**Gerald Ford and the Challenges of the 1970s** Yanek

Mieczkowski, 2005-04-22 A reappraisal of the brief presidency of Gerald Ford called to leadership in the midst of scandal stagflation and an energy crisis For many Americans Gerald Ford evokes an image of either an unelected president who abruptly pardoned his corrupt predecessor or an accident prone klutz spoofed on Saturday Night Live In this book Yanek Mieczkowski reexamines Ford's two and a half years in office showing that his presidency successfully confronted the most vexing crisis of the postwar era Viewing the 1970s primarily through the lens of economic events Mieczkowski argues that Ford's understanding of the national economy was better than any modern president's that he oversaw a dramatic reduction of inflation and that he attempted to solve the energy crisis with judicious policies Throughout his presidency Ford labored under the legacy of Watergate Democrats scored landslide victories in the 1974 midterm elections and within an anemic Republican Party the right wing challenged Ford's leadership even as pundits predicted the GOP's death Yet Ford reinvigorated the party and fashioned a 1976 campaign strategy against Jimmy Carter that brought him from thirty points behind to a dead heat on election day Drawing on numerous personal interviews with former President Ford cabinet officials and members of the Ninety fourth Congress Mieczkowski presents the first major work on Ford in more than a decade combining the best of biography and presidential history to paint an intriguing portrait of a president his times and his legacy This ambitious work calls for a reexamination of the Ford presidency in light of the formidable challenges he faced upon taking office A welcome and important addition to the literature on the Ford presidency Library Journal

*Political Rebellion* Ted Robert Gurr, 2015-01-09

This volume comprises key essays by Ted Robert Gurr on the causes and consequences of organized political protest and rebellion its outcomes and strategies for conflict management From the Castro inspired revolutionary movements of Latin America in the 1960s to Yugoslavia's dissolution in ethnonational wars of the 1990s and the popular revolts of the Arab Spring millions of people have risked their lives by participating in protests and rebellions Based on half a century of theorizing and social science research this book brings together Gurr's extensive knowledge and addresses the key questions surrounding this subject What grievances hopes and hatreds motivated the protesters and rebels What did they gain that might have offset myriad deaths and devastation How effective are protest movements as alternatives to rebellions and terrorism What public and international responses lead away from violence and toward reforms The essays in the volume are updated and are organized around the evolving themes of the author's research including theoretical arguments interpretations and references to the evidence developed in his empirical research and case studies The concluding essays bring theory and evidence to bear on the past and future of political violence in Africa This

book will be of much interest to student of rebellion political violence conflict studies security studies and IR *Ranching, Mining, and the Human Impact of Natural Resources Development* Raymond L. Gold, This book is intended for people interested in the environment American society rural and urban affairs social impact assessment and urban structures generally It is also aimed at industrial and community planners and natural resource development firms and formulated to implement a social policy concerning resource development and public agencies Ranching Mining and the Human Impact of Natural Resources Development reports and observes people whose lives have been importantly affected by industrialization of rural communities in the American West Such community change research is rarely done but is invaluable for its real world groundings for a variety of social science theories This study evolved out of ethnographic research of Western communities done over a full decade Initially performed to meet requirements for social impact analysis these studies have a much larger concern namely identifying those areas of social change that contribute to the standing of small communities and how they persist in the face of seemingly overwhelming odds of the highly advanced urban complex Professor Gold has written the first work which examines and accounts for the rise of local citizens groups to a sense of being a community Its account of this process covers both ordinarily slow and extraordinarily rapid areas of change in Western societies It places the Gemeinschaft in proper perspective as the foundation upon which all other aspects of community social structure are built In this regard it is a contribution to basic social theory showing clearly the interrelation between small community and large society elements of the structure and functioning of community life The work is subtly textured combining structural cultural and symbolic perspectives in its account of the experience of the community of Sagebrush Gold s monograph is one of a kind No other book brings together the story of social effects of natural resource development projects in the American West

**Global Rivalries From the Cold War to Iraq** Kees van der Pijl, 2006-08-20 This book offers a highly original analysis of world events in the light of the Iraq War It explores the history and development of relations between major countries in the international community and the impact that successive wars and changes in the global political economy have had on the way states relate to each other today Tracing the liberal state structure back to the closing stages of the English Civil War and settlement in North America it argues that the rise of the English speaking West has created rivalries between contender states that are never entirely put to rest With each round of Western expansion new rivalries are created Offering a truly global analysis that covers every area of the world from Europe and America to China the Middle East Latin America and Russia he analyses the development of international relations post WWII and questions whether the neoliberal project and its human rights ideology have collapsed back into authoritarianism under the guise of the war on terror The Global Political Economy of Israel Jonathan Nitzan, Shimshon Bichler, 2002-08-20 The debate about globalisation and its discontents

*The Fourth Wave* Herman Maynard, Susan E. Mehrtens, 1996-08-31 Applying the concept of historical waves originally propounded by Alvin Toffler in *The Third Wave* Herman Maynard and Susan Mehrtens look toward the next

century and foresee a fourth wave an era of integration and responsibility far beyond Toffler's revolutionary description of third wave postindustrial society Whether we attain this stage of global well being however will depend on how well our business institutions adapt and change The Fourth Wave examines the ways business has changed in the second and third waves and must continue to change in the fourth The changes concern the basics how an institution is organized how it defines wealth how it relates to surrounding communities how it responds to environmental needs and how it takes part in the political process Maynard and Mehrtens foresee a radically different future in which business principles concern for the environment personal integrity and spiritual values are integrated The authors also demonstrate the need for a new kind of leadership managers and CEOs who embrace an attitude of global stewardship who define their assets as ideas information creativity and vision and who strive for seamless boundaries between work and private lives for all employees

Assisting the Invisible Hand W. Dubbink, 2013-03-09 This is an investigation into contemporary thinking on controlling the market especially with regard to the problem of dealing with environmental issues The book contributes to contemporary insight by arguing that the issue of market control must be addressed in terms of the relations between state market and civil society It stresses the normative dimensions of the market control issue The position adopted by the book is that the market cannot be controlled by the state alone

**Earth Democracy** Vandana Shiva, 2015-10-27 World renowned environmental activist and physicist Vandana Shiva calls for a radical shift in the values that govern democracies condemning the role that unrestricted capitalism has played in the destruction of environments and livelihoods She explores the issues she helped bring to international attention genetic food engineering culture theft and natural resource privatization uncovering their links to the rising tide of fundamentalism violence against women and planetary death Struggles on the streets of Seattle and Cancun and in homes and farms across the world have yielded a set of principles based on inclusion nonviolence reclaiming the commons and freely sharing the earth's resources These ideals which Dr Shiva calls Earth Democracy serve as an urgent call to peace and as the basis for a just and sustainable future

*It's All for Sale* James Ridgeway, 2004 An analysis of who owns and controls the world's natural resources geared for the general reader but useful for scholars of development international relations and the environment

**The Centrality of Agriculture** Colin Adrien MacKinley Duncan, 1996 A critical review of the history of capitalism and socialism in relation to agriculture reexamining the role of agriculture in political economy using ecological historical humanist institutionalist and Marxist methodologies Suggests ways in which the original socialist project of developing a theory of political economy which was sidetracked by industrialism can be rejuvenated using England as a case study For students in environment and political science Annotation copyright by Book News Inc Portland OR

Capitalism, Democracy, and Ecology Timothy W. Luke, 1999 The world that was revolutionized by industrialization is being remade by the information revolution But this is mostly a revolution from above increasingly shaped by a new class of technocrats experts and professionals in the service of corporate capitalism Using Marx as a touchstone Timothy W Luke

warns that if communities are not to be overwhelmed by new class economic and political agendas then the practice of democracy must be reconstituted on a more populist basis However the galvanizing force for this new more community centered populism will not be the proletariat as Marx predicted nor contemporary militant patriotic groups Rather Luke argues that many groups unified by a concern for ecological justice present the strongest potential opposition to capitalism Wide ranging and lucid Capitalism Democracy and Ecology is essential reading in the age of information The Activist Impulse Jared S. Burkholder,David Cramer,2012-04-04 Anabaptists have often felt suspicious of American evangelicalism and in turn evangelicals have found various reasons to dismiss the Anabaptist witness Yet at various points in the past as well as the present evangelicals and Anabaptists have found ample reason for conversation and much to appreciate about each other The Activist Impulse represents the first book length examination of the complex relationship between evangelicalism and Anabaptism in the past thirty years It brings established experts and new voices together in an effort to explore the historical and theological intersection of these two rich traditions Each of the essays provides fresh insight on at least one characteristic that both evangelicals and Anabaptists share an impulse to engage society through the pursuit of active Christian witness **A Prosperous Way Down** Howard T. Odum,Elisabeth C. Odum,2011-05-18 A Prosperous Way Down the last book by Howard T and Elisabeth C Odum has shaped politics and planning as nations states and localities begin the search for ways to adapt to a future with vastly increased competition for energy It considers ways in which a future with less fossil fuel could be peaceful and prosperous Although history records the collapse of countless civilizations some societies and ecosystems have managed to descend in orderly stages reducing demands and selecting and saving what is most important The authors make recommendations for a more equitable and cooperative world society with specific suggestions based on their evaluations of trends in global population wealth distribution energy sources conservation urban development capitalism and international trade information technology and education Available for the first time in paperback this thoughtful provocative book forces us to confront assumptions about our world s future and provides both a steadying hand and a call to action with its pragmatic analysis of a global transition *Routledge Library Editions: Sustainability* Various Authors,2021-03-04 The 4 volumes in this set originally published between 1988 and 1997 draw together research by leading academics in the area of sustainability and provides a rigorous examination of related key issues The volumes examine environmental policy and plans for a sustainable future This set will be of particular interest to students of Environmental Studies **A Dictionary of Green Ideas** John Button,2019-06-21 First published in 1988 A Dictionary of Green Ideas collects together the concepts which go to make up a green view of the world Ecology and the environment conservation and appropriate technology politics and philosophy peace and health spirituality and world development all these areas and more are reflected in nearly 1500 entries The entries range from the very short to full length essays reflecting the diversity of the subject matter All give a clear definition of the meaning of the term and an indication of its etymology and earliest use But

the Dictionary of Green Ideas is much more than simply a list of definitions The concepts discussed are elaborated upon interpreted set in context exemplified by quotations from a wide range of sources and related to other entries by means of an extensive network of cross references The result is a fascinating and immensely readable book which successfully fulfils a double role as an accessible introduction to green thought and as a source of reference offering new insights to green thinkers of long standing

**The Origins of Economic Inequality Between Nations** Carlos Ramirez-Faria, 2012-07-26

First published in 1991 this text provides an incisive analysis of theories concerning the origins of economic inequality between nations Central to the author's investigation is the concept of underdevelopment and a focus on successive Western systems of conceptualisation of the relationship between the west and the rest of the world The first part of the book concerns the Marx Engels theory of the Asiatic mode of production and the anti Imperialist reaction against Eurocentrism initiated by the theoretical synthesis of J A Hobson This is followed by an examination of the post World War II era particularly the evolution of development studies and the differing versions of dependency theory The author concludes with an analysis of the most recent reactions against economic imperialism and dependency theory and concludes with an assessment of their implications for the further economic development of today's Third World

*Desert Passages* Patricia Nelson Limerick, 1985 Traces the development of American attitudes toward the desert using case studies from many writers over the years
