Sociology Today Problems And Prospects:

Sociology Today American Sociological Association, 1959 The scope of this volume is loosely defined by its subtitle Problems and Prospects It does not aim to describe the current state of sociological knowledge the authors of this book sort out and critically examine problems for investigation that developments in the major branches of sociology have thrust into prominence They deal for the most part with strategic problems with those that must be solved before it becomes possible to work to good effect on other sociological problems in the offing In considering these problems the authors found it necessary of course to review some of what is known in one or another division of sociology The collection of papers thus summarizes much of contemporary sociology although that is not its principal intent The papers are devoted to the problematics of the major divisions of sociology to a methodical statement of what each author takes to be the significant theoretical empirical or procedural problems in his field that require and in part are receiving systematic study
