The Past Through Tomorrow Future History Stories Future History Series:

The Past Through Tomorrow Robert Anson Heinlein, 2000 This connected series of stories does not pretend to be prophetic It is a history not of the future but of a future an alternate probability world which is logically self consistent dramatic and recognizably an offshoot of our own past The stories really do not form a linear series at all they are more like a pyramid in which earlier stories provide a solid base for later ones to rest on Partly because of this pyramiding of background and partly because of the author's broad knowledge Heinlein's readers find themselves in a world which is clearly our own only projected a few years or decades into the future As for the still unfolding future there are guideposts and warnings here Heinlein continually reminds us that history is a process not something dead and embalmed in textbooks Introduction
