world's longest surviving and most widely distributed military rifle having armed the forces of Russia and many other countries for more than five decades. It has seen action from World War I to the present day but is most famous for its role during World War II when it proved to be an excellent sniping weapon in the hands of marksmen such as Vasily Zaitsev and Simo Häyhä. This study covers the rifle's entire combat history from its early development through to its service in combat and the impact it has had on modern firearms. Dramatic battle reports and specially commissioned artwork complement the meticulously researched examination of the Mosin Nagant provided by author Bill Harriman as he delves into the history of one of the most iconic rifles of World War II.

Snipers at War John Walter, 2017-05-30 Snipers at War is a detailed history and analysis of the equipment, tactics and personalities of the sniping world from the pursuit of accuracy to the latest electronic aids to observation and ranging. Technology and marksmanship from the Crimean War to the present day is examined in detail. The role of the sniper was largely ignored until the Winter War of 1939-40 between Finland and the USSR showed what could be achieved by specialist marksmen. Finns like Simo Häyhä amassed 505 kills in less than a hundred days, a lesson learned by the Red Army at its cost. By the Germans' invasion of 1941, the Russians were prepared when the war ended in addition to men such as Vasily Zaitsev, a Stalingrad hero with 242 accredited kills, the USSR had trained more than 2000 women as snipers. After 1945, the sniper's reputation declined again. However, the Vietnam War, seemingly unending Middle Eastern conflict, internal strife in Sri Lanka and ever-present urban threats have given new impetus not only to sniping but also to the development of new and more effective weaponry.

Arnhem 1944 Chris Brown, 2016-04-23 The Battle of Arnhem is one of the most iconic Western front battles of the Second World War. When we think of Arnhem we think of a bridge too far and a sky full of parachutes dropping the Allies into the Netherlands. It was one of the most complex and strategically important operations of the war. Operation Market Garden was devised to give the Allies the opportunity to bypass the German Siegfried Line and attack the Ruhr. Paratroopers were dropped into the Netherlands to secure all the bridgeheads and major routes along the proposed Allied axis of advance. Simultaneously, the 1st Airborne Division supported by the Glider Pilot Regiment and Polish 1st Independent Parachute Brigade landed at Arnhem. The British expected to sweep through and connect with the Arnhem force within a matter of days. However, things on the ground proved very different. The troops met resistance from pockets of SS soldiers and soon were overwhelmed. The Arnhem contingent was cut off from reinforcement and eventually forced to withdraw. The 1st Airborne Division lost three quarters of its strength in the operation and did not see battle again. Through quotes and maps, the text explores the unfolding action of the battle and puts the reader on the frontline. If you truly want to understand what happened and why, read the Battle Story.
