The Lin Piao Affair Michael Y. M. Kau, 1975 **The Lin Piao Affair** Tai Sung An, 1974 The Lin Piao Affair Michael Y. M. Kau, 1975 *China, an Analytical Survey of Literature* United States. Department of the Army, 1978 Negotiating Cooperation Robert S. Ross, 1997-05-01 In the 1970s and 1980s the United States and China developed cooperative relations to enhance security against the USSR Conventional wisdom claims Washington and Beijing agreed to shelve conflictual issues where conflict occurred diplomatic error or domestic politics are blamed This book shows however that US-China cooperation was fragile precisely because of ongoing conflicts notably that over Taiwan The author disputes Kissinger's claim that only he and Nixon understood Taiwan's unimportance China never found the US stance on Taiwan acceptable and the issue required constant attention The book shows how the two powers built cooperative relations despite Taiwan It explains how negotiations were conducted and why the two powers at times compromised and at times accepted the status quo It examines why relations on occasion became acrimonious and why the acrimony subsided

Mao's Last Revolution Roderick MACFARQUHAR, Michael Schoenhals, 2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in

masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China

The Chinese Military System Harvey W Nelsen, 2019-07-11 To understand the Chinese military and thereby the dynamics of China's peacetime army one must understand its organizational system To that end Harvey Nelsen has written a book that examines in detail the entire organization of the Chinese People's Liberation Army PLA Dr Nelsen studies the PLA from top to bottom Throughout he challenges the widely held theory that military politics in China are largely determined by personal relations among officers and that the PLA is more a civic action army than are most military organizations Important as a purely military study this book is valuable also for the light it sheds on the whole of Chinese bureaucratic politics This second edition has been revised to reflect changes that have occurred since the death of Chairman Mao as well as to incorporate new information about the Chinese military and political system during Mao's reign

From Muskets To Missiles Harlan W. Jencks, 2019-03-01 This book examines the extent nature and political implications of professionalization in the Chinese

People's Liberation Army (PLA). It provides a description and evaluation of the military, political, economic, and social context within which PLA officers have functioned since the civil war.

China During the Cultural Revolution, 1966-1976 Tony H. Chang, 1999-01-30 One of the most tumultuous periods in modern Chinese history, the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life, including art, music, and drama, education, factory management, economic planning, and medical care. Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades. This comprehensive, easy-to-use bibliography provides a guide to published English language sources on the Cultural Revolution. With over a thousand entries, it includes books, monographs, dissertations, and audio-visual materials on a broad range of topics, from the military, education, religion, and economics to foreign relations, population, art, literature, and drama. Including titles published through the end of 1997 and a few in 1998, the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China. Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history.

The 20th Century Go-N Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

The Dragon in the Jungle Xiaobing Li, 2020-01-02 Western historians have long speculated about Chinese military intervention in the Vietnam War. It was not until recently, however, that newly available international archival materials, as well as documents from China, have indicated the true extent and level of Chinese participation in the conflict in Vietnam. For the first time in the English language, this book offers an overview of the operations and combat experience of more than 430,000 Chinese troops in Indochina from 1968-73. The Chinese Communist story from the other side of the hill explores one of the missing pieces to the historiography of the Vietnam War. The book covers the chronological development and Chinese decision-making by examining Beijing's intentions, security concerns, and major reasons for entering Vietnam to fight against the U.S. armed forces. It explains why China launched a nationwide movement in Mao Zedong's words to assist Vietnam and resist America in 1965-72. It details PLA foreign war preparation, training, battle planning, and execution, tactical decisions, combat problem-solving, political indoctrination, and performance evaluations through the Vietnam War. International Communist forces, technology, and logistics proved to be the decisive edge that enabled North Vietnam to survive the U.S. Rolling Thunder bombing campaign and helped the Viet Cong defeat South Vietnam. Chinese and Russian support prolonged the war, making it impossible for the United States to win. With Russian technology and massive Chinese intervention, the NVA and NLF could function on both conventional and unconventional

levels which the American military was not fully prepared to face Nevertheless the Vietnam War seriously tested the limits of the communist alliance Rather than improving Sino Soviet relations aid to North Vietnam created a new competition as each communist power attempted to control Southeast Asian communist movement China shifted its defense and national security concerns from the U S to the Soviet Union Mao's Way Edward E.
