The Path of Wisdom Bruce Vawter,1986 The Path of Wisdom Bruce Vawter,1986-10-01 *The Path of Wisdom* Bruce Vawter (c.m.),1968 **The Book of Proverbs in Social and Theological Context** Katharine J. Dell,2006-07-06 The book of Proverbs is the starting point of the biblical wisdom tradition But how did individual proverbs instructions and poems come together to form the various collections we have today Katharine Dell explores the possible social contexts for this varied material in the royal court wisdom schools and popular culture She draws shrewdly on materials from the wisdom traditions of the ancient Near East in particular Egypt in order to bolster and enhance her theories She argues that Proverbs had a theological purpose from its conception with God s creativity being an integral theme of the text rather than one added in later redactions Dell also shows that echoes of other Old Testament genres such as prophecy law and cult can be found in Proverbs notably in chapters 1 9 and that its social and theological context is much broader than scholars have recognised in the past **Charles Hartshorne's Concept of God** S. Sia,2013-03-14 Charles Hartshorne s considerable writings have been influential in contemporary religious and philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject of a number of conferences and gatherings of scholars One of Hartshorne s most notable contributions to contemporary philosophy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps increase its religious value while yet avoiding the contradictions which seem inseparable from the idea as customarily defined The result of his efforts has been the development of the concept of a dipolar God insofar as contrasting metaphysical predicates e.g. relative absolute contingent necessary finite infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term process has likewise been used to describe his notion of God **Passionate Holiness** Dennis O'Neill,2018-09-20 Archbishop Desmond Tutu of Cape Town once said with regard to South Africa s apartheid policy One of the ways of helping to destroy a people is to tell them that they don t have a history that they have no roots More recently he described homophobic discrimination as totally unacceptable and unjust as apartheid ever was Unfortunately it has been particularly difficult for some gay lesbian bisexual and transgender Christians to remain connected to identify with their own faith traditions because some of these traditions not only treat them as people of secondary status but also teach Christian history as though no people of same gender attraction or opposite gender identity had any noteworthy place in it and made no significant contributions at all to Christian tradition Passionate Holiness tries to remedy this situation by explaining why

acquaintance with the stories of certain saints with whom gender minorities can identify can help them to connect with their own history and spiritual legacy and empower them to face a brighter future with a sense of optimism and inclusion **NIV, Investigator's Holy Bible, Hardcover** .
