The Oxford Of Military Anecdotes:

The Oxford Book of Military Anecdotes Max Hastings, 1985 This collection of anecdotes is principally concerned with American and British conflicts Hastings has sought stories that illustrate the military condition through the ages both on the battlefield and in the barracks

The Oxford Book of Canadian Military Anecdotes Victor Suthren, 1991 *The Oxford Book of Canadian Military Anecdotes* Victor J. H. Suthren, 1989 Gathers stories from the early explorers of New France Loyalists in the American Revolution the Northwest Rebellion the Boer War the First and Second World Wars and peace keeping efforts with the U N

Parameters, 2000 **Eleventh Month, Eleventh Day, Eleventh Hour** Joseph E. Persico, 2007-12-18 November 11 1918 The final hours pulsate with tension as every man in the trenches hopes to escape the melancholy distinction of being the last to die in World War I The Allied generals knew the fighting would end precisely at 11 00 A M yet in the final hours they flung men against an already beaten Germany The result Eleven thousand casualties suffered more than during the D Day invasion of Normandy Why Allied commanders wanted to punish the enemy to the very last moment and career officers saw a fast fading chance for glory and promotion Joseph E Persico puts the reader in the trenches with the forgotten and the famous among the latter Corporal Adolf Hitler Captain Harry Truman and Colonels Douglas MacArthur and George Patton Mainly he follows ordinary soldiers lives illuminating their fate as the end approaches Persico sets the last day of the war in historic context with a gripping reprise of all that led up to it from the 1914 assassination of the Austrian archduke Franz Ferdinand which ignited the war to the raw racism black doughboys endured except when ordered to advance and die in the war's last hour Persico recounts the war's bloody climax in a cinematic style that evokes *All Quiet on the Western Front* *Grand Illusion* and *Paths of Glory* The pointless fighting on the last day of the war is the perfect metaphor for the four years that preceded it years of senseless slaughter for hollow purposes This book is sure to become the definitive history of the end of a conflict Winston Churchill called the hardest cruelest and least rewarded of all the wars that have been fought

Samuel Stouffer and the GI Survey Joseph W. Ryan, 2013-11-01 Samuel Stouffer a little known sociologist from Sac City Iowa is likely not a name World War II historians associate with other stalwart men of the war such as Eisenhower Patton or MacArthur Yet Stouffer in his role as head of the Army Information and Education Division's Research Branch spearheaded an effort to understand the citizen soldier his reasons for fighting and his overall Army experience Using empirical methods of inquiry to transform general assumptions about leadership and soldiering into a sociological understanding of a draftee Army Stouffer perhaps did more for the everyday soldier than any general officer could have hoped to accomplish Stouffer and his colleagues surveyed more than a half million American GIs during World War II asking questions about everything from promotions and rations to combat motivation and beliefs about the enemy Soldiers answers often demonstrated that their opinions differed greatly from what their senior leaders thought soldier opinions were or should be Stouffer and his team of sociologists published monthly reports entitled *What the Soldier Thinks*

and after the war compiled the Research Branch's exhaustive data into an indispensable study popularly referred to as *The American Soldier*. General George C. Marshall was one of the first to recognize the value of Stouffer's work, referring to *The American Soldier* as the first quantitative study of the mental and emotional life of the soldier. Marshall also recognized the considerable value of *The American Soldier* beyond the military. Stouffer's wartime work influenced multiple facets of policy, including demobilization and the GI Bill. Post-war Stouffer's techniques in survey research set the state of the art in the civilian world as well. Both a biography of Samuel Stouffer and a study of the Research Branch, *Samuel Stouffer and the GI Survey* illuminates the role that sociology played in understanding the American draftee Army of the Second World War. Joseph W. Ryan tracks Stouffer's career as he guided the Army leadership toward a more accurate knowledge of their citizen soldiers while simultaneously establishing the parameters of modern survey research. David R. Segal's introduction places Stouffer among the elite sociologists of his day and discusses his lasting impact on the field. Stouffer and his team changed how Americans think about war and how citizen soldiers were treated during wartime. *Samuel Stouffer and the GI Survey* brings a contemporary perspective to these significant contributions.

Hell Before Breakfast Robert H. Patton, 2015-06-09

From acclaimed historian Robert H. Patton, author of *The Pattons* and *Patriot Pirates*, a rediscovery and celebration of America's first chroniclers of foreign war. The first war correspondent, William H. Russell of *The Times* of London described himself and his profession as the miserable parent of a luckless tribe. But it wasn't long before others saw it differently. *Hell Before Breakfast* is the spectacular tale of larger-than-life Americans who made it their business to bring back news from the front. From Bull Run to the Paris Commune, from Africa to the Ottoman Empire, through decades of lightning-fast technological progress and high adventure, as America matured into a great power and the monarchies of Europe battled for dominance through a series of brief, bloody imperial wars, with the storm clouds of World War I drawing rapidly closer, these men and their newspapers were at center stage, the vanguard of a golden age of war correspondence.

Liberty The Museum of the American Revolution, 2021-10-14

Using a masterful combination of artistry and accuracy, New York Times nationally renowned historical artist Don Troiani has dedicated much of his career to transforming the modern understanding of what the Revolutionary War truly looked like. His research-based paintings capture the reality and drama of crucial moments such as the 1775 Battle of Bunker Hill, General Washington's daring 1776 attack on Trenton, and the American and French victory at Yorktown in 1781. *Liberty: Don Troiani's Paintings of the Revolutionary War*, the book that serves as catalog for the exhibit of Troiani's work at the Museum of the American Revolution, highlights the most pivotal events of America's fight for independence and reveals Troiani's research-based artistic process. For the first time in a museum, this special exhibition brings together over forty of Troiani's original Revolutionary War paintings and pairs them with forty artifacts from his personal collection, that of the Museum, and several private collectors. <https://www.amrevmuseum.org/exhibits/liberty-or-death-don-troiani-s-paintings-of-the-revolutionary-war>

The exhibit and the book unveil Troiani's latest

canvas a painting of the young African American sailor and Philadelphian James Forten witnessing Black and Native American troops in the ranks of the Continental Army as they march past Independence Hall on their way to Yorktown Virginia The painting was commissioned in 2019 by the Museum with funding provided by the Washington Rochambeau Revolutionary Route National Historic Trail of the National Park Service The exhibit will be open from October 16 2021 to September 5 2022
