How can it be that even with all the advances modern healthcare has made we're experiencing record levels of ill health from diabetes heart disease and cancer to osteoporosis dementia and depression We're more health conscious than ever before and no matter which way we turn we're bombarded with promises of the best thing for living longer and healthier lives But the truth is the messages are flawed and if we follow them we won't achieve the good health we long for Something somewhere has gone horribly wrong At last cutting through the misinformation The Health Delusion has the answers all backed by hard science It exposes the shocking truths behind our diet health and pharmaceutical industries and how they consistently put our health in jeopardy in favour of boosting their profits as well as showing how the media makes things even worse by misleading us at every turn So how can we put things right Providing a complete 21st
