F. Kent,1935 **The Life and Teachings of Jesus** Charles Foster Kent,2015-07-11 Excerpt from *The Life and Teachings of Jesus According to the Earliest Records* Within the past few years a rapidly increasing body of thoughtful men and women inside and outside the church have learned to appreciate and appropriate the practical results that have come from a thorough constructive application of modern historical and literary methods of study to the Old Testament Time is demonstrating more and more clearly that these methods instead of destroying are revealing anew the beauty and permanent significance of those ancient records What is eminently true of the Old is destined in even larger measure to prove true of the New Testament The gospels like the historical books of the Old Testament embody older oral and written sources which reflect the earliest impression that Jesus personality and words made on the minds of his followers The first step therefore in the quest of the real Jesus is to distinguish and to separate these oldest records from the later variant accounts which blur or conceal the original portrait The more vita the questions involved the more important is it that the records be carefully studied and tested by the most thorough methods known to modern historical research Men rightly demand to day a definite rational basis for their faith Before Christianity can make the appeal which it should to the individual and to society it must rest on firm unassailable historical foundations Jesus was so many sided that no one of the gospels gives a complete or proportionate portrait of him A harmony of the gospels with its widely divergent readings is a most unsatisfactory text book for a constructive study of the life and teachings of Jesus Even

more confusing and misleading is a composite gospel which like Tatian's Diatessaron combines all the variant statements of the four gospels. Practical experience is demonstrating that what is demanded today is a single narrative that will embody the oldest records embedded in the four New Testament gospels. This must be so arranged that it will give a simple logical and as far as possible a chronological view of Jesus' life and teachings. The primary aim of the present volume is to meet this need in the most direct and practical way. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books.
