The New Avant-garde in Italy John Picchione, 2004-01-01 The debate on literature and the arts provoked by the Italian neoavant garde neoavanguardia is undoubtedly one of the most animated and controversial the country has witnessed from World War II to the present Comprising the period between the late 1950s and the late 1960s the phenomenon of the neoavanguardia involved key writers critics and artists both as insiders Sanguineti Balestrini Guglielmi Eco and others and adversaries such as Pasolini Calvino and Moravia In The New Avant Garde in Italy the first book in English to document the movement John Picchione's objective is twofold to provide a comprehensive analysis of the theoretical tenets that inform the works of the neoavanguardia and to show how they are applied to the poetic practices of its authors The neoavanguardia cannot Picchione argues be defined as a movement with a unified program expressed in the form of manifestos or shared theoretical principles It experiences irreconcilable internal conflicts that are explored as a split between two main blocs one that is tied to the project of modernity the other to post modern aesthetic postures This study suggests that some of the contentious views proposed by the neoavanguardia anticipated a wide range of issues that continue to be significant and pressing to this day

of the last hundred years the Age of the Avant Garde that begins in the nineteenth century with Realism and Impressionism. Most of the major artists of this rich period from Monet and Degas to Jackson Pollock and Claes Oldenburg are discussed and often drastically reevaluated. A brilliant introductory essay traces the rise and fall of the avant garde as a historical phenomenon and examines some of the cultural problems which the collapse of the avant garde poses for the future of art. In addition there are chapters on art critics, museums, the relation of avant garde art to radical politics and on the growth of photography as a fine art. This collection is not intended to be the last word on one of the greatest as well as one of the most complex periods in the history of the artistic imagination. The essays and reviews gathered here were written in response to particular occasions and for specific deadlines in the conviction that a start in the arduous task of critical reevaluation needed to be made not because a critical theory prescribed it but because our experience compelled it.

After the Avant-garde Randall Halle, Reinhild Steingröver, 2008. Filmmaking in Germany and Austria has changed dramatically with digitalization and the use of video and the Internet. Introducing the work of filmmakers, this volume offers an assessment of the intent and effect of their productions and describes overall trends.

European Avant-garde Dietrich (editor) Scheunemann, 2000. This collection of critical essays is designed to lay the foundations for a new theory of the European avant garde. It starts from the assumption that not one all embracing intention of all avant garde movements, i.e. the intention of reintegrating art into the practice of life, but the challenge of new cultural technologies in particular photography and cinema constitutes the main driving force of the formation and further development of the avant garde. This approach permits to establish a theoretical framework that takes into account the diversity of artistic aims and directions of the various art movements and encourages a wide and open exploration of the multifaceted and often contradictory nature of the great variety of avant gardist innovations. Following the theoretical foundation of the new approach, individual contributions concentrate on a diverse range of avant gardist concepts, trends and manifestations from cubist painting and the literary work of Apollinaire and Gertrude Stein to the screeching voices of futurism, dadaist photomontage and film, surrealist photographs and sculptures and neo avant gardist theories as developed by the French group OuLiPo. The volume closes with new insights gained from placing the avant garde in the contexts of literary institutions and psychoanalytical and sociological concepts. The main body of the volume is based on presentations and discussions of a three day research seminar held at Yale University, New Haven in February 2000. The research group formed on this occasion will continue with its efforts to elaborate a new theory of the avant garde in the coming years.

Los Angeles has nourished a dazzling array of independent cinemas avant garde and art cinema ethnic and industrial films pornography documentaries and many other far flung corners of film culture This glorious panoramic history of film production outside the commercial studio system reconfigures Los Angeles rather than New York as the true center of avant garde cinema in the United States As he brilliantly delineates the cultural perimeter of the film business from the earliest days of cinema to the contemporary scene David James argues that avant garde and minority filmmaking in Los Angeles has in fact been the prototypical attempt to create emancipatory and progressive culture Drawing from urban history and geography local news reporting and a wide range of film criticism James gives astute analyzes of scores of films many of which are to found only in archives He also looks at some of the most innovative moments in Hollywood revealing the full extent of the cross fertilization the occurred between the studio system and films created outside it Throughout he demonstrates that Los Angeles has been in the aesthetic and social vanguard in all cinematic periods from the Socialist cinemas of the early teens and 1930s to the personal cinemas of psychic self investigation in the 1940s to attempts in the 1960s to revitalize the industry with the counterculture s utopian visions and to the 1970s when African Americans Asian Americans Latinos women gays and lesbians worked to create cinemas of their own James takes us up to the 1990s and beyond to explore new forms of art cinema that are now transforming the representation of Southern California s geography

Neo-Avant-Garde ,2016-08-01 The neo avant garde of the 1950s 60s and 70s is due for a thoroughgoing reassessment This collection of essays represents the first full scale attempt to deal with the concept from an interdisciplinary standpoint A number of essays in this book concentrate on fine art particularly painting and sculpture thereby adding significantly to the growing art historical literature in the field but a number of the contributions also focus on poetry performance theatre film architecture and music Given that there are also major essays here dealing with geographical blindspots in current neo avant garde studies with thematic issues such as art s entanglement with gender mass culture and politics with key neo avant garde publications and with the purely theoretical problems attaching to the theorisation of the topic this collection offers a multi dimensional approach to the subject which is noticeably lacking elsewhere Taken together these essays represent a consolidated attempt at re thinking the cultural logic of the immediate post World War II period
