William Empson: Essays on Renaissance Literature: Volume 1, Donne and the New Philosophy William Empson, 1993-03-18 Following the success in paperback of William Empson s Essays on Shakespeare 1986 this first volume of his Essays on Renaissance Literature 1993 now appears in an accessible format The volume gathers Empson s passionate and controversial essays on John Donne in the context of contemporary science and includes previously unpublished pieces on some of the most influential Renaissance writers and scientists Edited and introduced by leading Empson scholar John Haffenden this is a book for anyone interested in the Renaissance the history of science and the history of literary criticism Some of these passages have a sweep as grand as Empson found in Donne Eric Griffiths The Times Literary Supplement Empson s achievement here as elsewhere comes from the generosity of spirit which made him consistently a great critic The New York Review of Books

The Wizard of Us Volume I Michel Labrèche, 2017-04-12 Life is an experience where we must emerge victorious over what prevents us from manifesting our reality In this collection of eight volumes the author defines us as human beings our psyche and the connection that exists between our body soul and Mind He answers fundamental questions that trouble us deep down inside Who are we Where do we come from Where are we going He shows us how to remain objective about our subjective experience The author covers the origin of creation of the universe the emergence of man and the end of our world that progressively fades away He goes beyond the limits of psychology which restrain our attempt to grasp our real consciousness He shows us that the imperfection of our ego is at the origin of the wide array of emotions that afflicts us and enslaves humanity He explains the phenomenon of the degeneration of our physical body leading to death He shows us how to slow it down to finally reveal how to overcome it His research helps us understand our presence in the universe He demystifies the process of reincarnation and lifts the veil from the reality of paranormal phenomena He teaches us how to wake up the wizard that sleeps within us and how to set him free The author s vision constitutes an overview of the human adventure and of our destiny if we have the power and we manifest the Will to triumph from the burden which was imposed on us The only limits that we possess are the one which we cannot refute The author explores the scenarios of the end of this world in relation to the law of cycles which

will lead to the birth of a new civilization where science will amaze and assist us into our exploration of life He shares his personal experiences with us as well as his comprehension of the lessons learned from them He gives us all the necessary tools that will finally enable us to deliver ourselves from the forces of decay in order to be able to escape from our terrestrial prison The first page of this collection opens the door to infinity and to our inner wizard

Catalog of Unconfirmed Comets - Volume 1 Gary W. Kronk, Maik Meyer, 2023-05-09 This catalog is the first in depth investigation of comets that were reported since the 17th century but not confirmed and subsequently lost Volume I of this two volume work covers objects observed between 1600 and 1899 a period that was dominated by visual observations and was experiencing a rapid evolution in science The book uniquely combines the history and culture of comet hunting and discovery with modern tools of orbital mechanics to present a wholesome catalog of unconfirmed and suspected comets Each case includes a presentation of the observations a discussion about the observer when possible consideration of the historic context and a conclusion as to the nature of the object In most cases the book presents material from original sources including some never before published that were acquired from observatories libraries and historical societies around the world Although some of these unconfirmed comets turned out to be misidentifications of planets or star clusters fabrications or poor observations of comets that were already being observed the Authors did identify many objects that were likely real comets In some cases the

Authors were even able to derive orbits for the first time These observations may be valuable in the future as they could prove to be observations of periodic comets still to be discovered

The Heretic's Gospel - Book One Gabriel Stone,2013-06-11 The Heretic's Gospel Book One tells the story of a young Jewish carpenter from his birth in a humble cave in Bethlehem through his childhood his reluctant betrothal his baptism by the famous John the Baptist and to his own preeminence as the Great Healer of Upper Galilee Based on literally thousands of hours of archaeological and historical research the past will come alive again as you look at Life in First Century Israel through the eyes of the man who comes to be known to the world as Jesus Christ
