The Pastoral Properties Of Australia:

The Pastoral Properties of Australia Peter Taylor, 1984-01 Portrait of Chief Timour buried on Nareeb Nareeb various scattered references to Aborigines working on stations Real Property in Australia Michael J. Hefferan, 2020-08-17 Real property in the form of investment ownership and use pervades almost every aspect of daily lives and represents over 40% of Australia's wealth Such assets do not exist in isolation they are dynamic and forever evolving impacted by a range of physical economic demographic legal and other forces Consequently a true appreciation of individual assets and of the property sector as a whole demands an understanding of both the assets themselves and the context and markets in which they exist The sector is complex and on the face of it confusing It is however not without logic and underlying themes and principles This book provides a wider understanding of how the real property sector works It covers topics such as the nature of real property and its functions economic drivers valuation principles legal and tenure parameters property taxation land development and subdivision asset and property management and sustainability all critical components in this complex and critically important sector It provides a wide and balanced perspective for experienced practitioners investors students and anyone involved in property decision making or wishing to secure a deeper understanding of these areas The book integrates research based theory with practical application and first hand insights into a sector that underpins the Australian economy its communities and its sustainability Australia's Livestock and Meat Industry Quevedo Martin Morgan, 1971

Australian Woolclassing John Fowler, 1995 *Sustainable Land Sector Development in Northern Australia* Jeremy Russell-Smith, Glenn James, Howard Pedersen, Kamaljit K. Sangha, 2018-09-03 Key Features Provides clear and authoritative recommendations for managing fire in ecological and social contexts Authors are all international leaders in their fields and include not only academics but also leaders of Indigenous communities Explains Indigenous cultural and knowledge systems to a degree that has rarely been accessible to lay and academic readers outside specialized disciplines like Anthropology Responds to growing need for new approaches to managing human ecological systems that are in greater sympathy with Australia's natural environments climate and value the knowledge of Indigenous people Timely for scholarly and interest groups intervention as the Australian government is again looking to develop the north Sustainable Land Sector Development in Northern Australia sets out a vision for developing North Australia based on a culturally appropriate and ecologically sustainable land sector economy This vision supports both Indigenous cultural responsibilities and aspirations as well as enhancing enterprise opportunities for society as a whole In the past well meaning if often misguided policy agendas have failed and continue to fail North Australians This book helps breach that gap by acknowledging and harnessing Indigenous cultural strengths and knowledge systems for looking after the country and its people as part of a smart novel and diversified ecosystem services economy **The Making of Australian Property Law** A. R. Buck, 2006 In 1847 in one of the most important cases in Australian legal history the Chief Justice of NSW Sir Alfred Stephen handed down a decision that would

have profound implications for both the development of Australian property law and the property rights of the Aboriginal peoples of Australia. The case was *Attorney General v Brown* and in his decision Stephen CJ ruled that the laws of property in Australia were governed by feudal principles. The shadow cast by *Attorney General v Brown* has been a long one stretching down to the decision in *Mabo* and beyond. Judicial thinking and much legal scholarship continues to emphasise a connection between the feudal origins of the English law and the state of contemporary Australian property law thereby perpetuating a nostalgic view of Australian property law. This book in contrast argues that the feudal imprint on property in Australia had been washed away by the early 1860s and that the decades of the early nineteenth century witnessed the making of a distinct Australian property law. Egalitarianism rather than feudalism this book argues shaped the emergence of Australian property law. This book situates legal development in its social and political context re-evaluating the relationship between political ideas, social values and law reform in early Australia. Australia's Empire Deryck Marshall Schreuder, Stuart

Ward, 2008-02-07 *Australia's Empire* is the first collaborative evaluation of Australia's imperial experience in more than a generation. Bringing together political, cultural and aboriginal understandings of the past, it argues that the legacies of empire continue to influence the fabric of modern Australian society. *On the Ecology of Australia's Arid Zone* Hans

Lambers, 2018-08-21 This book will appeal to an international audience as well as be irresistible to local readers. Anyone working or with an interest in Australia's arid zone should need ready access to this book. There is no equivalent publication out there at the moment and this book has many authoritative chapters richly illustrated with colourful material. The challenge of this book was to assemble current knowledge on particular topics and concepts and principles relating to them. It is also forward looking by identifying where there are gaps or inadequacies in knowledge and where future research needs to be directed. Lead authors were encouraged to take such an approach; they had the opportunity to involve any author they considered appropriate. The final product should be a fabulous resource also for university courses especially at MSc level.

Bush Heritage Australia Sarah Martin, 2016-09-01 With a plan to own or manage one per cent of Australia by 2025, Bush Heritage Australia is an organisation with big ambitions. Started by Bob Brown in 1991, Bush Heritage was born from an urgent mission to protect pristine land from logging. After buying two blocks of land in Tasmania's Liffey Valley, Brown built a philanthropic organisation to help pay for them. As donations flowed in and the organisation grew, Bush Heritage set its sights on acquiring tracts of land across the country, repairing environmental degradation and bringing native plants and wildlife back to health. Twenty-five years later, with more than one million hectares in its care, Bush Heritage's achievements are celebrated in this book along with its growth from humble beginnings into a large non-profit with benefactors all over the world. Central to this story are the ecologists, researchers, land managers, local Indigenous groups, staff, donors and a brigade of volunteers who have helped the organisation to thrive. For the ever-growing band of benefactors and the volunteers and staff of Bush Heritage Australia, happiness flows from our combined effort to ensure that Australia's unique landscapes

wildlife and ecosystems prosper into the future BOB BROWN
