Sixty Years On Women Talk About Old Age:

Women & Aging Helen Rippier Wheeler, 1997 Guide with more than two thousand bibliographic entries and cross references It includes journal articles book chapters essays and doctoral dissertations as well as complete books **The Oxfam Handbook of Development and Relief** Deborah Eade, Suzanne Williams, 1995 This handbook is the product of the experience of Oxfam UK and Ireland in its work in over 70 countries around the world It offers an expression of Oxfam's fundamental principles that all the people have the right to an equitable share in the world's resources and the right to make decisions about their own development The denial of such rights is at the heart of poverty and suffering This reference work analyses policy procedure and practice in such fields as health human rights emergency relief capacity building and agricultural production **Women Ageing** Miriam Bernard, Val Harding Davies, Linda Machin, Judith Phillips, 2005-06-22 Women Ageing provides a better understanding of what ageing is like for women and challenges the myths which have grown up around the ageing process Blending the scholarly the personal and the political it reveals the range of strategies and identities women adopt to manage the transitions of the second half of the life course In doing so it uncovers not only the commonalities and the similarities between mid life and older women but also some of the variation and diversity relating to ethnicity and race class disability and sexual orientation Women Ageing makes the ordinary lives of ordinary women as in this instance they grow older more visible Its findings have important implications for policy and practice All those studying or working with older people will find it an illuminating text **Women, Oppression and Social Work** Lesley Day, Mary Langan, 2002-09-11 Many of the gains of the women's movement over the past 20 years now seem threatened by the combined effects of prolonged economic insecurity reductions in the scope of welfare provision and a general shift in the climate of public opinion to the right Social workers are faced with the growing demands of a more impoverished and more unstable society with less resources to meet these demands In response to these pressures feminist social work has begun to move beyond some of the limitations of both the traditional and radical social work models of the past The emerging anti discriminatory model recognizes the diversity of oppressions according to race gender and class as well as those of age disability and sexual orientation Women Oppression and Social Work offers a new perspective on feminist social work which takes account of the complexity of the manifold oppressions that affect the lives of most women and most social work clients **Ageing and Popular Culture** Andrew Blaikie, 1999-03-04 As the grey market perpetuates the quest for eternal youth the biological realities of deep old age are increasingly denied Ageing and Popular Culture traces the historical emergence of stereotypes of retirement and documents their recent demise arguing that although modernisation marginalisation and medicalisation created rigid age classifications the rise of consumer culture has coincided with a postmodern broadening of options for those in the Third Age With an adroit use of photographs and other visual sources Andrew Blaikie demonstrates that an expanded leisure phase is breaking down barriers between mid and later life At the same time positive ageing also

creates new imperatives and new norms with attendant forms of deviance While babyboomers may anticipate a fulfilling retirement none relish decline Has deep old age replaced death as the taboo subject of the late twentieth century If so what might be the consequences *Mother Time* Margaret Urban Walker,2000-03-09 This collection of original essays opens up a novel area of inquiry the distinctively ethical dimension of women s experiences of aging Fifteen distinguished contributors here explore assumptions experiences practices and public policies that affect women s well being and dignity in later life The book brings to the study of women s aging a reflective dimension missing from the empirical work that has predominated to date Ethical studies of aging have so far failed to emphasize gender And feminist ethics has neglected older women even when emphasizing other dimensions of difference Finally work on aging in all fields has focused on the elderly while this volume sees aging as an extended process of negotiating personal and social change Ageing and Social Policy in Australia Allan Borowski,Sol Encel,Elizabeth Ozanne,1997-11-17 Industrialised countries worldwide have for years been confronting the prospect of a steadily ageing population This book first published in 1997 reflects the breadth of research into gerontology and analyses the major themes and issues in the area of ageing and social policy in both an Australian context and from an international comparative perspective Topics discussed include unemployment education and housing for the aged Added to this is the contemporary influence of multiculturalism and the challenge it poses to policies and programs that must cater for a growing diversity in the ageing population A special focus is given to the situation of women and Aboriginal Australians and the specific structural disadvantages they face This book is essential reading for students and policy makers in sociology social and public policy gerontology and public health Lifetimes of Commitment Molly Andrews,1991-05-31 Explores the ways in which political belief is developed and sustained throughout the course of a lifetime Through interviews it focuses on the lives of 15 British men and women aged between 70 and 90 who have dedicated half a century or longer to working for social change and justice **Women In Later Life: Exploring Race And Ethnicity** Afshar, Haleh,Franks, Myfanwy,Maynard, Mary Ann,2008-05-01 This volume is based on feminist qualitative research with older women contextualised within current literature debates in the field of social gerontology The authors provide an overview of current knowledge understanding about the circumstances experiences of older people in relation to gender ethnicity **Older Women in the Criminal Justice System** Azrini Wahidin,2004 What is life like for the women who grow old behind bars Azrini Wahidin examines in depth the experiences and needs of this overlooked group Illuminating reading for all those working in the prison services probation and the courts Older Women in the Criminal Justice System offers a rare view of what happens to women who grow old in prison
