The Periphery:

Cinema at the Periphery Dina Iordanova, David Martin-Jones, Belén Vidal, 2010-03-15 In the present era of globalization this timely examination of the periphery will interest teachers and students of film and media studies Multilingualism and the Periphery Sari Pietikainen, Helen Kelly-Holmes, 2013-03-07 This edited volume explores the ways in which core periphery dynamics shape multilingualism Foreign Policy at the Periphery Bevan Sewell, Maria Ryan, 2017-01-17 As American interests assumed global proportions after 1945 policy makers were faced with the challenge of prioritizing various regions and determining the extent to which the United States was prepared to defend and support them Superpowers and developing nations soon became inextricably linked and decolonizing states such as Vietnam India and Egypt assumed a central role in the ideological struggle between the United States and the Soviet Union As the twentieth century came to an end many of the challenges of the Cold War became even more complex as the Soviet Union collapsed and new threats arose Featuring original essays by leading scholars Foreign Policy at the Periphery examines relationships among new nations and the United States from the end of the Second World War through the global war on terror Rather than reassessing familiar flashpoints of US foreign policy the contributors explore neglected but significant developments such as the efforts of evangelical missionaries in the Congo the 1958 stabilization agreement with Argentina Henry Kissinger's policies toward Latin America during the 1970s and the financing of terrorism in Libya via petrodollars Blending new internationalist approaches to diplomatic history with newly released archival materials Foreign Policy at the Periphery brings together diverse strands of scholarship to address compelling issues in modern world history **The Spread of Modern Industry to the Periphery Since 1871** Kevin H. O'Rourke, Jeffrey G. Williamson, 2017 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Ever since the Industrial Revolution of the late eighteenth and early nineteenth centuries industrialization has been the key to modern economic growth The fact that modern industry originated in Britain and spread initially to north western Europe and North America implied a dramatic divergence in living standards between the industrial North or West and a non industrial or even de industrializing South or Rest This nineteenth century divergence which had profound economic military and geopolitical implications has been studied in great detail by many economists and historians Today this divergence between the West and the Rest is visibly unraveling as economies in Asia Latin America and even sub Saharan Africa converge on the rich economies of Europe and North America This phenomenon which is set to define the twenty first century both economically and politically has also been the subject of a considerable amount of research Less appreciated however are the deep historical roots of this convergence process and in particular of the spread of modern industry to the global periphery This volume fills this gap by providing a systematic comparative historical account of the spread of modern manufacturing beyond its traditional heartland to Southern and Eastern Europe

the Middle East Asia Africa and Latin America or what we call the poor periphery It identifies the timing of this convergence finding that this was fastest in the interwar and post World War II years not the more recent miracle growth years It also identifies which driving forces were common to all periphery countries and which were not *Leading from the Periphery and Network Collective Action* Navid Hassanpour, 2017-02-17 Political revolutions economic meltdowns mass ideological conversions and collective innovation adoptions occur often but when they do happen they tend to be the least expected Based on the paradigm of leading from the periphery this groundbreaking analysis offers an explanation for such spontaneity and apparent lack of leadership in contentious collective action Contrary to existing theories the author argues that network effects in collective action originating from marginal leaders can benefit from a total lack of communication Such network effects persist in isolated islands of contention instead of overarching action cascades and are shown to escalate in globally dispersed but locally concentrated networks of contention This is a trait that can empower marginal leaders and set forth social dynamics distinct from those originating in the limelight *Leading from the Periphery and Network Collective Action* provides evidence from two Middle Eastern uprisings as well as behavioral experiments of collective risk taking in social networks How Peripheral is the Periphery? Translating Portugal Back and Forth João Ferreira Duarte, Rita Bueno Maia, Marta Pacheco Pinto, 2015-09-18 This volume is a result of the need to reflect upon Portugal's position from the viewpoint of the literary assets imported and exported through translation It brings together a number of scholars working in the field of Translation Studies directly concerned with the Portuguese cultural system in order to analyse this question from various theoretical perspectives and from case studies of translation flows and movements in Portuguese culture By *Translating Portugal Back and Forth* the articles discuss issues such as how can one draw the borderline between a peripheral and a semi peripheral system Is this borderline useful or necessary How peripheral is the Portuguese cultural system as far as translation transfers are concerned How stable or pacific has this positioning been Does the economic and historical perception of Portugal as peripheral entail that from the viewpoint of translation it would behave similarly By addressing some of these questions and as shown by the second subtitle *Essays in Honour of João Ferreira Duarte* the volume pays homage to one of the most prominent Translation Studies scholars in Portugal who has extensively reflected on the binary discourse on translation its metaphors and images **The Politics of the Periphery in Indonesia** John H. Walker, Glenn Banks, Minako Sakai, 2009-01-01 *The Politics of the Periphery in Indonesia* is a thought provoking examination of local politics and the dynamics of power at Indonesia's geographic and social margins After the fall of Suharto in 1998 and the introduction of a policy of decentralization in 2001 local stakeholders secured and consolidated decision making power and set about negotiating new relations with Jakarta The volume deals with power struggles and local national tensions looking among other things at resource control the historical roots of regional identity politics and issues relating to Chinese Indonesians The authors develop information in ways that transcend the post colonial territorial boundaries of Indonesia in

the Malay Indonesian archipelago and use case studies to show how the changes described have galvanized Indonesian politics at the cultural and geographical peripheries

The Making of Christian Myths in the Periphery of Latin Christendom (c. 1000-1300) Lars Boje Mortensen, 2006 Mythology is usually reserved for non Christian religions However the adoption of Christianity in Northern and East Central Europe between c 1000 and 1300 can be adequately described as a myth making process local saints were added to the Christian pantheon in all regions entering Latin Europe The present collection explores the links between local sanctity and the making of national myths in medieval historical writing By bringing together specialists in history and literature of the European periphery in question the case is made that the writing of history and saints lives from this pioneering period should be analysed together as mainly successful attempts at creating cultural foundation myths

Centring the Periphery: New Perspectives on Collecting East Asian Objects, 2023-08-21 Centring the Periphery New Perspectives on Collecting East Asian Objects edited by Nata a Vampelj Suhadolnik explores East Asian collections in peripheral areas of Europe and North America and their relationship with the East Asian collections in former imperial and colonial centres The authors not only present the stories of a number of less well known individual objects and collections but also discuss the evolution of fashions and tastes in East Asian objects in areas that were not centres of European colonial power and the socioeconomic conditions in which they were collected To date research on the collecting of East Asian objects in the Euro American region has focused primarily on larger collections and collectors The stories from the periphery however deserve to be told They point to important departures from the dominant discourses and practices of East Asian collecting thus raising questions about established taxonomies and knowledge systems With contributions by Tina Berdajs Chou Wei Chiang Gyrgyi Fajcskó Jin Han Sarah Laursen Beatrix Mecsi Motoh Helena Stacey Pierson Maria Sobotka Filip Suchomel Barbara Trnovec Nata a Vampelj Suhadolnik Brigid Vance Maja Veseli Nata a Visonik Gerelj Bettina Zorn
