The Light Princess:

The Light Princess George MacDonald, 2021-04-11 The king tried to have patience but he succeeded very badly It was more than he deserved therefore when at last the queen gave him a daughter as lovely a little princess as ever cried The day drew near when the infant must be christened The king wrote all the invitations with his own hand Of course somebody was forgotten Now it does not generally matter if somebody is forgotten only you must mind who Unfortunately the king forgot without intending to forget and so the chance fell upon the Princess Makemnoit which was awkward For the princess was the king s own sister and he ought not to have forgotten her But she had made herself so disagreeable to the old king their father that he had forgotten her in making his will and so it was no wonder that her brother forgot her in writing his invitations But poor relations don t do anything to keep you in mind of them Why don t they The king could not see into the garret she lived in could he She was a sour spiteful creature The wrinkles of contempt crossed the wrinkles of peevishness and made her face as full of wrinkles as a pat of butter If ever a king could be justified in forgetting anybody this king was justified in forgetting his sister even at a christening She looked very odd too Her forehead was as large as all the rest of her face and projected over it like a precipice When she was angry her little eyes flashed blue When she hated anybody they shone yellow and green What they looked like when she loved anybody I do not know for I never heard of her loving anybody but herself and I do not think she could have managed that if she had not somehow got used to herself But what made it highly imprudent in the king to forget her was that she was awfully clever In fact she was a witch and when she bewitched anybody he very soon had enough of it for she beat all the wicked fairies in wickedness and all the clever ones in cleverness She despised all the modes we read of in history in which offended fairies and witches have taken their revenges and therefore after waiting and waiting in vain for an invitation she made up her mind at last to go without one and make the whole family miserable like a princess as she was

Her atrocious aunt had deprived the child of all her gravity If you ask me how this was effected I answer In the easiest way in the world She had only to destroy gravitation For the princess was a philosopher and knew all the ins and outs of the laws of gravitation as well as the ins and outs of her boot lace And being a witch as well she could abrogate those laws in a moment or at least so clog their wheels and rust their bearings that they would not work at all But we have more to do with what followed than with how it was done The first awkwardness that resulted from this unhappy privation was that the moment the nurse began to float the baby up and down she flew from her arms towards the ceiling Happily the resistance of the air brought her ascending career to a close within a foot of it There she remained horizontal as when she left her nurse s arms kicking and laughing amazingly The nurse in terror flew to the bell and begged the footman who answered it to bring up the house steps directly Trembling in every limb she climbed upon the steps and had to stand upon the very top and reach up before she could catch the floating tail of the baby s long clothes When the strange fact came to be known there was a terrible commotion in the palace The occasion of its discovery by the king was naturally a repetition of the nurse s experience Astonished that he felt no weight when the child was laid in his arms he began to wave her up and not down for she slowly ascended to the ceiling as before and there remained floating in perfect comfort and satisfaction as was testified by her peals of tiny laughter The king stood staring up in speechless amazement and trembled so that his beard shook like grass in the wind At last turning to the queen who was just as horror struck as himself he said gasping staring and stammering She can t be ours queen Now the queen was much cleverer than the king and had begun already to suspect that this effect defective came by cause
