Every practitioner will need to take steps to maintain and demonstrate continued competence under the provisions of the new Health Act 1999. This book considers current policy on CPD and discusses the theoretical basis for maintaining competence and for adult learning. Primarily, however, it provides practical guidance on how to develop a strategy for professional and career development and on portfolio preparation that shows evidence of professional updating and CPD. Many examples are given of activities in the areas of clinical work, management, education and research that can be used for CPD. The development and use of learning skills such as reflection and critical evaluation is considered central to the process. Written specifically with the therapist in mind, this book will provide invaluable practical advice to occupational therapists, physiotherapists, radiographers, speech and language therapists and podiatrists.
