

Forty Years of Research on Corrosion by The British Steel Industry: The Work of The Corrosion Committee, 1928—1968

By J. C. HUDSON*

The Corrosion Committee, originally a joint research committee of the Iron and Steel Institute and the British Iron and Steel Federation† and now under the aegis of BISRA—the Inter-Group Laboratories of the British Steel Corporation, will be forty years old this year. It seems appropriate to mark the occasion by a short review of its achievements.

The early years

The seeds of co-operative research within the iron and steel industry were sown during the First World War. W. H. Hatfield has described how, in 1917, the Iron and Steel Institute took the initiative by setting up five research committees.¹ In his words: 'An impetus towards freer interchange of views was given by the necessities of war-time production. It was reasonably felt that pooling of resources for research and development and pooling of experience by discussion would result in quicker progress than if each works and laboratory tried to solve its own immediate problems. Rapid solutions were necessary if results were to be applied during the war'.

In 1929, largely through the efforts of Sir William Larke, K.B.E., Director of the British Iron and Steel Federation†, the Iron and Steel Industrial Research Council was set up with the support of the (then) Department of Scientific and Industrial Research. This new body assumed responsibility for the general control of the Iron and Steel Institutes' research committees, of which the Corrosion Committee was one.

The first meeting of the Corrosion Committee had been held on 13 July, 1928 at the old offices of the Iron and Steel Institute, 28, Victoria Street, London, S.W.1, which have since been demolished. The day was also a Friday, but *abstinent omnes* and the history of the Committee has proved long and successful. Eleven members were present under the Chairmanship of Dr. William Herbert Hatfield and two of them, Dr. Ulick R. Evans, F.R.S. and Dr. Harold Moore, C.B.E. survive. So do Professor George Wesley Austin, O.B.E. and Dr. Hubert Sutton, C.B.E., who were unable to attend the meeting and Sir Andrew McCance, F.R.S., who joined the Committee about a year later.

The objects and scope of the work of the Committee, summarised at the first meeting, and broadly speaking still applicable were: (1) to achieve scientific and technical progress as regards matters relating to corrosion, (2) to give

practical support to fundamental research in this field, (3) to facilitate technical developments within the industries, (4) to provide a summary of work extant, and subsequently to provide periodical statements with a view to keeping members up to date as regards work done at home and abroad in this field, (5) to publish reports from time to time through the medium of the Iron and Steel Institute.

At this first meeting, too, the manufacturers' representatives agreed to use their influence in assuring the collaboration of and assistance from the industry, particularly in service and in kind. This collaboration and assistance was willingly and generously forthcoming. Without it, little practical work could have been accomplished, because, in the early years at least, the available grant barely sufficed to cover the essential expenditure on staff (the present author was appointed as Official Investigator to the Committee in September 1929) and office accommodation.

As it was, the large amounts of materials needed for test specimens (14 tons had already been used by 1936) and the steel exposure stands (something like 30 tons of fabricated steelwork were needed for the early test series alone) were all presented by member firms of the industry. Similarly, no major expense was incurred in respect of exposure sites for, with a single exception, facilities at all the original atmospheric corrosion stations were provided gratis or at a nominal rent by the War Office, the Air Ministry, the L.M.S. Railway Company, the South African Railways and Harbours, and steel companies, including a Swedish firm, or, through the good offices of the Crown Agents for the Colonies, by the Port Engineer at Lagos, Nigeria. All necessary analyses and examinations of the test materials were made on a voluntary basis in the laboratories of committee members; so were many more fundamental investigations of such subjects as methods of laboratory testing for corrosion resistance, and the nature and properties of millscale.

When the Committee first met in 1928, considerable interest had been aroused in the beneficial effect of copper additions to structural steel on its resistance to atmospheric corrosion, notably by the work of D. M. Buck² and subsequent long-term exposure tests made by the American Society for Testing Materials.³ The Committee decided to make an independent check of these findings and one of their first steps was to undertake field tests on one ordinary and two copper-bearing steels, with copper contents of 0.02, 0.2 and 0.5%, respectively. It was laid down as a general principle that the properties of these steels and of any other materials tested later should be fully defined, the pertinent Minute reading 'that it is a fundamental necessity to have full particulars of the history and quality of the steel used for the

The Parliamentary And Scientific Committee The First Forty Years Introduction

In today's digital age, the availability of The Parliamentary And Scientific Committee The First Forty Years books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of The Parliamentary And Scientific Committee The First Forty Years books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of The Parliamentary And Scientific Committee The First Forty Years books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing The Parliamentary And Scientific Committee The First Forty Years versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, The Parliamentary And Scientific Committee The First Forty Years books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing The Parliamentary And Scientific Committee The First Forty Years books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for The Parliamentary And Scientific Committee The First Forty Years books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer

academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, The Parliamentary And Scientific Committee The First Forty Years books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of The Parliamentary And Scientific Committee The First Forty Years books and manuals for download and embark on your journey of knowledge?

FAQs About The Parliamentary And Scientific Committee The First Forty Years Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Parliamentary And Scientific Committee The First Forty Years is one of the best book in our library for free trial. We provide copy of The Parliamentary And Scientific Committee The First Forty Years in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Parliamentary And Scientific Committee The First Forty Years. Where to download The Parliamentary And Scientific Committee The First Forty Years online for free? Are you looking for The Parliamentary And Scientific Committee The First Forty Years PDF? This is definitely going to save you time and cash in something you should think about.
