R. R. Anderson,2021-03-22 I think Scandinavian Paganism to us here is more interesting than any other It is for one thing the latest it continued in these regions of Europe till the eleventh century eight hundred years ago the Norwegians were still worshipers of Odin It is interesting also as the creed of our fathers the men whose blood still runs in our veins whom doubtless we still resemble in so many ways Strange they did believe that while we believe so differently Let us look a little at this poor Norse creed for many reasons We have tolerable means to do it for there is another point of interest in these Scandinavian mythologies that they have been preserved so well Neither is there no use in knowing something about this old Paganism of our fathers Unconsciously and combined with higher things it is in us yet that old faith withal To know it consciously brings us into closer and clearer relations with the past with our own possessions in the past For the whole past as I keep repeating is the position of the present The past had always something true and is a precious possession In a different time in a different place it is always some other true of our common human nature that has been developing Itself **Norse Mythology: Nordic Mythology Its Gods and History**
