**The Launderette** Stanley S. Bloom, 1988      **Small Men on the Wrong Side of History** Ed West, 2020-03-19 An entertaining wide ranging defence and explanation of the conservative way of seeing the world suffused with generosity and wit Catholic Herald Brought up by eccentric intellectuals Ed West experienced what he believed was a fairly normal childhood of political pamphlets as bedtime reading family holidays to East Germany and a father who was one political step away from advocating the return of serfdom In his mid twenties West found himself embracing a mindset usually acquired alongside a realisation that all music post 1955 is garbage agreeing with everything said in the Telegraph and all the other bad things people get in middle age This is his journey to becoming a real life Tory boy Forgoing the typically tedious and shouty tone of the Right West provides that rare gem of a conservative book one that people of any political alignment can read if only to laugh at West's gallows humour and dry wit Crammed with self deprecating anecdotes and enlightening political insights Tory Boy discloses a life shaped by politics and the realisation that perhaps this obsession does more harm than good Anyone liberal conservative whatever would enjoy this book It is full of the most fascinating facts all mixed in with Ed's inimitable displays of self mockery Tom Holland A self deprecating and often hilarious memoir of a born conservative watching the world go wrong Sprinkled with gallows humour like a political version of Nick Hornby's *Fever Pitch* The Critic

Competitiveness in the Real Economy Rui Vinhas da Silva, 2016-05-23 Value aggregation to goods and services is unbelievably important to the balance of trade of modern nations yet it receives minute attention by economists and policy makers alike In Competitiveness in the Real Economy Rui Vinhas da Silva shows that the nature and dynamics of contemporary global competition requires a sharper focus on value aggregation He provides a rounded integrative and multi disciplinary perspective linking national competitiveness economics and management The emphasis is on a transversal philosophy of value aggregation as a key driver of national competitiveness across sectors in the real economy and from production to the consumption of goods and services The links between exports inflows of foreign direct investment FDI and country competitiveness are examined along with the role of exports and the attraction of FDI inflows in building national GDP The author emphasises that culture the notion of being cosmopolitan and understanding aspirational and discriminatory consumers with high disposable income are key drivers of success in the global economy Acknowledging that the complexity of problems comes from diversity of global actors the author highlights the limitations of current economics in responding to contemporary challenges His concern about the management sciences and management learning is that solutions do not lie in the formulation and prescription of universal laws but are contextually laden and derive from an informed intuition that is partly taught and partly experiential The book addresses the implications of all this for how the management skills needed for competitive advantage might best be developed
