The Life Of John Locke With Extracts From His Correspondence Journals And Commonplaces:

The Life Of John Locke, With Extracts From His Correspondence, Journals And Commonplace Books Peter King,1830 **The Life Of John Locke, With Extracts From His Correspondence, Journals And Commonplace Books** Peter Lord King,1830 *The Life of John Locke* ,1830 *The Life of John Locke, With Extracts from His Correspondence, Journals and Commonplace Books* ,2020-03-14 Natural Law and Moral Philosophy Knud Haakonssen,1996-02-23

Providing the most comprehensive guide to modern natural law theory available this major contribution to the history of philosophy sets out the full background to liberal ideas of rights and contractarianism and offers an extensive study of the Scottish Enlightenment **The Quarterly Review** William Gifford,Sir John Taylor Coleridge,John Gibson Lockhart,Whitwell Elwin,William Macpherson,William Smith,John Murray,Rowland Edmund Prothero Baron Ernle,George Walter Prothero,1889

The Empire of Habit John Baltes,2016 John Locke s political thought provides much of the theoretical underpinning for our own liberal democracy According to Locke s liberalism the rights and freedoms of civil society are grounded in natural law which is known and observed by all citizens In this volume John Baltes challenges this interpretation of Locke Examining Locke s Essay Concerning Human Understanding and Some Thoughts Concerning Education Baltes reveals a Locke who is in conflict with the natural law philosopher found in his famous Two Treatises of Government In his works on epistemology and education Locke describes morality as a construct and human nature as malleable Drawing on Foucault s concept of discipline Baltes reconsiders Locke s liberalism and shows that it requires citizens governed not by natural law but habit that is subjects who are constructed by carefully controlled space and visibility and regulated in their conduct to become capable of self government The Empire of Habit thus offers not only a new reading of one of the most important political philosophers of the Western tradition but also new insight into our own political liberalism John Baltes is an independent scholar of political theory **Catalogue of the Library of Congress ; Index of Subjects, in Two Volumes** ,1869 Catalogue of Books Added to the Library of Congress ,1861 **Catalogue of the Library of Congress** Library of Congress,1869

The Catalogue of the Public Library of Victoria: P to Z and addenda Public Library of Victoria,1869 The Quarterly Review ,1889 A Letter Concerning Toleration John Locke,2012-12-06 Limborch s edition and Popple s translation as on whether it is true that Popple translated the Epistola into English a l insu de Mr Locke and consequently whether Locke was right or wrong in saying that the translation was made without my privity Long research into documents hitherto unpublished or little known or badly used has persuaded me that Locke not only knew that Popple had undertaken to translate the Gouda Latin text but also that Locke followed Popple s work very closely and even that the second English edition of 1690 was edited by Locke himself In these circumstances it does not seem possible to speak of an original text that in Latin and an English translation rather they are two different versions of Locke s thoughts on Toleration The accusations of unreliability levelled at Popple therefore fall to the ground and the Latin and English texts acquire equal rights to our trust

since they both deserve the same place among Locke's works. Consequently the expression without my privity which a number of people had seen as revealing an innate weakness in Locke's moral character reacquires its precise meaning testifying to Locke's profound modesty and integrity.

Bacon to Kant Garrett Thomson, 2023-02-03 In teaching Modern philosophy the absence of a comprehensive secondary text results in much class time spent on clarifying the ideas of the philosophers leaving little room for philosophical discussion of wider issues. Bacon to Kant was developed as a response to the classroom need to offer undergraduate philosophy students an introduction to the claims and arguments of ten of the most studied Rationalist Empiricist and Enlightenment era philosophers: Descartes, Spinoza, Leibniz, Bacon, Hobbes, Locke, Berkeley, Hume, Rousseau, and Kant. The text is designed to be accessible without being philosophically naive. Thomson explains and analyzes central arguments in a readable and engaging style. Critical assessments of evolving views and arguments contrasting interpretations of original texts and thought provoking questions designed to promote lively discussion help students connect the material to broader contemporary philosophical issues.

The Collected Letters of Joanna Baillie Joanna Baillie, 1999 Volume two of The Collected Letters of Joanna Baillie features her correspondence with Margaret Holford Hodson, Lady Byron, Mary Montgomery, and Anna Jameson. Other letters reveal her respect and admiration for Sir Walter Scott as well as her connections to American writers and theologians living in the Boston area in the early to mid 1800s. The book includes much of the biographical evidence missing in previous portraits of Joanna Baillie but essential for future critical inquiry.

The Reemergence Of Civil Society In Eastern Europe And The Soviet Union Zbigniew Rau, 2019-06-26 The turmoil that shook Eastern Europe in the late 1980s and challenged traditional centers of power in the Soviet Union has touched off an intense debate about the forces behind the recent collapse of Soviet type systems. Civil society, a key concept in the debate, is the focus of this thought provoking volume which contrasts the views of Eastern scholars and activists in independent movements against those of Western academics. The authors' various perspectives on the struggle between the people and their governments highlight different facets of civil society providing new insights into its definition, origin, and function within a nation's public life.

Intellectual Liberty Hugh Breakey, 2016-05-23 Considering the steady increase in intellectual property rights in the last century, does it make sense to speak of user's rights and can limitations on intellectual liberty be justified from a rights based perspective? This book philosophically defends the importance of the public domain and user's rights through the use of natural rights thought. Utilizing primarily the work of John Locke, it contends that considerations of natural justice and human freedom impose powerful constraints on the proper reach and substance of intellectual property rights, especially copyright. It investigates both the internal and external natural rights constraints on intellectual property and argues in particular for the importance to human freedom of the right to intellectual liberty, the right to inform one's actions by learning about the world. It concludes that respect for fundamental freedom based interests require a balanced approach to the scope, strength, and duration of intellectual property rights.

Ideas, Mental Faculties, and Method Paul Schuurman, 2004 This is the first comprehensive study of the early modern logic of ideas whose main representative were Descartes and Locke It is also a profound contribution to our understanding between Aristotelianism and the new philosophy between rationalism and empiricism and between French English and Dutch philosophers

The Language of Politics in Seventeenth-Century England Conal Condren, 2016-07-27 This is a study of the words of political discourse in seventeenth century England from which we now reconstruct its theories Taking its starting point in modern theories of language intellectual history is first reconceptualised Part 1 presents an overview of the political domain in the seventeenth century arguing that what we see as the political was fugitive and subject to reductionist pressures from better established fields of discourse Further there were strong pressures leading towards an indiscriminate and relatively general vocabulary in turn facilitating the imposition of our anachronistic images of political theory Part 2 focuses on a sub set of the political vocabulary charting the changing relationships between the words subject citizen resistance rebellion the coinage of rhetorical exchange The final chapter returns most explicitly to the themes of the introduction by exploring how the historians own vocabulary can be systematically misleading when taken into the context of seventeenth century word use

A History of Western Ethics Charlotte B. Becker, 2004-03-01 This newly revised and updated edition of A History of Western Ethics is a coherent and accessible overview of the most important figures and influential ideas of the history of ethics in the Western philosophical tradition
