The Lighthouse Stevensons:

The Lighthouse Stevensons Bella Bathurst, 2010-01-07 Bella Bathurst's epic story of Robert Louis Stevenson's ancestors and the building of the Scottish coastal lighthouses against impossible odds **Lighthouse Stevensons** Bella Bathurst, 2000 **The Lighthouse Stevensons** Bella Bathurst, 2011-06-28 The flamboyant and elegantly written saga of the legendary author's family and their lifesaving nautical advances across eighteenth century Scotland Publishers Weekly For centuries the seas around Scotland were notorious for shipwrecks Mariners had nothing to aid their navigation but a single coal fire light on the east coast which was usually extinguished by rain In 1786 the Northern Lighthouse Trust was established with Robert Stevenson appointed as chief engineer a few years later In this engrossing book Bella Bathurst reveals that the Stevensons not only supervised the construction of the lighthouses under often desperate conditions but also perfected a design of precisely chiseled interlocking granite blocks that would withstand the enormous waves that batter these stone pillars The same Stevensons also developed the lamps and lenses of the lights themselves which sent a gleam across the wave and prevented countless ships from being lost at sea While it is the writing of Robert Louis Stevenson that brought fame to the family name this mesmerizing account shows how his extraordinary ancestors changed the shape of the Scotland coast against incredible odds and with remarkable technical ingenuity **Robert Louis Stevenson in the Pacific** Roslyn Jolly, 2016-12-05 Robert Louis Stevenson's departure from Europe in 1887 coincided with a vocational crisis prompted by his father's death Impatient with his established identity as a writer Stevenson was eager to explore different ways of writing at the same time that living in the Pacific stimulated a range of latent intellectual and political interests Roslyn Jolly examines the crucial period from 1887 to 1894 focusing on the self transformation wrought in Stevenson's Pacific travel writing and political texts Jolly shows how Stevenson's desire to understand unfamiliar Polynesian and Micronesian cultures and to record and intervene in the politics of Samoa gave him opportunities to use his legal education pursue his interest in historiography and experiment with anthropology and journalism Thus as his geographical and cultural horizons expanded Stevenson's professional sphere enlarged as well stretching the category of authorship in which his successes as a novelist had placed him Rather than enhancing his stature as a popular writer however Stevenson's experiments with new styles and genres and the Pacific subject matter of his later works were resisted by his readers Jolly's analysis of contemporary responses to Stevenson's writing gleaned from an extensive collection of reviews many of which are not readily available provides fascinating insights into the interests obsessions and resistances of Victorian readers As Stevenson sought to escape the vocational straightjacket that confined him his readers just as strenuously expressed their loyalty to outmoded images of Stevenson the author and their distrust of the new guises in which he presented himself **Creaky Traveler in the North West Highlands of Scotland** Warren Rovetch, 2002-10-01 The author has found a good combination of travelogue guidebook and charm to capture readers attention Aimed at more mature outdoor enthusiasts The Scots Magazine On a journey of

discovery Warren and Gerda Rovetch both creaky themselves explore the hidden places of Great Britain's last wilderness the rugged and startling coast of Scotland's North West Highlands They bring fresh perspectives to the environmental cultural and spiritual dimensions of their experience as their journey moves at an easy pace from village pubs and croft houses to places of untouched natural beauty and solitude Celtic history and tradition come alive as our hosts meander their way along Part travelogue part guidebook but all charm and wit this book transports us to another culture where we have much to learn I have never met a travel book with so much love in it for nature for the oddities encountered for good food and for the privilege of living on this planet The book is deliciously readable and reveals a breadth of curiosity that is enticing Anthony Smith author of *Explorers of the Amazon* and the TV series *Wilderness* What happens to the backpacking crowd when their backs grow too weak with age to shoulder the burden when the lure of the open road is still strong but the feet are better suited to loafers than hiking boots Do nights of camaraderie in student packed hostels turn to breakfasts in bed at bed and breakfasts Does hitchhiking give way to most car rentals Well traveled something adventurers Warren Rovetch and his wife Gerda answer these questions and many more in a charming yet practical new book *Travel with a Challenge* **The Creaky Traveler in the North West Highlands of Scotland** Warren Rovetch, 2002-10 On a journey of discovery Warren and Gerda Rovetch both creaky themselves explore the hidden places of Great Britain's last wilderness the rugged and startling coast of Scotland's North West Highlands They bring fresh perspectives to the environmental cultural and spiritual dimensions of their experience as their journey moves at an easy pace from village pubs and croft houses to places of untouched natural beauty and solitude Celtic history and tradition comes alive as our hosts meander their way along Part travelogue part guidebook but all charm and wit this book transports us to another culture where we have much to learn

Fantasy, Art and Life William Gray,2011-05-25 In part a sequel to his earlier *Death and Fantasy* William Gray s *Fantasy Art and Life* Essays on George MacDonald Robert Louis Stevenson and Other Fantasy Writers examines the ways in which Life in its various senses is affirmed explored and enhanced through the work of the creative imagination especially in

fantasy literature The discussion includes a range of fantasy writers but focuses chiefly on two writers of the Victorian period George MacDonald and Robert Louis Stevenson whose Scottish and particularly Calvinist backgrounds deeply affected their engagement with what MacDonald called The Fantastic Imagination Using and Abusing Science Cyril Besson, Véronique Molinari, 2016-05-11 Over the last two centuries as politics has evolved from the status of amateurship to that of profession political discourse together with its practices and their validity has been increasingly subject to questioning Politicians as illustrated by the low turnouts that have recently characterised general elections and a general lack of interest in politics throughout Western countries enjoy less than ever the trust of the electorate and their discourse is now often criticised for being both hollow and untrustworthy Conversely by evolving from the status of enlightened amateur to that of expert the figure of the scientist has over recent centuries gained credibility with the general public Even though the traditional view of science as the expression of reality has regularly been challenged science continues to be held in high regard and is believed to provide a reliable form of knowledge Summoning science has thus often been a way in everyday life advertising and the popular media to lend authority to a discourse and imply that one's claims are beyond dispute That politicians should have occasionally been tempted to do the same and make up for the deficit of legitimacy of their discourse through the instrumentalisation of scientific arguments or participation in contemporaneous debates on scientific issues is therefore not surprising The issue at stake in this volume is to examine how and to what extent this process may have been taking place in the past three centuries In order to accomplish this the contributions cover various fields of expertise ranging from the hard sciences to more controversial types of science investigating the intricate relations of science and political discourse
