**The Letters of Demosthenes** Jonathan Amos Goldstein, 1968  
Goldstein, 1959     *Briefe, engl* Demosthenes, Jonathan A. Goldstein, 1968     **The Letters of Demosthenes** Jonathan A. Goldstein, 1959  
**Demosthenes, Columbia University Press, 1968, XII, 320** Stephen M. Perlman, 1970     The Letters of Paul Charles B. Puskas, Mark Reasoner, 2013 Since Charles Puskas first published *The Letters of Paul* it has proven to be a reliable text and reference tool. It is an exemplary guide to the basic issues surrounding the Pauline letters: who really wrote each letter, when it was written, the letter's social context, audience, and literary characteristics, and also includes discussion of the worlds of Paul, the letter genre, and the rhetorical arrangement of each letter. Working with noted Pauline scholar Mark Reasoner on this new second edition with more than 40 percent new and revised material, the authors have taken account of a host of diverse cultural, historical, sociorhetorical, literary, and contextual studies of recent years and critically reexamined several issues of authorship, date, historical situation, literary form, and rhetorical structure. They have addressed new and pressing issues, filled certain lacunae, and generally updated the book for a new generation of readers.

**Ancient Greek Letter Writing** Paola Ceccarelli, 2013-10-24 In this volume Ceccarelli offers a history of the development of letter writing in ancient Greece from the archaic to the early Hellenistic period. Highlighting the specificity of letter writing as opposed to other forms of communication, and writing the volume looks at documentary letters but also traces the role of embedded letters in the texts of the ancient historians, in drama, and in the speeches of the orators. While a letter is in itself the transcription of an oral message and as such can be either truthful or deceitful, letters acquired negative connotations in the fifth century, especially when used for transactions concerning the public and not the private sphere. Viewed as the instrument of tyrants or near eastern kings, these negative connotations were evident especially in Athens where comedy and tragedy testified to an underlying concern with epistolary communication. In other areas of the Greek world such as Sparta or Crete, the letter may have been seen as an unproblematic instrument for managing public policies, with inscriptions documenting the official use of letters not only by the Hellenistic kings but also by some poleis.

**The Letter of Speusippus to Philip II** Anthony Francis Natoli, 2004 The arguments for the authenticity of the Letter of Speusippus are re-evaluated. In what is a radical reassessment, it is argued that the letter is best interpreted in the context of events that took place during the reign of Perdiccas III. The 31st Socratic letter, likely to be a genuine work of Plato, provides evidence of Plato's involvement in Macedonian affairs in the late 360s, an involvement that resulted in the hostility exhibited by Philip towards Plato and his successors in the Academy. In contrast, Philip was on friendly terms with Isocrates and provided patronage to the leading intellectuals of the day, among whom were such men as Anaximenes, Theopompus, and Callisthenes. The rhetorical structure of the letter is analysed in depth, thereby elucidating Speusippus' aim in addressing Philip and at the same time holding up a mirror to Isocrates' Philip, in which we see the latter's work reflected in greater clarity. A text and translation together with a

full commentary on the letter is provided as is also an extended appendix on Plato's letter to Philip P 4 of cover **Gregory of Nyssa: The Letters** Anna M. Silvas, 2006-12-01 This book gathers 37 letters of St Gregory of Nyssa c 335-394 translated into English some for the first time and equipped with up to date scholarly notes It begins with a biography focusing on Gregory's family background and young adulthood A study of Gregory the letter writer follows with a dateline of the letters Three sub collections of letters follow 1 Prelude comprising testimonia from Basil and Gregory Nazianzen 2 The Pasquali Collection the 30 letters established by G Pasquali 3 Supplementary one letter always known as Gregory's five letters reassigned to Gregory by scholars and a new one proposed by the author for reassignment A specially commissioned icon an original map and two architectural sketches are included This book will both stimulate veteran scholars in the Cappadocian Fathers and early Christianity and serve English speaking lovers of the Fathers who do not have ready access to the sources in other languages

**Cicero, Greek Learning, and the Making of a Roman Classic** Caroline Bishop, 2018-12-13 The Roman statesman orator and author Marcus Tullius Cicero is the embodiment of a classic his works have been read continuously from antiquity to the present his style is considered the model for classical Latin and his influence on Western ideas about the value of humanistic pursuits is both deep and profound However despite the significance of subsequent reception in ensuring his canonical status Cicero Greek Learning and the Making of a Roman Classic demonstrates that no one is more responsible for Cicero's transformation into a classic than Cicero himself and that in his literary works he laid the groundwork for the ways in which he is still remembered today The volume presents a new way of understanding Cicero's career as an author by situating his textual production within the context of the growth of Greek classicism the movement had begun to flourish shortly before his lifetime and he clearly grasped its benefits both for himself and for Roman literature more broadly By strategically adapting classic texts from the Greek world and incorporating into his adaptations the interpretations of the Hellenistic philosophers poets rhetoricians and scientists who had helped enshrine those works as classics he could envision and create texts with classical authority for a parallel Roman canon Ranging across a variety of genres including philosophy rhetoric oratory poetry and letters this close study of Cicero's literary works moves from his early translation of Aratus poetry and its later reappearance through self quotation to Platonizing philosophy Aristotelian rhetoric Demosthenic oratory and even a planned Greek style letter collection Juxtaposing incisive analysis of how Cicero consciously adopted classical Greek writers as models and predecessors with detailed accounts of the reception of those figures by Greek scholars of the Hellenistic period the volume not only offers ground breaking new insights into Cicero's ascension to canonical status but also a salutary new account of Greek intellectual life and its effect on Roman literature

**Performances of Ancient Jewish Letters** Marvin Lloyd Miller, 2015-09-16 This ambitious and engaging book sets itself the task of combining a wide range of approaches to cast new light on the form and function of several ancient Jewish letters in a variety of languages The focus of The Performance of Ancient Jewish Letters is on applying a new emerging field of

performance theory to texts and arguing that letters and other documents were not just read in silence as is normal today but were performed especially when they were addressed to a community A distinctive feature of this book consists of being one of the first to apply the approach of performance criticism to ancient Jewish letters Previous treatments of ancient letters have not given enough consideration to their oral context however this book prompts the reader to listen sympathetically with the audience The Performance focuses close attention on the ways in which the engagement of the audience during the performance of a text might be read from traces present in the text itself This book invites the audience to hear a fresh reading of a family letter from Hermopolis concerning ugly tunics and castor oil festal letters about issues surrounding the celebration of Passover Purim and Hanukkah a diaspora letter on how to live in a foreign land and also an official letter concerning the building of the Jerusalem temple These letters will help us understand a text from the Dead Sea Scrolls namely MMT Marvin L Miller argues for the centrality of performance in the life of Jews of the Second Temple period an area of study that has been traditionally neglected The Performance advances the fields of orality and epistolography and supplements other scholars works in those fields Plutarch's Lives. Translated ... By John Langhorne ... and William Langhorne. A New Edition, Carefully Revised and Corrected ,1862 **Plutarch's Lives** Plutarch,1845 *The North Aegean Wars, 371-360 B.C* Julia Heskel,1997 The basis of this book is Heskel s belief that Philip II s policies regarding Athens cannot be properly understood without a thorough investigation of the preceding events of the 360s and what Heskel describes as the hitbed of diplomatic and military activity that was the North Aegean in that period By making the region rather than the actions of any one power the central focus of the study Heskel aims to fill in the gaps left by previous writers on the subject The Letters of Pliny the Younger. With Observations on Each Letter; and an Essay on Pliny's Life, ... by John, Earl of Orrery. ... Pliny (the Younger.),1751 **Plutarch's Lives, tr. by J. & W. Langhorne** Plutarch,1887 **Lives** Plutarch,1846 **Letter-writing Manuals and Instruction from Antiquity to the Present** Carol Poster,Linda C. Mitchell,2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study *Defining Authorship, Debating Authenticity* Roberta Berardi,Martina Filosa,Davide Massimo,2020-10-26 This volume explores the themes of authorship and authenticity and connected issues from the Classical Antiquity to the Renaissance Its reflection is constructed within a threefold framework A first section includes topics dealing with dubious or uncertain attribution of ancient works homonymous writers and problems regarding the reliability of compilation literature The middle section goes through several issues concerning authorship the balance between the author

s contribution to their own work and the role of collaborators pupils circles reviewers scribes and even older sources but also the influence of different compositional stages on the concept of author and the challenges presented by anonymous texts Finally a third crucial section on authenticity and forgeries concludes the book it contains contributions dealing with spurious works or sections of works mechanisms of interpolation misattribution and deliberate forgery The aim of the book is therefore to exemplify the many nuances of the complex problems of authenticity and authorship of ancient texts

Performance Criticism of the Pauline Letters Bernhard Oestreich, 2016-10-28 Receiving a letter from Paul was a major event in the early churches Given the orally oriented culture of the time a letter was designed to be read out loud in front of an audience The document was an intermediate state for the local transport of the message but the actual medium of communication was the performance event This event was embedded in the written text in a manner comparable to a theater script After careful preparation because of high expectations from ancient audiences a presenter embodied the message with his voice gazes and gestures and made it not only understood but jointly experienced After presenting a short history of performance criticism this book clarifies what is meant by the highly ambiguous term performance and develops steps to analyze ancient texts in order to find and understand the embedded signals of performance This leads to a critical assessment of the potential of performance criticism as a method Then the method is applied to the Pauline Epistles and other early Christian letters It proves to be highly rewarding difficult passages become comprehensible new aspects come to light the text s impact on the audience is felt in short the texts come alive

**Ancient Rhetoric and Paul's Apology**  
Fredrick J. Long, 2004-10-14 Second Corinthians is Paul s apology to the Corinthians for failing to visit them using rhetorical persuasion in his letters and appearing unapproved for the collection The scholarly consensus maintains that 2 Corinthians is a conglomeration of letters due to its literary and logistical inconsistencies Consequently most interpretations of 2 Corinthians treat only parts of it However a different consensus is emerging Fredrick Long situates the text within Classical literary and rhetorical conventions and argues for its unity based upon numerous parallels with ancient apology in the tradition of Andocides Socrates Isocrates and Demosthenes He provides a comprehensive survey and rigorous genre analysis of ancient forensic discourse in support of his claims and shows how the unified message of Paul s letter can be recovered His study will be of relevance to Classicists and New Testament scholars alike
