The Palermo Stones:

The Palermo Stone and the Archaic Kings of Egypt Patrick F. O'Mara, 1979 **Royal Annals Of Ancient Egypt** Wilkinson, 2012-08-21 First published in 2000 The kings of ancient Egypt's first five dynasties were responsible for the creation of a unique and enduring civilisation epitomised by its most impressive monuments the pyramids Yet what do we know about the reigns of these kings Excavations have revealed much but Egyptology has always been blessed with another rich source of information the written texts and inscriptions composed by the ancient Egyptians themselves For the history of the first five dynasties one particular series of inscriptions has always been of prime importance This is the collection of inscribed stone fragments known as the Royal Annals Now divided between museums in Palermo Cairo and London these documents from ancient Egypt have been the focus of countless studies in the century or so since they first came to light for they seem to record the reigns of Egypt's early kings on a reign by reign year by year basis The information they contain has been translated interpreted and re-interpreted by generations of Egyptologists in the hope of achieving a better understanding of the first great period of ancient Egyptian history And yet amazingly for such crucial documents no complete edition of all seven surviving fragments has ever been published *Royal Annals of Ancient Egypt* fills this gap The text is accompanied by specially commissioned detailed line drawings of all the fragments *The Palermo Stone* Edouard Naville, 2023-04-13 The Palermo Stone is possibly one of the oldest records of Egyptian History being a fragment of the Royal Annals of the Old Kingdom This booklet the first English translation of an article written in 1903 by French archaeologist Edouard Naville is one of the earliest studies of this stone fragment **In Search of History** John Van Seters, 1997 The primary concern of the book is to understand the origins and nature of history writing in ancient Israel The investigation is undertaken against the background of history writing in the Near Eastern and classical worlds Professor Van Seters begins with a broad survey of all the historiographic material relevant for the study of Israel's own writing of history He then turns his attention to the question of Israel's historiography by focusing particularly on the Deuteronomistic Historian the first Israelite historian *Texts from the Pyramid Age* Ronald J. Leprohon, 2005 Strudwick's helpful introduction to the history and literature of this seminal period provides important background for reading and understanding these historical texts Like other volumes in the *Writings from the Ancient World* series this work will soon become a standard with students and scholars alike **BOOK JACKET** *The Palermo Stone* Michael St. John, 1999-08-01 **The Representations of Statuary in Private Tombs of the Old Kingdom** Marianne Eaton-Krauss, 1984 Based on the author's thesis Ph D New York University 1978 **Ancient Records of Egypt: Supplementary bibliographies and indices** James Henry Breasted, 2001 An indispensable companion to any of the other volumes of *Ancient Records of Egypt* the *Supplementary Bibliographies and Indices* facilitates direct access to specific information on the people places and inscriptions catalogued by James Henry Breasted Exhaustively compiled and intelligently arranged these indices include the kings and queens temples and

geographical locations divine names and titles and ranks encompassed by three thousand years of Egyptian history Also provided are indices of all Egyptian Hebrew and Arabic terms mentioned in the texts as well as a complete listing of the records with their location in Lepsius's Denkmäler This first paperback edition of Ancient Records of Egypt features the important addition of bibliographies by Peter A Piccione together with an introduction that puts Breasted's historical commentaries into modern perspective These bibliographies offer valuable guidance on new translations and modern treatments of the inscriptions included in Ancient Records of Egypt Professor Piccione points the reader toward recent studies of Egyptian chronology and modern scholarship on Egyptian and Nubian history He also provides information on anthologies of Egyptian texts in translation and topographical bibliographies that suggest further reading on specific ancient Egyptian monuments texts and reliefs

Ancient Records of Egypt: Indices James Henry Breasted, 1907

Seeds of Western Culture Graham P Scott, 2026-01-01 The book discusses two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal's reference to Shoshenq's participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards

modern astrology
