Skeleton Beach:

Skeleton Beach Bethan Christopher, 2005 When Jody and her brother Alex wish on a magic hag stone they find down on the beach the last thing they really expect is for hungry dinosaur skeletons to march out of the cliff Cut off by the roaring beasts they scramble into a cave but who else has been woken by the magic Suggested level primary

Longest Beaches Yves Earhart, AI, 2025-02-12 Longest Beaches explores the world's most extensive sandy coastlines examining their geological origins ecological importance and the impact of human activities It addresses the geological processes that create these coastal landscapes the diverse ecosystems they support and the challenges of balancing tourism with conservation For instance the book highlights how erosion and sedimentation driven by ocean currents and tectonic activity shape these beaches over millennia It also uncovers how these seemingly barren landscapes are actually biodiversity hotspots vital for migratory shorebirds and nesting sea turtles The book emphasizes that these beaches are not merely scenic but essential ecological systems facing increasing threats It progresses by first detailing the locations and physical characteristics of the longest beaches followed by an examination of their unique biodiversity The final section analyzes human impact including the economic benefits of tourism and the environmental consequences of development concluding with strategies for sustainable management This approach provides a deeper understanding of the ecological and economic importance of beaches offering practical applications for coastal management and environmental responsibility
