 Americans belatedly realized that they lacked national identity The subsequent campaign to articulate nationality
 transformed every facet of culture from architecture to painting and in the realm of letters literary jingoism embroiled
 American authors in the heated politics of nationalism The age demanded stirring images of U S virtue often achieved by
 contriving myths and obscuring brutalities Between these sanitized narratives of the nation and U S social reality lay a
 grotesque discontinuity vehement conflicts over slavery Indian removal immigration and territorial expansion divided the
 country Authors such as Washington Irving James Fenimore Cooper Catharine M Sedgwick William Gilmore Simms Nathaniel
 Hawthorne and Lydia Maria Child wrestled uneasily with the imperative to revise history to produce national fable Counter
 narratives by fugitive slaves Native Americans and defiant women subverted literary nationalism by exposing the plight of
 the unfree and dispossessed And with them all Edgar Allan Poe openly mocked literary nationalism and deplored the
 celebration of stupid books appealing to provincial self congratulation More than any other author he personifies the
 contrary alien perspective that discerns the weird operations at work behind the facade of American nation building
