The Beginning Learner's Russian Dictionary is designed for beginning learners of the Russian language including those who are going to take the Test of Russian as a Foreign Language TORFL at the elementary A1 level Bonus Free audio tracks available to download and stream from www.lingualism.com/blrd The dictionary is based on the official Lexical Minimum for the standardized test which was developed by the Russian Ministry of Education and Science and includes 780 items that learners are expected to know at the A1 level To these the names of countries common Russian personal names and grammatical terms have been added bringing the total number of headwords in the dictionary to just over 1 000 Whether or not you plan to take the TORFL test this selection of vocabulary will provide a solid base upon which to build your competency in Russian This dictionary offers many advantages for beginning learners over other Russian English dictionaries It offers a reader friendly uncluttered layout Only senses appropriate to the A1 level appear in the entries Grammatical information is presented clearly in tables along with invaluable usage notes Example sentences contain only A1 level vocabulary Beginning learners may find other dictionaries overwhelming as entries contain multiple senses many of which are uncommon and make it difficult to determine which sense is intended Such dictionaries present limited grammatical information often in abbreviated form under the assumption that the reader is proficient in Russian grammar Likewise example sentences may contain too many higher level vocabulary words to be of use to beginning learners An English Russian index makes it easy to locate the Russian word you need and learn more about it pronunciation grammar and usage The Beginning Learner's Russian Dictionary is meant to be more than a reference in which to look up unknown words It is a study tool to expand your lexicon and build a solid base in both vocabulary and grammar You are encouraged to read through entry after entry studying the structure of the example sentences noticing the inflections of nouns adjectives and verbs and practicing your listening skills and pronunciation while listening to the accompanying audio tracks *The Learner's English-Russian Dictionary* S. LAPIDUS, 2018 *The Learner's Russian-English Dictionary (Classic Reprint)* B. A. Lapidus, 2017-12 Excerpt from *The Learner's Russian English Dictionary* There has long been a need for a dictionary designed especially for the English speaking student who seeks to gain active mastery of Russian Such a student needs much more than the one or two synonyms sporadically supplemented by idiomatic expressions that are found in most foreign language dictionaries He needs detailed indications about how each Russian word is inflected and about its accentuation in the various inflected forms He also needs to be told as much as possible about the usage of the different words for words in one language are only too often used quite differently than their nearest synonyms in a second language Information of this type has hitherto been available only in multivolume dictionaries which are expensive hard to handle and moreover not being compiled with an English speaking user in mind frequently fail to discuss difficulties that would be encountered by such a user About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
