Noetics Lawrence Krader,Cyril Levitt,2010 Noetics is Lawrence Krader s magnum opus which he began while still an undergraduate philosophy major at the City College of New York in the 1930s By examining the architectonics of some of the greatest thinkers in history Aristotle Plato Descartes Leibniz Spinoza Kant Hegel and Husserl among others as works of art combining myth speculation and empirical science Krader tackles one of the central problems of the philosophy of science what is science and how does it relate to human thinking and knowing more generally Building on his theories concerning the different orders of nature adumbrated in his Labor and Value 2003 he follows not only the lines of development of the

three fields of science corresponding to three orders of nature material quantum and human but also examines the development of all three as human processes and products Krader takes up the relations of thinking and knowing in conjunction with emotions feelings and judgment and examines the processes of abstraction as one of the key and unique features of human being and knowing He proposes noetics as a science of thinking and knowing and establishes its relation to the natural sciences the human sciences and the arts The breadth and depth of Krader s scholarship is stunning and evokes Spinoza s thought that all things excellent are as difficult as they are rare *Architect s Drawings A Selection of Sketches by World Famous Architects through History* ,2025-08-31 Architect s Drawings A Selection of Sketches by Architects Through History is a fascinating journey into the role of sketches in the design process From the Renaissance to contemporary practice this book explores how architects have used drawings not just as technical tools but as instruments of imagination inspiration and communication

Drawing in Black & White Deborah Velasquez,2016-12-01 The style of this book is loose and easy about having fun and learning to work within the confines of black and white rather than depending on color Art Elements Working with only positive and negative lines and shapes keeps the focus on the basics composition balance and harmony And using white and black gel ink and paint pens on black tan and gray papers allows you to experience drawing in a whole new way Drawing in Black White is a clever drawing and design book that contains 36 inspiring exercises and a gallery of artwork Follow the tips and draw on black gray and tan paper to learn how different colored papers can make simple images pop You ll find lessons on drawing pattern drawing drawing with cut paper and simple collage Learn to see your drawings a new way by drawing in black and white While confined to only two colors black and white this guide s techniques materials and tools are not nearly so limited Readers with some experience drawing and painting are the best audience for this guide but there is plenty here for beginners and advanced artists too Library Journal The goal of the book is to let you be familiar with black and white media to draw and have fun It s a fun activity book for those who want to dabble with art Parka Blogs

Recto Verso: Redefining the Sketchbook Dr Angela Bartram,Dr Douglas Gittens,Dr Nader El-Bizri,2014-06-28 Bringing together a broad range of contributors including art architecture and design academic theorists and historians in addition to practicing artists architects and designers this volume explores the place of the sketchbook in contemporary art and architecture Drawing upon a diverse range of theories practices and reflections common to the contemporary conceptualisation of the sketchbook and its associated environments it offers a dialogue in which the sketchbook can be understood as a pivotal working tool that contributes to the creative process and the formulation and production of visual ideas Along with exploring the theoretical philosophical psychological and curatorial implications of the sketchbook the book addresses emergent digital practices by way of examining contemporary developments in sketchbook productions and pedagogical applications Consequently these more recent developments question the validity of the sketchbook as both an instrument of practice and creativity and as an educational device

International in scope it not only explores European intellectual and artistic traditions but also intercultural and cross cultural perspectives including reviews of practices in Chinese artworks or Islamic calligraphy and situational contexts that deal with historical examples such as Roman art or modern practices in geographical cultural regions like Pakistan
