The Liberal Case Against Abortion:

The Liberal Case Against Abortion Vasu Murti, 2006 Murti attempts to explore without religion one of the most contentious issues of our day the question of abortion For as much as the atomic bomb forever altered questions about war and peace so has abortion forever altered the meaning of human life and our responsibility to it By creatively and passionately using the universal question of the rights of animals Murti analyzes the rights of the unborn The power of his persuasion is not based on one or more bodies of religious thought but on sentient beings natural tendency to protect one another From the Foreword by Carol Crossed President Democrats for Life of America Activist Vasu Murti a card carrying member of the People for Ethical Treatment of Animals PETA and the American Civil Liberties Union ACLU presents a formidable case against abortion using reasoning and arguments based upon liberal philosophy *Practical Ethics* Peter Singer, 2011-02-21 For thirty years Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics For this third edition the author has revised and updated all the chapters and added a new chapter addressing climate change one of the most important ethical challenges of our generation Some of the questions discussed in this book concern our daily lives Is it ethical to buy luxuries when others do not have enough to eat Should we buy meat from intensively reared animals Am I doing something wrong if my carbon footprint is above the global average Other questions confront us as concerned citizens equality and discrimination on the grounds of race or sex abortion the use of embryos for research and euthanasia political violence and terrorism and the preservation of our planet's environment This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live **Assisted Suicide: The Liberal, Humanist Case Against Legalization** K. Yuill, 2013-03-05 This book presents an atheistic case against the legalization of assisted suicide Critical of both sides of the argument it questions the assumptions behind the discussion Yuill shows that our attitudes towards suicide not euthanasia are most important to our attitudes towards assisted suicide **Responsibility, Complexity, and Abortion** Karen L. F. Houle, 2013-12-24 Responsibility Complexity and Abortion Toward a New Image of Ethical Thought draws from feminist theory post structuralist theory and complexity theory to develop a new set of ethical concepts for broaching the thinking challenges that attend the experience of unwanted pregnancy Author Karen Houle does not only argue for these concepts she enacts a method for working with them a method that brackets the tendency to take positions and to think that position taking is what ethical analysis involves This book thus provides concrete evidence of a theoretically grounded compassionate way that people in all walks of life academic or otherwise could come to a better understanding of and more complex relationship to difficult ethical issues On the one hand this is a meta ethical book about how people can conceive and communicate moral ideas in ways that are more constructive than position taking on the other hand it is also a book about abortion It testifies from a first person female perspective about the life long complexity that attends fertility sexuality and reproduction But it does not do so in order to ratify abortion as a

woman's issue or a private matter or as feminist work. Rather its aim is to excavate the ethical richness of the situation of unwanted pregnancy showing that it connects to everyone, affects everyone and thus gives everyone something unique and new to think.

The Book and the Right Maynard Miller, 2010-11. The Pilgrims journeyed toward the New World with a distinct purpose in mind. They left behind a life dissatisfying to them and arrived with a vision of liberty and hope. They held within themselves the seeds of a nation exceptional in all of history. Their convictions paved the way for the colonists who would eventually give form and substance to a government based on the truth of the ages. A unique nation, a nation under God, would arise and seize the God-given right to live free, offer opportunity and realize prosperity. But contrary to the settlers and founders' principles, alien elements have arisen in recent years to challenge the American ideal and threaten the foundation of the republic. Forces foreign to the Constitution are producing radical changes in our cultural and political life and one nation under God has become one nation under siege. *The Book and The Right* examines those qualities that have made America exceptional but that are endangered at the present time and looks in detail at the causes that are putting her at serious risk. It appraises her current direction and stresses the steps she must take to return to the course of her originally chosen destiny. *The Book and The Right* addresses a subject long held taboo and goes to the heart of the issue for answers. The author draws on historical, theological, psychological and political data to pursue the truth and call America back to her roots. Maynard Miller holds degrees from Asbury College, Southern Baptist Theological Seminary and the University of Kentucky. He has been a psychotherapist, administrator and college teacher in the mental health/human service field. A frequent speaker and writer, he is a leader in national and international service projects. His previous book is *The Face in the Mirror*.

Gender-Sensitive Norm Interpretation by Regional Human Rights Law Systems Maria Sjöholm, 2017-09-25. In *Gender Sensitive Norm Interpretation by Regional Human Rights Law Systems* Maria Sjöholm examines the jurisprudence on gender-based harm in the European, Inter American and African regional human rights law systems from the viewpoint of feminist legal methods and theories. By offering indicators relevant for gender sensitive norm interpretation, Maria Sjöholm identifies inconsistencies in the current regional legal frameworks with regard to the protection of women concerning such violations as domestic violence, human trafficking, sexual violence, forced sterilization and restrictions on other reproductive rights. The book offers an in-depth account not only of the manner in which such harm has been recognized through integration in general human rights law treaties but also the categorization of such as particular human rights norms by regional human rights courts and commissions.

Judicial Review in an Age of Moral Pluralism Ronald C. Den Otter, 2009-08-31. This book considers how judicial review can be improved to strike the appropriate balance between legislative and judicial power.

The Many and the One Richard Madsen, Tracy B. Strong, 2009-01-10. The war on terrorism, say America's leaders, is a war of Good versus Evil. But in the minds of the perpetrators, the September 11 attacks on New York and Washington were presumably justified as ethically good acts against American evil. Is such polarization leading to a violent clash of civilizations?

or can differences between ethical systems be reconciled through rational dialogue This book provides an extraordinary resource for thinking clearly about the diverse ways in which humans see good and evil In nine essays and responses leading thinkers ask how ethical pluralism can be understood by classical liberalism liberal egalitarianism critical theory feminism natural law Confucianism Islam Judaism and Christianity Each essay addresses five questions Is the ideal society ethically uniform or diverse Should the state protect ban or otherwise intervene in ethically based differences How should disagreements on the rights and duties of citizens be dealt with Should the state regulate life and death decisions such as euthanasia To what extent should conflicting views on sexual relationships be accommodated This book shows that contentious questions can be discussed with both incisiveness and civility The editors provide the introduction and Donald Moon the conclusion The contributors are Brian Barry Joseph Boyle Simone Chambers Joseph Chan Christine Di Stefano Dale F Eickelman Menachem Fisch William Galston John Haldane Chandran Kukathas David Little Muhammad Khalid Masud Carole Pateman William F Scheuerman Adam B Seligman James W Skillen James Tully and Lee H Yearley *Writings on an Ethical Life* Peter Singer, 2015-04-14 The essential collection of writings by one of the most visionary and daring philosophers of our time Since bursting sensationally into the public consciousness in 1975 with his groundbreaking work *Animal Liberation* Peter Singer has remained one of the most provocative ethicists of the modern age His reputation built largely on isolated incendiary quotations and outrage of the moment news coverage has preceded him ever since Aiming to present a more accurate and thoughtful picture of Singer's pioneering work *Writings on an Ethical Life* features twenty seven excerpts from some of his most lauded and controversial essays and books The reflections on life death murder vegetarianism poverty and ethical living found in these pages come together in a must read collection for anyone seeking a better understanding of the issues that shape our world today This ebook features an illustrated biography of Peter Singer including rare photos from the author's personal collection *Democracy After Liberalism* Robert Talisse, 2005-07-05 This book critically evaluates liberalism the dominant attempt in the tradition of political philosophy to provide a philosophical foundation for democracy and argues for a conception of deliberative democracy to meet this need [Abortion and Moral Theory](#) L. W. Sumner, 2014-07-14 At the heart of the current debate over abortion is the question of what is at stake for the liberal feminist group it is the woman's autonomy over her own body for the conservative pro life group it is the life of the fetus itself Rejecting both of these views as extremes L W Sumner opts for a moderate position for which he provides a moral foundation Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Same-Sex Marriage and American Constitutionalism*

Murray Dry, 2017-12-12 The two decades long controversy over same sex marriage in the United States was finally resolved on June 26 2015 when the U S Supreme Court handed down its decision in Obergefell v Hodges which held that the Fourteenth Amendment's Due Process and Equal Protection Clauses required states to allow same sex couples to marry on the same terms as opposite sex couples Under our American system of government divisive and often abiding disputes may be resolved either through legislation or judicial decisions In Same Sex Marriage and American Constitutionalism Murray Dry explains why the process by which Americans arrive at these resolutions can be as important as the substance of the resolutions themselves By taking up the question of same sex marriage Dry excavates the bases of why and how Americans decide as we do and as we have done when major questions arose in the past think school integration abortion gun control and campaign finance As Professor Dry retraces the path that same sex marriage took as it wended its way through the political that is the legislative process and through the court system he finds a vivid framework for the question Who should decide It's a question often overlooked but one that Dry believes should not be He argues convincingly that it does matter whether the Supreme Court or the legislature makes the final decision so that court mandated law does not threaten democratic representative government and so that legislation does not trample on fundamental constitutional rights

Globalization Challenged George Rupp, 2006-10-24 In *Globalization Challenged* George Rupp president of the International Rescue Committee outlines the steps necessary to engage the contemporary conflict between traditional religious belief and Western secularism According to Rupp the key objective is to build a community that is inclusive without denying the validity of particular commitments While he acknowledges the threat of resurgent fundamentalism Rupp also criticizes secularists who fail to recognize or acknowledge the role of religion and its ideological equivalents in influencing public policy All views he asserts are subject to comparative appraisal The challenge is to develop ways to evaluate different approaches responsibly leading to a greater understanding of one's own convictions as well as the positions of others Rupp reinforces his critical and theoretical analysis with dramatic accounts of recent events in Afghanistan the Democratic Republic of Congo and Sudan places where the International Rescue Committee operates He then addresses the role of globalization in fueling instability worldwide Inadequately regulated privatization has compromised health care education and social programs in many countries whereas an inclusive community would encourage a more equitable distribution of resources

Essays by Jagdish Bhagwati Jeremy Waldron and Wayne Proudfoot expand Rupp's arguments and in a final chapter Rupp responds to the issues they raise Essential reading for anyone who hopes to understand the roots of today's geopolitical tensions *Globalization Challenged* asks that we shed our complacency recognize the legitimate role of conviction and take actions to shape a more just and inclusive society

Christianity and Liberal Society Robert Song, 2006-01-13 Liberalism forms the dominant political ideology of the modern world but despite its pervasive influence this is the first book length treatment of liberal political thought from a Christian theological perspective Song discusses the different aspects and interpretations of liberalism with reference to the critiques of three twentieth century theologians the American Protestant Reinhold Niebuhr on the liberal progressivist philosophy of history the lesser known Canadian George Grant on the threat of technology to fundamental liberal values as articulated in the recent work of John Rawls and the French Thomist Jacques Maritain on the defence of political pluralism Further to this Song explores the implications of this political theology for the issues in fundamental constitutional theory raised by a bill of rights and judicial review of legislation and concludes with an account of the critical but supportive stance of liberalism Christian theology
