that are representative of the diversity in decision making frameworks and political development in the international community Comparative Politics is designed to guide the reader through a series of discussions in each nation's history including Key political milestones The structure of government The relationship of citizen to state The role played by political parties groups and elections The shape and influence of the political elite The current status of the political economy The future direction of the nation in a global environment To further the goals of Comparative Politics this book features in every chapter Policy Briefs outlining the policy issues and debates in the forefront of the governing agenda Point of Fact items highlighting observations and sidebars on politics and life in each country Boxed features providing deeper commentary and factual information Translations from Kommunist ,1970 Subject Catalog Library of Congress,1982 Socialist Realism in Central and Eastern European Literatures Under Stalin Evgeny Dobrenko,2018-02-15 Socialist Realism in Central and Eastern European Literatures is the first published work to offer a variety of alternative perspectives on the literary and cultural Sovietization of Central and Eastern Europe after World War II and emphasize the dialogic relationship between the centre and the satellites instead of the traditional top down approach The introduction of the Soviet cultural model was not quite the smooth endeavour that it was made to look in retrospect rather it was always a work in progress often born out of a give and take with the local authorities intellectuals and interest groups Relying on archival resources the authors examine one of the most controversial attempts at a cultural unification in Europe by providing an overview with a focus on specific case studies an analysis of distinct particularities with attention to the patterns of negotiation and adaptation that were being developed in the process **Marx's Wager** Thomas Kemple,2022-10-13 Marx's masterpiece Capital Das Kapital ignored or misread as well as selectively and creatively interpreted by the generation of social scientists that came after him Emile Durkheim Max Weber and Georg Simmel attempt to supplement what they call historical materialism or to engage in debates about socialism through their readings of The Communist Manifesto and occasional Capital Although these and other classical sociologists did not have access to most of Marx's published and unpublished works as we do today each is concerned with revising and refining Marx's unfinished critique of political economy Despite their differences with Marx and with one another they share his concern with how empirically detailed and scientifically valid knowledge of the social world may inform historical struggles for a more human world This commitment can be called Faustian after the title character of the poet J W von Goethe's tragic epic of modernity insofar as Marx and the classical sociologists hope to translate theory into practice while making a pact or wager with the diabolical social political and economic forces of the modern world
