Review Index Cumulation** Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including

Weisstub,Guillermo Díaz Pintos,2007-12-20 *Autonomy and Human Rights in Healthcare An International Perspective* is a group of essays published in memory of David Thomasma one of the leading humanists in the field of bioethics during the twentieth century A pioneer in the field of multidisciplinary research having integrated major theological and philosophical traditions in the west with modern science Thomasma was a role model to the authors who have devoted essays to his major avenues of inquiry The authors represent many different countries and disciplines throughout the globe The volume deals with the pressing issue of how to ground a universal bioethics in the context of the conflicted world of combative cultures and perspectives

The Development of Disability Rights Under International Law Arlene S. Kanter,2014-11-27 The adoption of the Convention on the Rights of People with Disabilities CPRD by the United Nations in 2006 is the first comprehensive and binding treaty on the rights of people with disabilities It establishes the right of people with disabilities to equality dignity autonomy full participation as well as the right to live in the community and the right to supported decision making and inclusive education Prior to the CRPD international law had provided only limited protections to people with disabilities This book analyses the development of disability rights as an international human rights movement Focusing on the United States and countries in Asia Africa the Middle East the book examines the status of people with disabilities under international law prior to the adoption of the CPRD and follows the development of human rights protections through the convention s drafting process Arlene Kanter argues that by including both new applications and entirely new approaches to human rights treaty enforcement the CRPD is significant not only to people with disabilities but also to the general development of international human rights by offering new human rights protections for all people Taking a comparative perspective the book explores how the success of the CRPD in achieving protections depends on the extent to which individual countries enforce domestic laws and policies and the changing public attitudes towards people with disabilities This book will be of excellent use and interest to researchers and students of human rights law discrimination and disability studies

Abnormal Psychology William J. Ray,2016-11-30 In *Abnormal Psychology Perspectives on Human Behavior and Experience* Second Edition William J Ray brings together current perspectives concerning the manner in which the human mind behavior and experience can be understood In addition to the traditional psychological literature this book draws from

work in the cognitive and affective neurosciences epidemiology ethology and genetics Ray's focus is on a unification and integration of the biopsychosocial understandings of human behavior within a broader consideration of human culture and language as it applies to abnormal psychology

De-Gendering Gendered Occupations Joanne McDowell, 2020-10-05

De Gendering Gendered Occupations brings together contributions from researchers on language and gender studies and workplace discourse to unpack and challenge hegemonic gendered norms encoded in what are traditionally considered female occupations The volume integrates a range of theoretical frameworks including conversation analysis pragmatics and interactional sociolinguistics to analyse data from such professions as primary education healthcare and speech and language therapy across various geographic contexts Through this lens the first part of the book examines men's linguistic practices with the second part offering a comparative analysis of male and female discourse The settings discussed here allow readers to gain insights into the ways in which cultural professional and gendered identity intersect for practitioners in these professions and in turn future implications for discourse around gendered professions more generally This book will be key reading for students and researchers in sociolinguistics discourse analysis gender studies cultural studies and professional discourse
