The Light In The Enlightenment Christianity And The Secular Heritage:

The Light in the Enlightenment Shabbir Akhtar, 1990-01-01 **Muslim-Christian Engagement in the Twentieth Century** Charles Fletcher, 2014-10-21 Christian Muslim dialogue grows increasingly important but little is known about individual Muslim dialogical thinkers Born in Palestine in 1921 Ismail al Faruqi was a leading figure in the development of conversation and debate across faiths in North America in the second half of the twentieth century and was actively engaged in inter faith study and dialogue Al Faruqi founded the Islamic Studies programme at Temple University Pennsylvania where several distinguished Muslim intellectuals have taught such as Seyyid Hossein Nasr Mahmoud Ayoub and Hasan Hanafi Along with Kenneth Cragg and Wilfred Cantwell Smith al Faruqi was an active participant in Muslim Christian dialogues in the 1970s and the 1980s Charles Fletcher here presents the first study dedicated to Ismail al Faruqi s theory and practice of interfaith dialogue Analysing al Faruqi s sometimes provocative ideas on the comparative study of religion dialogue and practical engagement the author provides an illuminating study of the life and thought of this important scholar Tracing the development of al Faruqi s ideas and practice of inter faith dialogue Fletcher shows how Muslim intellectuals engaged in such attempts viewed their role as representatives of the worldwide Muslim community With perceptive insights into the history of contemporary Muslim Christian dialogue this book will be invaluable for all those interested in inter faith relations comparative religious studies North American Muslims and Islamic studies **Muslims and Christians Face to Face** Kate Zebiri, 2014-10-01 From the Crusades to the present day the interrelationship between Islam and Christianity has been fraught with conflict both theological and military Yet events in 20th century history particularly the communications revolution have meant that after centuries of living in isolation from each other Christians and Muslims find themselves participating in the same intellectual culture and are having to review their assumptions about each other In this work Zebiri analyzes modern Muslim writings on Christianity and Christian writings on Islam to explore the issues central to Muslim Christian relations The literature surveyed is diverse both popular and scholarly varying in function authorship and intended audience Through its juxtaposition of the mutual perceptions of Muslims and Christians the book provides an overview of the more important contrasts and similarities between the two religions **Oikos: God's Big Word for a Small Planet** Andrew Francis, 2017-04-25 How you spend your time and money controls what happens on this planet Planet Earth and its people are in danger We face ongoing economic and ecological crises These will deepen unless all of God s people begin to act as one global community Natural resources are diminishing and the economic world order is changing We cannot go on living as though we can call up another planet Change is needed now and this book addresses that The biblical vision of the world as oikos meaning household is God s challenge to all people about the way we live now and in the future Oikos affirms the need for reconciliation and peace between faiths and nations and should determine our economic practices and how we care for the planet In this timely and challenging book is a renewed call to follow the Maker s instructions Whether it is 9 11

Chernobyl or the 2008 financial crash that call for change is repeating itself This book not only explains why we need to change but also provides practical advocacy of how you can help to achieve it **Christians and Muslims** Hugh Goddard,2003-09-02 One of the most persistent problems in Christian Muslim relations over the centuries has been the tendency by each to judge the other by standards and criteria not used in assessing itself Goddard argues that such is no longer admissible and proceeds to offer a number of useful insights Ethnic Minorities in the Modern Nation State J. Rex,1996-03-24 The author deals with the problem in political theory of how modern nation states must be structured in order to realise the two separate goals of equality of opportunity and the recognition of cultural diversity between groups Subsequent chapters argue against a number of West European critics for a society of this type and the concept of multiculturalism is developed as it is applied in other contexts in Eastern Europe and North America **Islam, Postmodernism and Other Futures** Sohail Inayatullah,Gail Boxwell,2003-02-20 As one of our most high profile Muslim intellectuals he has also become an increasingly important voice in the media since the events of September 11th 2001 This is the first collection of his writings of one of our most high profile Muslim intellectuals offering a comprehensive introduction to his thought Starting with his analysis of his own position as a British Muslim and a writer it goes on to explore issues of Islam and cultural change education identity post modernism and the future Drawn from a broad range of his work in scholarly journals as well as from his many books on aspects of culture and society it includes his most frequently cited papers and makes an ideal introduction to the immense scope of his work in cultural studies **The Teilhard Review** ,1989 *The New Scholasticism* ,1991 Includes section Book Reviews **A Short History of Secularism** Graeme Smith,2007-11-28 What does it mean to call Western society secular What is secularism And how should we understand the concept of secularism in international relations particularly the clash between radical Islam and the West The Latin term from which the word secular is derived saeculum means generation or age and came to mean that which belongs to this life to the here and now in this world It is widely used as a shorthand for the ideology which shapes contemporary society without reference to the divine However according to Graeme Smith secularism represents a great deal more He offers a radical reappraisal of the notion of secularism and its history beginning with the Greeks and proceeding to modernity and the contemporary period The assumption that the West is becoming increasingly secular is often unquestioned By contrast Dr Smith discerns a different kind of society one informed by a historical legacy which makes sense only when it is appreciated that it is religious Secularism was born of Christianity Daringly and very originally Smith argues that it is impossible to understand the idea of the secular without appreciating that at root it is Christian A Short History of Secularism will fundamentally reshape discussions of western culture religion and politics It will have strong appeal to students of religion political philosophy and the history of ideas Religion after Secularization in Australia Timothy Stanley,2015-09-01 Religion s persistent and new visibility in political life has prompted a significant global debate One of this debate s key

features concerns the nature and impact of secularization This collection of essays draws together leading sociologists historians philosophers of religion and political theorists in order to provide a broad and up to date account of religion after secularization Contributors explore the meaning and conceptual legacies of religion as well as the unique features of the Australian case such as religion as it relates to law education gender media and radical political movements Intervening in the current debate this book provides summative accounts of the historical cultural and legal interactions that have informed Australia s relationship to religion and secularization Contributors critically analyze and engage with secular political theory concerning the public sphere while also dissecting deliberative politics and democratic practices This book propels the debate over religion s place in public life in new directions and promotes urgently needed public understanding

Muslim Perceptions of Christianity Hugh Goddard,1996 **Christian-Muslim Relations** Munawar Ahmad Anees,Ziauddin Sardar,Syed Z. Abedin,1991 **Pro Rege** Abraham Kuyper,Albert Gootjes,Jordan J. Ballor,Melvin Flikkema,2017-03-22

Abraham Kuyper firmly believed that Jesus Christ was King not just of Christians but of the entire cosmos In volume two of Pro Rege he continues his analysis of the extent to which Christ rules first in the human heart then in the life of the church and continuing to the life of the Christian family Kuyper believed that it was nonsense to distinguish between life inside and outside of church walls Here he shows that although the Jesus kingship has been denied and denigrated Christ still exerts his power in the world through his people This new translation of Pro Rege created in partnership with the Abraham Kuyper Translation Society and the Acton Institute is part of a major series of new translations of Kuyper s most important writings The Abraham Kuyper Collected Works in Public Theology marks a historic moment in Kuyper studies aimed at deepening and enriching the church s development of public theology

Whitaker's Books in Print ,1998 [Christian Theology for a Secular Society](#) Mark G. McKim,2008-01-01 It s hard to be the only one That single sentence from a teenage congregant sums up the conviction that motivated Christian Theology for a Secular Society In these dying days of Christendom the reality that most Western Christians face is living out their faith as a minority in the midst of a culture that is at every level personal institutional and societal secular in nature While most living in Western societies still affirm belief in God and often other vaguely recognizable Christian beliefs these affirmations frequently have little to do with how daily life is lived The idea that the God best known to us in Jesus Christ is actually in charge of life is foreign For most Christianity simply does not form an overarching system of meaning that shapes life Instead life is lived largely without reference to God And to live any other way is often hard In this volume Mark McKim sets out to do theology in this context How does one explain the core historic Christian doctrines in a way that makes sense in a secular culture and in a way that will gain a hearing What does it mean to be the church in this new situation Throughout McKim asks the question so what as he relates Christian teachings to a secular society and to what is actually happening in the local church McKim s goal is to enable the singing of the Lord s song in the new and strange land of a secular society

A Light Too Bright Paulos Gregorios,1992-01-01 Questioning the very

legitimacy of Western liberalism and the modern secular civilization it has given rise to Dr Gregorios critically examines the values of the European Enlightenment of the eighteenth and nineteenth centuries and the corporate drive of European peoples by which they have dominated the external world He shows that both Capitalism and Marxism as well as Modern Science and Technology are creations of the same spirit he argues The powerful light of Critical Rationality emitted by the European Enlightenment is like the light of the sun It is bright and helpful for seeing this world in detail but too bright to let us see the night sky and the vast expanses of the universe This light too bright eclipses the Transcendent Dr Gregorios invites us to appropriate the other Enlightenment of the overall religious cultural outlook in a new way and to relate it to the valid insights of the European Enlightenment
