The Leipzig Manuscript:

The Leipzig Manuscript Angus Ross, 1991 Somewhere in Leipzig a retired double agent is writing memoirs which will prove extremely embarrassing to certain VIPs in the West Farrow is invited to tackle the assignment *Manuscripts, Politics and Oriental Studies*, 2019-03-19 Manuscripts Politics and Oriental Studies commemorates the life and works of Johann Gottfried Wetzstein 1815 1905 as a scholar manuscript collector and consul in Berlin and Damascus Beyond research into Wetzstein's own time special attention is given to the impact his efforts to acquire manuscripts have had until this day Several contributions also illustrate contemporary developments that give context to his own career as a scholar and diplomat The particular focus of this volume allows to explore the history of Oriental scholarship not purely through the lens of academic posts and publications but encourages us to discover lives such as Wetzstein's without academic stardom yet laying the material foundations of textual work for generations Contributors are Kaoukab Chebaro François D. Magical Manuscripts in Early Modern Europe Daniel Bellingradt, Bernd-Christian Otto, 2017-08-31 This book presents the story of a unique collection of 140 manuscripts of learned magic that was sold for a fantastic sum within the clandestine channels of the German book trade in the early eighteenth century The book will interpret this collection from two angles as an artefact of the early modern book market as well as the long tradition of Western learned magic thus taking a new stance towards scribal texts that are often regarded as eccentric peripheral or marginal The study is structured by the apparent exceptionality scarcity and illegality of the collection and provides chapters on clandestine activities in European book markets questions of censorship regimes and efficiency the use of manuscripts in an age of print and the history of learned magic in early modern Europe As the collection has survived till this day in Leipzig University Library the book provides a critical edition of the 1710 selling catalogue which includes a brief content analysis of all extant manuscripts The study will be of interest to scholars and students from a variety of fields such as early modern book history the history of magic cultural history the sociology of religion or the study of Western esotericism Constantine Porphyrogenetos - The Book of Ceremonies, 2017-11-27 This is the first modern language translation of the entire text of the tenth century Greek Book of Ceremonies De ceremoniis a work compiled and edited by the Byzantine emperor Constantine VII 905 959 It preserves material from the fifth century through to the 960s Chapters deal with diverse subjects of concern to the emperor including the role of the court secular and ecclesiastical ceremonies processions within the Palace and through Constantinople to its churches the imperial tombs embassies banquets and dress the role of the demes hippodrome festivals with chariot races imperial appointments the hierarchy of the Byzantine administration the equipping of expeditions including to recover Crete from the Arabs and the lists of ecclesiastical provinces and bishoprics Medieval Hebrew

Manuscripts Reused as Book-bindings in Italy Mauro Perani, 2022-01-04 This richly illustrated volume offers the most comprehensive and updated survey on about sixteen thousand Hebrew manuscript fragments reused as book bindings and preserved in hundreds of libraries and archives in Italy Contributions by the leading scholars in the field elucidate specific collections and genres no less than individual fragments bringing to new life a forgotten library of medieval Jewish books as almost 160 Talmudic codices which include the Mishna Tosefta Palestinian Talmud and for the most part the Babylonian one and several hitherto unknown texts The contribution of these fragments to the ongoing research on the European Genizah as the Books within Books Project and to Jewish Studies in general cannot be overestimated Pious Pursuits Michele Gillespie, Robert Beachy, 2007 Essays re members of the Moravian Church although many of these Protestant immigrants spoke German they originated in various countries The Septuagint and Modern Study Sidney Jellicoe, 1993 Twenty five years after it first appeared Jellicoe's classic work is still one of the most comprehensive introductions to the Septuagint and cognate studies Its completeness makes it valuable not only as a textbook but also as a reference tool for those working in the Septuagint In bringing together the principal features of twentieth century Septuagint studies the author provides a wealth of valuable information The first part of the book traces the origins and transmission history of the LXX The second part moves to a discussion of the various LXX manuscripts versions and critical editions along with a brief discussion of language and style The appendixes bibliography and various indexes increase the resource value of this volume **Albert of Saxony's Twenty-Five Disputed Questions on Logic** Albertus de Saxonia, 2002 This critical edition of Albert of Saxony's 25 Questions on Logic treats issues such as the imposition distribution signification and supposition of terms and the truth and falsity conversion contradictoriness and kinds of propositions together with problems concerning negotiations *Catalogue of the Coptic Manuscripts in the Collection of the John Rylands Library, Manchester* John Rylands Library, Walter Ewing Crum, 1909 **Graeco-Arabic Astronomy for Twelfth-Century Latin Readers** C. Philipp E. Nothaft, 2022-11-21 This volume makes available two little known twelfth century Latin sources on mathematical astronomy the anonymous Ptolomeus et multi sapientum c 1145 which is attributable to the famous Jewish astrologer Abraham Ibn Ezra and the surviving second part of Robert of Chester's Liber canonum which accompanied the Tables of London c 1150 Both texts are introductory level works originally written to educate a Latin Christian audience in the concepts and techniques involved in computing with astronomical tables They are here presented in critical editions with facing English translations The accompanying introductions and in depth commentaries elucidate their significance in the context of twelfth century Latin astronomy Religion, Law and Learning in Classical Islam George Makdisi, 2022-02-23 This second selection of articles by George Makdisi concentrates on the schools of religious thought and legal learning in the medieval Islamic world and their defence of orthodoxy The author aims to review and re assess the implications of the conflict between first the rationalist and the traditional theologians the one accepting the influence of Greek philosophy the other rejecting it and then

between one of these traditionalist schools the Hanbali school of law and Sufi mysticism One of the most important consequences of the first of these confrontations he contends was the emergence of the schools of law as the guardians of the faith and theological orthodoxy The final section of the book also looks at the structure of legal learning at the institutions themselves their organization and the principles upon which they operated As well as entering the debate over the existence of corporations and guilds of law in classical Islam maintaining that they did exist these articles further suggest links between such institutions and the evolution of universities in the medieval West and the Inns of Court in England and discuss the Islamic and Arabic contribution to the concepts of academic and intellectual freedom and to the development of scholasticism and humanism Cette deuxième section d'articles de George Makdisi se concentre sur les écoles de pensée religieuse et d'apprentissage juridique dans le monde islamique médiéval et leur défense de l'orthodoxie L'auteur entend passer en revue et évaluer les implications du conflit entre d'abord les théologiens rationalistes et traditionnels l'un acceptant l'influence de la philosophie grecque l'autre la rejetant puis entre l'un d'eux écoles traditionalistes l'école de droit Hanbali et le mysticisme soufi L'une des conséquences les plus importantes de la première de ces confrontations soutient-il a été l'émergence des écoles de droit en tant que gardiennes de la foi et de l'orthodoxie théologique La dernière section du livre examine également la structure de l'apprentissage juridique les institutions elles-mêmes leur organisation et les principes sur lesquels elles fonctionnent En plus d'entrer dans le débat sur l'existence des corporations et des guildes de la loi dans l'Islam classique maintenant qu'elles existaient ces articles suggèrent en outre des liens entre de telles institutions et l'évolution des universités dans l'Occident médiéval et les Inns of Court en Angleterre et discuter de la contribution islamique et arabe aux concepts de liberté académique et intellectuelle et au développement de la scolastique et de l'humanisme

Patrology Otto Bardenhewer, 1908 Otto Bardenhewer's Patrology is certainly not the most recent work in the field But sound judgment is never obsolete Bardenhewer's concise pellucid analysis of the church fathers is still valuable today over a century after it was published For generations his work has been treasured by experts and novices alike for its penetrating insight and easy accessibility Many fathers are given fuller treatment here than in any modern handbook And today every work cited in Bardenhewer's copious bibliographies has entered the public domain what a boon to researchers of the information age

The Hebrew Bible Manuscripts: A Millennium, 2022-02-22 In *The Hebrew Bible A Millennium* manuscripts texts and methods applied in Hebrew Bible studies are considered through time The Dead Sea Scrolls the Cairo and European Genizot as well as Late Medieval Biblical Manuscripts are examined

Portraying the Land Rehav Rubin, 2018-05-22 The book presents and discusses a large corpus of Jewish maps of the Holy Land that were drawn by Jewish scholars from the 11th to the 20th century and thus fills a significant lacuna both in the history of cartography and in Jewish studies The maps depict the biblical borders of the Holy Land the allotments of the tribes and the forty years of wanderings in the desert Most of these maps are in Hebrew although there are several in Yiddish Ladino and in European languages The book focuses on four

aspects it presents an up to date corpus of known maps of various types and genres it suggests a classification of these maps according to their source shape and content it presents and analyses the main topics that were depicted in the maps and it puts the maps in their historical and cultural contexts both within the Jewish world and the sphere of European cartography of their time The book is an innovative contribution to the fields of history of cartography and Jewish studies It is written for both professional readers and the general public The Hebrew edition 2014 won the Izhak Ben Zvi Prize **Arturus Rex: Acta Conventus Iovaniensis 1987** Werner Verbeke, Maurits Smeyers, 1987 **From the Material to the Mystical in Late Medieval Piety** Racha Kirakosian, 2021-09-30 The German mystic Gertrude the Great of Helfta c 1256 1301 is a globally venerated saint who is still central to the Sacred Heart Devotion Her visions were first recorded in Latin and they inspired generations of readers in processes of creative rewriting The vernacular copies of these redactions challenge the long standing idea that translations do not bear the same literary or historical weight as the originals upon which they are based In this study Racha Kirakosian argues that manuscript transmission reveals how redactors serve as cultural agents Examining the late medieval vernacular copies of Gertrude s visions she demonstrates how redactors recast textual materials reflected changes in piety and generated new forms of devotional practices She also shows how these texts served as a bridge between material culture in the form of textiles and book illumination and mysticism Kirakosian s multi faceted study is an important contribution to current debates on medieval manuscript culture authorship and translation as objects of study in their own right **Writing Sounds in Carolingian Europe** Susan Rankin, 2018-11-08 This comprehensive study of musical notation from early medieval Europe provides a crucial new foundational model for understanding later Western notations **A Companion to Byzantine Illustrated Manuscripts** , 2017-06-06 This volume offers an overview of Byzantine manuscript illustration a central branch of Byzantine art and culture Just like written texts illustrations bear witness to Byzantine material culture imperial ideology and religious beliefs as well as to the development and spread of Byzantine art In this sense illustrated books reflect the society that produced and used them Being portable they could serve as diplomatic gifts or could be acquired by foreigners In such cases they became emissaries of Byzantine art and culture in Western Europe and the Arabic world The volume provides for the first time a comprehensive overview of the material divided by text categories including both secular and religious manuscripts and analyses which texts were illustrated in Byzantium and how Contributors are Justine M Andrews Leslie Brubaker Annemarie W Carr Elina Dobrynina Maria Evangelatou Maria Laura Tomea Gavazzoli Markos Giannoulis Cecily Hennessy Ioli Kalavrezou Maja Kominko Sofia Kotzabassi Stavros Lazaris Kallirroë Linardou Vasileios Marinis Kathleen Maxwell Georgi R Parpulov Nancy P ev enko Jean Michel Spieser Mika Takiguchi Courtney Tomaselli Marina Toumpouri Nicolette S Trahoulia Vasiliki Tsamakda and Elisabeth Yota **The Story of the Bible** Larry Stone, 2010-09-21 A beautifully illustrated hands on history of the world s best selling book With a highly readable and colorful narrative The Story of the Bible covers in a sweeping panorama the writing and

transmission of the Bible through the ages The writing of the Old and New Testaments the canonization of the Scriptures and stories of those who gave their lives to make the Bible available in common language all are reported clearly and reverently with the power of anecdotal illustrations Readers encounter page after page of engaging illustrations set in a highly designed journey chock full of removable documents *Census of the Exact Sciences in Sanskrit, Series A.* David Pingree, 1994
