The Liberalism of Thomas Arnold. A Study of His Religious and Political Writings Eugene LaCoste WILLIAMSON,1964

The Liberalism of Thomas Arnold Eugene L. Williamson,1964 **The Liberalism of Thomas Arnold** Eugene L.

Williamson (jr.),1964 *The Liberalism of Thomas Arnold* Eugene L. Williamson,1964 The Victorian Christian Socialists Edward R. Norman,2002-10-03 Victorian Christian Socialism began as a protest against industrial evils by a group of Anglicans in 1848 the year of the great Chartist demonstration In F D Maurice it had a prophet and a thinker whose ideas inspired subsequent Christians so that the ideals of the original Christian Socialists began to spread to other Churches The result was a series of critiques of the England of their day rather than a systematic movement and is best analysed as it is in this book through an examination of the leading figures who in addition to Maurice include Charles Kingsley Thomas Hughes and John Ruskin The present study is not a collection of biographical studies however but a history of Christian Socialism constructed around the most influential of its advocates They are shown to have been ethical and educational reformers rather than politicians but in their ability to stand outside the common assumptions and prejudices of their day they achieved social criticism of lasting value The Study of History ,2000 History is a subject which never stands still It is always changing its philosophies its contours its leading questions its politics its conceptual status and its methodologies This bibliographical guide to the study of history is wide ranging in scope extending from the ancient world to the 20th century It deliberately concentrates on modern historians views provides a substantial section on the philosophy of history charts controversies and highlights the continual evolution and diversification of history The material is logically organized in major areas and subsections and cross references are given where appropriate An index of authors editors and compilers is also provided Thomas Hardy and History Fred Reid,2017-08-17 This book addresses the questions What did Thomas Hardy think about history and how did this enter into his writings Scholars have sought answers in revolutionary gender postcolonial and millennial criticism but these are found to be unsatisfactory Fred Reid is a historian who seeks answers by setting Hardy more fully in the discourses of philosophical history and the domestic and international affairs of Britain He shows how Hardy worked out from the late 1850s his own meliorist philosophy of history and how it is inscribed in his fiction Rooted in the idea of cyclical history as propounded by the Liberal Anglican historians it was adapted after his loss of faith through reading the works of Auguste Comte George Drysdale and John Stuart Mill and used to defend the right of individuals to break with the Victorian sexual code and make their own experiments in living **Theology and the Victorian Novel** J. Russell Perkin,2009-11-04 Beginning with a wide ranging introduction that explains why a theological reading of Victorian fiction is both rewarding and timely Perkin also addresses religion s return to prominence in the twenty first century confounding earlier predictions of its imminent demise Chapters on William Thackeray Charlotte Bront Charlotte Yonge Anthony Trollope George Eliot and Thomas Hardy are followed by a concluding discussion of Mary Ward and

Walter Pater that relates Pater's Marius the Epicurean to postmodern theology and shows how it remains a religious classic for our own time

John Keble in Context Kirstie Blair, 2004 This unique interdisciplinary and timely volume offers the first major reassessment of Keble's work for several decades and a comprehensive introduction to this key figure John Keble in Context provides a wide range of perspectives on Keble's place in politics and religion his writings and his influence on his literary heirs and successors

Essays and Reviews Victor Shea, William Whitla, 2000 Essays and Reviews is a collection of seven articles that appeared in 1860 sparking a Victorian culture war that lasted for at least a decade With pieces written by such prominent Oxford and Cambridge intellectuals as Benjamin Jowett Mark Pattison Baden Powell and Frederick Temple later archbishop of Canterbury the volume engaged the relations between religious faith and current topics of the day in education the classics theology science history literature biblical studies hermeneutics philology politics and philosophy Upon publication the church the university the press the government and the courts both ecclesiastical and secular joined in an intense dispute The book signaled an intellectual and religious crisis raised influential issues of free speech and questioned the authority and control of the Anglican Church in Victorian society The collection became a best seller and led to three sensational heresy trials Although many historians and literary critics have identified Essays and Reviews as a pivotal text of high Victorianism until now it has been almost inaccessible to modern readers This first critical edition edited by Victor Shea and William Whitla provides extensive annotation to map the various positions on the controversies that the book provoked The editors place the volume in its complex social context and supply commentary background materials composition and publishing history textual notes and a broad range of new supporting documents including material from the trials manifestos satires and contemporary illustrations Not only does such an annotated critical edition of Essays and Reviews indicate the impact that the volume had on Victorian society it also sheds light on our own contemporary cultural institutions and controversies

Cultivating Belief Sebastian Lecourt, 2018 This book explores how a group of Victorian literary writers including George Eliot Walter Pater and Matthew Arnold became interested in the emerging anthropology of religion which sought to explain religion not in terms of doctrines or beliefs but as a function of race or ethnicity

Thomas Arnold, Head Master Michael McCrum, 1989 This biography of Thomas Arnold is the first to examine his life and achievements as the reforming Head Master of the Rugby School from 1828 to 1842 McCrum provides both a unique portrayal of Arnold and a fascinating look into the British public school tradition

F. D. Maurice and Unitarianism David Young, 1992 F D Maurice 1805-72 was one of Victorian Britain's most controversial thinkers Although he came from a Unitarian family and counted leading Unitarians as his friends their influence on his work has never been seriously examined The purpose of this new book is to look at his life and teaching in the light of Unitarianism Maurice's faith had a distinctly Christological emphasis but he continued to value his Unitarian heritage His concern with the Fatherhood of God and the dignity of the human race owes much to his family background Dr Young's study opens with a compact history of

Unitarianism during the lives of F D Maurice and his father a Unitarian minister A series of biographical sketches draws on hitherto unpublished material to set Maurice s work in its historical context The final chapters compare the central themes of his theology with the teaching of his Unitarian contemporaries The Broad Church Tod E.
