Reclaiming Identity, Knowledge, and Power. by Osayande Aghaze, PhD. Osayande Aghazebamwan,2025-03 INTRODUCTION The Truth Buried Beneath Time For centuries history has been distorted rewritten and weaponized to serve the interests of those who would rather build their thrones atop the ashes of truth than acknowledge the light of reality The world we inhabit today is not a reflection of human progress but rather the spoils of conquest where the victors have sculpted narratives that glorify their dominion while erasing the foundations upon which they stand At the heart of this deception lies a grievous lie that civilization knowledge and greatness were bestowed upon the world by those who wielded the sword of white supremacy But history untainted unmanipulated whispers a different story It is a story of Africa and the Africans who created the very foundation of human civilization and thus are the wellspring of human ingenuity Africa has and will forever remain the birthplace of humanity scientific thought language philosophy spirituality and governance Long before Europe awoke to the concept of civilization Africa had built empires that stood as

monuments to human brilliance ancient Egypt Kemet Kush Carthage Mali The Great Benin Empire Great Zimbabwe and countless others Before European explorers set foot on foreign shores Africans had already mapped the stars mastered architecture and developed complex societies rooted in wisdom and balance with the natural world But this truth was stolen buried beneath colonial brutality exploitation and centuries of intellectual theft leaving generations to believe that Africa was nothing but a land waiting to be discovered and civilized *The Liberation of the African American* James Strowbridge, Mr James M Strowbridge 111, 2017-12-27 This book is an in depth look at the African American experience and the mental chains that have gone undetected by the masses for decades These mental chains govern the African American experience at a subconscious level and because the majority are unaware of these chains the African American race remains enslaved to a diseased mental construct Therefore this book looks at both the historical and spiritual experiences encountered by the African American race Beginning with slavery and proceeding through the social and economics of current times as well as the media s influence It also takes an in depth look at the continual perpetuation of religion by this race Then lastly analyzing how the African American race can truly become liberated and become a powerful unit in society **The African Mind**, 1989
