Stringer, 2005-07-14 In this book the 2000 year history of Christian worship is viewed from a sociological perspective Martin Stringer develops the idea of discourse as a way of understanding the place of Christian worship within its many and diverse social contexts Beginning with the Biblical material the author provides a broad survey of changes over 2000 years of the Christian church together with a series of case studies that highlight particular elements of the worship or specific theoretical applications Stringer does not simply examine the mainstream traditions of Christian worship in Europe and Byzantium but also gives space to lesser known traditions in Armenia India Ethiopia and elsewhere Offering a contribution to the ongoing debate that breaks away from a purely textual or theological study of Christian worship this book provides a greater understanding of the place of worship in its social and cultural context      **A Double Regime in the Malabar Church, 1663-1716** Thomas

Pallipurathkunnel,1982 History of the St Thomas Christians of Malabar Kerala *A Church in Struggle* Alphonse Kanjirathinkal,1984 Study of the reforms in the Malabar Church introduced by Mgr Bernardine Baccinelli Vicar Apostolic of Verapoly in the mid nineteenth century *Punjab Journal of Politics* ,2008 **Calling Family** Tanja Ahlin,2023-08-11 How do digital technologies shape how people care for each other and through that who they are Calling Family explores how digital devices shape elder care at a distance and how it should be done in order to be considered good Through Tanja Ahlin's ethnographic fieldwork among families of migrating nurses from Kerala India this book aspires to uncover the subtle workings of digital technologies beyond seeing them as tools of communication **Priests and Society** Thomas Koonan,2005 On the role of Roman Catholic priests in Kerala India *Journal of Kerala Studies* ,1979 *Echoes of History* Sunitha Srinivasan, *Echoes of History* is a historical narrative that brings to life the former princely states of Travancore and Cochin The author has revealed the history of the region through word pictures based on the accounts of people who were directly a part of the events she writes about Beautiful old pictures support the narration The book is both interesting and educative History and fascinating facts are intertwined with anecdotes and legends The book captures an era that the world will never see again An age when graciousness and courtesy reigned supreme This makes it a stimulating read for all age groups and people from every walk of life The chapters of the book feature lesser known facets of Kerala's history for instance how one man made Kerala a global tourist destination or the humble beginnings of India's space research programme The story of how the Jains came to Kerala and contributed to its high literacy rate makes for fascinating reading as do the legends surrounding the famous boat races The book covers diverse topics ranging from banking to a wonderful football academy and even a delightful sailing club that is now housed on what is possibly India's most expensive piece of real estate The book's objective is to chronicle events and achievements that have largely been forgotten which in a sense is both an injustice to the people concerned as well as a gap in our recorded history It is written with gentle humour from a perspective of deep affection and delight in the land and its people It also serves as a well researched historical narrative

**Ethnic Church Meets Megachurch** Prema A Kurien,2016-10-04 Winner 2018 Section on Asia and Asian America Book Award presented by the American Sociological Association Traces the religious adaptation of members of an important Indian Christian church the Mar Thoma denomination as they make their way in the United States This book exposes how a new paradigm of ethnicity and religion and the megachurch phenomenon is shaping contemporary immigrant religious institutions specifically Indian American Christianity Kurien draws on multi site research in the US and India to provide a global perspective on religion by demonstrating the variety of ways that transnational processes affect religious organizations and the lives of members both in the place of destination and of origin The widespread prevalence of megachurches and the dominance of American evangelicalism created an environment in which the traditional practices of the ancient South Indian Mar Thoma denomination seemed alien to its American born generation Many of the young adults

left to attend evangelical megachurches Kurien examines the pressures church members face to incorporate contemporary American evangelical worship styles into their practice including an emphasis on an individualistic faith and praise and worship services often at the expense of maintaining the ethnic character and support system of their religious community Kurien's sophisticated analysis also demonstrates how the forces of globalization from the period of colonialism to contemporary out migration have brought about tremendous changes among Christian communities in the Global South Wide in scope this book is a must read for an audience interested in the study of global religions and cultures **Approaches to History** Sabyasachi Bhattacharya, 2011 History as a social science is arguably more self reflective than associated disciplines in that family Other social scientists seem to see little reason to look beyond the paradigm they are developing in the present times Historians on the other hand tend to depend on the cumulative process of the development of their craft and the fund of accumulated knowledge Yet while this is acknowledged in the practice of research Historiography in itself as a subject of study has rarely found its place in the syllabi of Indian universities Knowledge of Historiography is taken for granted when a scholar plunges into research In an attempt to address this lacuna the Indian Council of Historical Research ICHR has planned a series of volumes on Historiography comprising articles by subject specialists commissioned by the ICHR The first volume in the series Approaches to History Essays in Indian Historiography brings to the readers the first fruits of that endeavour While the essays encompass areas of research presently at the frontiers of new research scholars will also find the bibliographies accompanying the essays of significant appeal *Hindu-Christian Dialogue: Perspectives and Encounters* Harold Coward, 1993 FOR SALE IN SOUTH ASIA ONLY
